----CREAM SEPARATORS.

Editor Review. Dear Sir. Now that the town is about to have a Cream Separator factory, a few words on "hand separators" may not of Liberalism into disrepute must bear | be amiss There are more hand sep-

the consequences. This is the attitude of arators used to-day than ever before, Liberals in the House or out of it. It is and still there is a growing demand | fine thoroughbred Tamworth Boar Many people think that one make of machine is better than another.

There is no difference in the machines tended Pedigree may be seen on application.

as far as the closeness of skimming goes. Some machines are more easily cleaned than others and this is an advantage. The operator does not want to take a longer time to wash the bowl than it takes to separate his milk. than others. Before buying a machine perty in Upper Town. For terms and always try the crank.

The bowl is the most important part of any machine. It should be simple in construction, easily taken apart to be cleaned, yet it should be a close skimmer. The skimming devices in the different bowls vary a great deal. Some divide the milk into thin horizon-Mr and Mrs Thos Banks leave this | tal layers, some into oblique layers and 1903, week for Owen Sound where they in- others into vertical layers. All this is If you desire to secure a good bus- tend to reside. Our best wishes go done to effect a thorough separation, also for an easier separation of the milk Mr Fred Staples is engaged with and cream. It must be remembered Lyman and McClocklin, of town, for that the cream is lighter than the milk serum (skim milk) and therefore seeks the centre of the bowl. The closer the skim milk delivery is to the centre of the bowl the more easily it will turn. This is why the tubes are placed from the outside of the bowl to the neck or top of bowl.

It an agent comes to you and tells you there is no better machine, don't you believe him. The one he sells will likely have some superiority over the others but it will not skim any guest of her daughter Mrs Robt closer. Some agents, in order to make a sale, will say that the bowl need be Pleased to hear that Mrs Jno Collier | washed only once a week -some say not as often as that. If you have a separator and want to make good butter you will have to wash it every time you use it, and wash it well.

The stand needs to be set level and made solid. If the stand is not level or the machine solid it will soon shake it to pieces and you will reed a new Make the agent set it up properly and if it does not run smoothly tell the agent and get him to fix it.

I think Mr Editor that this is enough this time. I hope the Durham factory may aid in decreasing the price of the
