H. H. MOCKLER

PROM THE FAR WEST.

veniences. The people take great pride in their city, they love it. They speak well of it and they never hesitate to entime we meet in the "wild and woolly and two little children. West" as it is sometimes called, vet I have no hesitation in saying that members of Assembly have never been treated with greater kindness and generosity than they have been by citizens of British Columbia. I am somewhat afraid hat we are being spoilt.

As to the Assembly whose labors will soon be ended I must say that it was a grand gathering. I am told that it is the largest yet in the history of the Child's Blouses 45c church. All the meetings were intensewhich many of the people of the city took advantage. These were two facts that we could not possibly get away from. 1st, the spirit of brotherliness and unanimity that was manifested on all sides, 2nd, the go-ahead, business, statesmanlike manner of doing things that characterized all the proceedings. I will not attempt a digest of what has been accomplished for you will know that from the daily papers long before this letter can be published.

Enclosed you will find an account of Glenelg. Assembly Sabbath.

Yours sincerely. J. A. Matheson.

Gaelic services were held in the 1st Presbyterian Church in which the fol-

Mr Ross, preached an excellent sermon from 1st Peter 3, 4, in which he impressed upon a large congregation of earnest and appreciative listeners the precious ness and the genuineness of the Christian's hope, reality and the durability of the Christian's inheritance as contrasted with the transitory things of this life.

At the close of the service Mr Matheson spoke appreciatingly of the kindness shown to the Assembly by the people of Vancouver, a kindness that would never be forgotten. He referred also to the evident interest that is taken by his gaelic speaking hearers in this three years. Mr Varley made many new land in Christian work and at the friends during his ministry in the Methosame time expressed the hope that they would never forget the lessons taught in the homes from which they came and that the gold tried in the fire in a spiritual sense would be the gold for which they would most earnestly strive.

The singing which was first class was led by Mr H McKenzie, formerly of Loch-Carron, Scotland, but now an es teemed resident of this city.
