FARMERS' INSTITUTE.

The Annual Meeting of this body was held on Tuesday. The attendance was not so large as usual, but the interest and profit of the meeting was not less. The election of officers resulted as follows:—President, Wm. Young; Vice-Pres., Wm. Irvine; Secy.-Treas., Geo. Blaine. Directors:—Bentlick, Jno. Picken, Sam Dickson; Egremont, Jas. Allan, D. Hamilton; Normanby, Rich. Barber, Thos. Gadd; Glenelg, Dan Edge, Wm. Smith; Durham, R. McFarlane, Geo. Hepburn; Hanover, H. B. Miller, Val. Kirchner. Auditors:—Arch. Davidson, C. Kamage. Mr. A. McNeil, Dominion Fruit Inspector, of Essex County, was present and immediately after the installation of the new Chairman and some brief remarks, he was called upon. He opened with some complimentary references to their business methods and impressed the importance of electing good officers on whom rested largely the success of the institution. Before entering on his speciality, Fruit Growing, he gave some excellent advice as to the necessity of farmers taking a broad view of the whole situation affecting the producing as well as the selling end of their business. For instance, the selection and number of middlemen, the transportation of their products to the consumer, &c. By a single unjust increase in transportation charges, the farmer might be deprived of benefits he is entitled to. Properly conducted Institutes were valuable aids to the farmer in securing this broad view. He then discussed the capabilities of the fruit industry by citing examples of successful orchardists who from a few acres had made large profits, by judicious selection of varieties in the first place and proper attention during growth and marketing. He blamed farmers for not being more careful in selection of trees for themselves, instead of through agents, of an irresponsible nature. Concerted action was necessary to secure an extensive growth of similar kinds in one neighborhood to encourage buyers to come and have something worth buying for export. He commended as most suitable for export the Baldwin, Greening, Ben Davis, King, and N. Spy kinds as old and reliable. The two latter should be top grafted on earlier-bearing trees. At this point adjournment was made to the Munro orchard for practical work. Here on a delightful afternoon, expert, pointing out defective trimming, where grafting should be done, &c., &c. Black knot can be eradicated if the law is put in force as in his county where 30 years ago it was common now seldom seen. Clay and cow manure he recommended as a simple and effective substitute for wax, which, however, was easily made by taking 1 lb tallow, 2 of beeswax, 4 of rosin, melt in a tin dish, and with tallow-greased hands pull and work like taffy. A further adjournment was made to Mr. Rose's Orchard, where young trees and small fruit were discussed. WOMEN'S INSTITUTE. A very successful meeting was held same day, in the Lower Hall. The Pres., Mrs. Thos. McGillivray gave an excellent paper, and as usual Miss Laura Rose, of Guelph, made a very valuable afternoon.

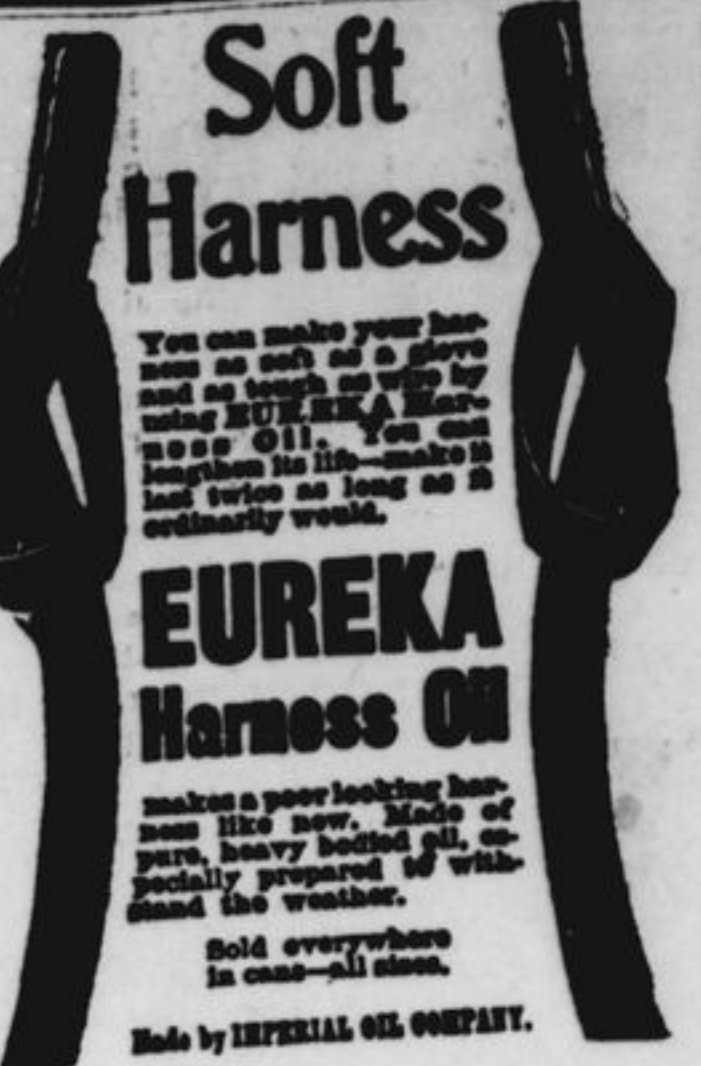

"BELIEVED NOTE A FORGERY."

Appos of the article in last week's issue regarding the McPherson—Blunden case, the following from last week's Times is pertinent: His Honor Judge Morrison handed out his decision this morning in the matter of the McPherson estate. Respecting the claim of Mrs. Blunden, of Chicago, a sister of deceased, for \$2700, the judge stated that he believed the note to be a forgery from a signature attached to a letter in the possession of the claimant. This contention was supported by expert evidence, though it must be said in fairness to the claimant that Thomas Bengough, court stenographer, and a recognized expert on handwriting, held the signature to be genuine. In this connection it may be said that in a previous case, where it was stated that the claimant could not be found the next morning, it might have been said that her departure was because of the receipt of urgent telegrams, and because her solicitor did not consider it necessary that she should be further detained, since she had given her evidence and nothing more was required. J. W. Frost appeared for the claimant, W. H. Wright for the executors, and H. E. Sampson for the widow. The estate amounting to almost five thousand dollars, only \$31.64 was allowed, the widow's right to almost the entire estate being thus recognized.

TORONTO'S HOLIDAY.—The City of Toronto is making an interesting departure in Horse Shows and is holding a novel form of equine Exhibition in the open air on the afternoon of July 3rd in connection with the Old Home gathering which the Board of Trade of that city has arranged. Instead of extending a Show over one week in Madison Square it will all be done in one hour of a sunny summer afternoon. The beautiful Queen's Park and University oval in Toronto furnish roadway around adjoining circles of over two miles and on these will be ranged upwards of 500 horses and carriages. An army of judges will make the awards simultaneously and the judging will not occupy above an hour. Then the whole exhibition will move around the oval and pass in review before His Excellency the Governor-General of Canada, Lord Minto. It is expected that over 200,000 people will witness this unique Horse Show. It is designed to show to the thousands of home-coming Canadians how important a centre of the horse breeding industry Toronto has become.
