THE HOME AS HOME SHOULD BE.

(By Mrs. John Logan.) When one hears of the destruction of a home that has been established by "two hearts that beat as one." one is pained and appalled, and yet such calamities are of almost daily occurrence.

Until within the last quarter of the nineteenth century home meant to us a hallowed spot that was worthy of the steadfast devotion of all of the family belonging to it. It never occurred to either the male or female members to dishonor their home, or to disturb its peace. Neither could they be induced to leave it, except to establish one of their own. CAPITAL PUNISHMENT.

Hangings are Witnessed by Crowd fos Morbidly Curious People.

Three murderers were hanged in Missouri recently-Bud Taylor in Kansas City, Dr. James L. Gartrell in Butler, and Charles May in St. Joseph. In Kansas City the death chamber in the jail was packed with curious spectators, and a large crowd assembled in the early morning outside the building. The hanging of Gartrell was witnessed by 1 .-500 people within the jail inclosure, and on the outside people climbed on the roofs of adjoining houses to catch a glimpse of the condemned man. In St. Joseph there was the usual excitement attendant upon

such tragical events. That this sort of morbid curiosity, and the efforts that is put forth to gratify it, is distinctly demoralizing, is apparent to all thoughtful intelligeat persons. That the publicity of these terrible examples of the law's vengeance does not act as a deterrent to murder is definitely demonstrated by the continuation and constant recurrence of homicide in Missouri. The expediency of capital punishment may be open to debate, but it is beyond question that the method of its accomplishment in While public sentiment may favor,

Six hundred not too friendly, discontented, quietly wild Indians were escorted to the boundary line by a bunch of American cavalry, 300 strong. At the boundary were two British soldiers, astride two handsome horses, a corporal and a private of the Northwest Mounted Police. The American colonel and the Canadian corporal held speech. "Where," demanded the American officer, "is your escort for these

"Yes, yes, I see," was the answer, "but where is your regiment?" "We are the regiment," said corporal "Canuck."

"But there are only two of you," gasped the American colonel. "Yes, but we wear the British scarlet," said corporal "Canuck."

It was enough. The mx hundred unruly Indians marched silently across the border. The two mounted policemen fe l quietly to the rear and conducted the hostiles a hundred miles northward, where they would fret Uncle Sam no more. It is on record that the American officer in command of that cavalry three hundred strong, lifted his voice and swore. The incident was recorded and discussed at Washington, D. C. The cost of the affair to Uncle Sam was the pay and living of three hundred men and officers. The cost to Canada was \$1 a day for three days for two mounted policemen. Corporal "Canuck" made history when he said, "Yes, but we wear British scarlet." And so our American fellow-passengers fell asleep like children, well knowing that Corporal Adams and his eight
