The Chinese Indemnity.
London, June 8.—The Times correspondent at Peking notes a greater disposition on the part of the foreign ministers to view with favor Great Britain's proposal that China pay her indemnity on a silver basis for nine years and in gold thereafter, leaving the question open whether China shall ultimately pay the difference. He says that even if the United States accepts payment of her indemnity in silver it should be remembered that the \$5,000,000 that the U. S. claim exceeded her actual losses and leaves a wide margin in her favor, though not so large as in the case of some European powers.

WORK OF BASHI-BAZOUKS.

Outrages Perpetrated by the Turkish Irregulars.

WOMEN AND CHILDREN SLAIN

Monastir, European Turkey, Sunday, June 8.—Horrible details are arriving here of the slaughter of the inhabitants of the village of Smerdash, south of Lake Preba, May 21, by Bashi-Bazouks. It appears that on the arrival of the Bashi-Bazouks, Chakaloff's band of irregulars withdrew to the mountains without sustaining any loss. As no rebels were left in the village the inhabitants experienced no anxiety until, suddenly at sunset, the Turks, who had quietly surrounded the place, commenced a bombardment. Infantry also fired. Finally the village was set on fire, and Turks began a general massacre. About three hundred houses were burned, and upwards of two hundred persons, mostly women and children, were killed. The women and girls were murdered while resisting outrage. Whole households were slain. One family of seven were slain and their bodies were heaped on the hearth. Some of the villagers who sought escape in flight were captured, and had their ears and noses cut off before they were butchered. The report adds that 1,500 villagers were in the mountains without clothing or food. One band of these, consisting of forty women and children, were caught by soldiers in a ravine, and were killed after horrible treatment.

There was a renewal of the trouble on the frontier last night. A band of 1,200 Bulgarians crossed the frontier near Djumabala, and Turkish troops encountered another band of 20 men north of Petrich (53 miles from Salonica). Three of the Bulgarians were killed and the remainder escaped in the darkness.

A court-martial at Salonica has condemned four Bulgarians to death.

THREATENED MINERS' STRIKE OVER CONCILIATION BOARD.

United Mine Workers Wish to Choose Miners' Representatives on it.

Wilkesbarre, Pa., June 8.—At the session yesterday of the three anthracite boards of the United Mine Workers, it was decided to hold a joint convention of miners at Pottsville on June 15th to determine whether or not a general suspension of work shall be declared.

The operators' members of the conciliation board, Superintendents Luther, Warriner and Connell, issued a statement of their reasons for refusing to recognize District Presidents Nichols, Dettrey and Fahy. They say the representatives of the operators have been appointed strictly within the terms of said award and there is no objection on their part to accepting Messrs. Nichols, Dettrey and Fahy as the representatives of the miners, providing they are elected by a majority of the miners as specified in the award of the commission. The objection is solely against their appearing as the official representatives of the United Mine Workers of America, appointed by an Executive Committee without authority for such appointment.

District President Fahy, Chairman of the miners' representatives admits that the miners selected their members not by calling a

WASHERWOMEN FORM UNION

Fashionable Folk in St. Paul Asked for Increase in Wages.
St. Paul, June 8.—The washerwomen have formed a union. Their first demand is an increase in wages from \$1.35 a day to \$1.50. The women include those who are employed throughout the St. Anthony Hill district. Many of the domestic servants of St. Anthony Hill are organized, and refuse to do washing. Hence the washerwomen have it in their power to force the housekeepers of "Sweldom Town" to either put up the cash or wear sold silk stockings. The washerwomen have served notice that they will hold to the union scale, and that no washing will be done unless the increase is paid.

FELL FROM TRAIN.

Shocking Death of an Attwood Man at Winnipeg.
Winnipeg, Man., June 8.—The horribly mangled and decapitated body of William L. Lengmier was found on the track on the way line of the Canadian Pacific railway yesterday. It is thought that Lengmier, who was a brakeman, fell from the train on his way to the city. The body will be taken to Attwood, Ont., for burial. Lengmier was about 25 years of age and unmarried.

THREE WERE DROWNED.

Sudden End to a School Excursion by Steamer.
Hannibal, Mo., June 8.—Three children were drowned here to-day by the collision of the steamer Flying Eagle, towing a barge filled with Sunday school excursionists, against a pier of Hannibal bridge. The dead are: Tony Curtis, aged 13; Laura Coppage, aged 15; Harry Eichenberger, aged 17. About 250 children from the Park Methodist Church Sunday school at Hannibal had boarded the barge, and a number were on the steamer. The excursion left for Quincy to afford the children a view of the swollen Mississippi. As the boat swung out into the river the swift current bore it straight against the stone pier of the bridge with a crash. The steamer did not sink immediately, and terror-stricken children and accompanying adults climbed up the pier to the bridge. Before all could reach safety the barge was veered around by the current, and, swinging loose from the pier, front-

ed down stream. In the sudden swinging of the barge three children were thrown into the water and were drowned. Carried by surging waters at a rapid rate, the barge, with screaming children, floated down the river, but a fleet of boats put out, and all left on board were rescued.

HOLE IN HANDKERCHIEF.

