At the meeting of bankers in Clay Almost. A word of fearful import! Centre last week F. P. Biake, responding to the toast "Securities," told of a pretty young widow who got into financial straits and borrowed from his bank \$20 on the security of a fine Jersey cow. It nearly broke her heart, she said, to pledge the animal, which was almost as dear to her as her children. Then came a long period in which the renewed the note time after time, sometimes paying interest and some times not, and always distressing the bank officers with her sorrowful talk "One day," proceeds the story, "she showed up in a more sorrowful frame of mind than usual. and with more tears, and with wetter tears also, than usual, announced she had given up the struggle. The cow was dead and she was wearing her life out under the weight of a debt unsecured, and which she saw no prospect of ever being able to pay. She wanted it discharged. The cashier took to the woods, telling Blake that it was no use for the

He saw them lounging in their shirtsleeves, with ritles piled in disarray when the shadows that their tents threw out lay like dark streams in the brilliant sunshine, and as he looked he laughed, the quick, short, magnetic laugh, which told them they were understood, And when the word was passed from group to group that this was "Hector," and, like a mob of boys fresh loosed from school, they swarmed around him, tossing their rough felt hats high in the air and cheering as they used to cheer upon the cattle stations when a maddened herd of hoofs and horns broke for the scrub, and had to be wheeled for the open at the risk of life and limb. He, alert, keen-eyed, resolute of face and bearing, looking from head to heel a soldier, heard their cheers and tossed them sharp, short words of the magnetism of his presence. That was his way.