Doctor's Evidence at Inquest on Murder at Collingwood.
Collingwood, June 8.—The inquest in the Whalen murder case was continued to-day. After the evidence of Dr. McFaul's post mortem was received the case was adjourned until June 10th. Dr. McFaul found beyond question that no effort at outrage had been made. The bullet had been fired through the handkerchief while it was around the girl's head, and it had been scored by the powder. There is several inches wide, an unconscious. Little interest was manifested, the room being but half full.

The police are now following up a new clue. Evidence has been found that two men, a white man and a negro, both tramps, were in the immediate neighborhood when the crime was committed, and notices have been sent to the chiefs of police in the eastern part of the Province, with orders to arrest the suspects, if found. The men were last seen around Thousand Island Junction, and it is supposed that they were making their way to the United States.

SANG HER DEATH REQUIEM.

Dramatic Passing of a Famous Austrian Opera Singer.
Vienna, June 8.—Irma Golz, an opera singer, who was well known in Austria, died to-day, aged 29 years. Her death, which abruptly terminated a promising career, was due to a disease which had already compelled the cancellation of arrangements for a long tour of Europe and America. Her end was particularly dramatic. At midnight last night she seemed to be aware that death was near, and she asked that she be removed from her bed to an arm-chair, and that she be dressed in the costume of her favorite character in "La Traviata." Having said farewell to her husband and relatives, the room was brilliantly illuminated at her request, and her brother played Mendelssohn's "Frühlingslied" on the piano. The dying woman followed the music with her voice, singing with indescribable pathos until the words "earth to earth" she fell forward upon the floor. Her doctors, stooping to raise her, found her dead.

THE AMES SUSPENSION. SOMETHING ABOUT THE CRASH.

Bear Raid Caught the Firm With Too Much Declining Stock.

Toronto report: As a result of the big bear raid on Canadian securities the well-known Toronto brokerage firm of A. E. Ames & Company were forced to the wall yesterday morning. An official statement is being prepared, and until it is ready any estimate of the firm's affairs must necessarily be a matter of conjecture. The liabilities will run up in the millions, but as there are assets in the firm of margined stocks which will in all probability be taken over by strong interests, it is confidently expected that with patience and careful management the showing will be much better than at first expected.

A. E. Ames & Co. have for the past six months been fighting a plucky battle against tremendous odds. The present condition of affairs is really a natural sequence of a period of unwarranted speculation. First there was a "bull" movement, which carried various issues to an unduly high level. This was followed by a period of prolonged liquidation, in which several international securities largely held by Canadians were singled out for attack by professional speculators in Boston and New York. The general depression in American securities favored the manipulators,

and Dominion Coal and Dominion Steel were unmercifully hammered by the Boston crowd. Unlucky circumstances, such as the fire in No. 1 colliery of the Dominion Coal Company, and Toronto, which gave a too ready credence to disquieting rumors sent out by the Boston crowd to serve their own ends.

Twin City, which was largely held in Toronto, was regarded as vulnerable by New York operators, and Siosse-Sheffield was also singled out because of its Canadian following. It so happened that the securities thus attacked were largely held by Ames & Co.

LIFE OF AN ANT QUEEN

Sir John Lubbock's Great Interest in the Study of Species.
How long may an ant queen live? In their natural habitat some queens doubtless have short lives; but by reason of the protection afforded them, and the seclusion enforced by the workers, they probably live much longer than other members of the community. Within artificial surroundings they attain a comparatively long life. The oldest emmet queen known to science was one preserved under the care of Sir John Lubbock, later Lord Avebury. A Lubbock, later Lord Avebury, was a distinguished naturalist and the writer for the first time saw this venerable sovereign, living in the ingenious artificial formicary which had been prepared for her since she was then in the prime of life, as it afterward appeared, being seven years old.

In the summer of 1887 Sir John was again visited, this time at his town house in London. After greetings, he was asked about his royal pet.

"I have sad news to tell you," he answered.

"What is the queen dead?"

"She died yesterday. I have not had the heart to tell the news as yet even to my wife."

Having offered my hearty condolences, I asked to see the queen. Sir John led the way to the room where his artificial nests were kept. The glass case which contained the special formicary in which the old ant had lived was opened up. Lying in one of the larger open spaces or rooms was the dead queen. She was surrounded by a crowd of workers, who were tenderly licking her, touching her with their antennae, and making other demonstrations as if soliciting her attention, or desiring to wake her out of sleep. Poor, dumb, loving, faithful creatures! There was no response. Their queen mother lay motionless beneath their demonstrations.

"They do not appear to have discovered that she is really dead," remarked Sir John. Afterward he wrote me of another queen which died at the age of fourteen. The ants dragged her body about with them when they moved until it fell to pieces.—H. C. McCook, in Harper's Magazine for June.

WEALTHY WOMEN WASH DISHES

In a Chicago Hotel in Which a Strike Was Ordered.

Chicago, June 8.—The strike of hotel and restaurant employees has spread to the Chicago Beach and Grand Pacific Hotel. At the Chicago Beach every man and woman employed in the hotel was ordered out and everyone from chambermaid to bell boy obeyed the summons instantaneously. Great indignation followed among the guests, who include many prominent and wealthy Chicagoans. They voted to stand by the hotel management, and richly dressed women, changing their dresses for more common ones, cleared tables and washed dishes.

The strike at the Grand Pacific was but so general. The waiters, waitresses, cooks, bar-tenders and porters were ordered out, but it is expected others will be ordered out soon.
