The Workman's picnic held in Sullivan's grove on July 1st was quite a success. The amount realized from tickets sold at the gate amounted to over \$100.00, besides sums received from other sources Grand Master Gibson, of Toronto, was there and gave a speech on the good of the order. The day was fairly good till near evering when it came on a downpour of rain which made all look to the east and west, north and south for their homes, ;but not before some of them got a drenching. We heard some one remark that in dry weather it would be a good idea for to have the Workmen get up a picnic and rain would come sure. Well if through the in-And look in our Store Window strumentality of the Workmen rains come it only adds to the innumeral good deeds done by them in times past as well as present.

A COMBINED BUG KILLER AND POTATO GROWER

Is going to take the place of Paris Green because it kills the bugs and makes the potatoes grow instead of killing the plant as Paris Green does--if you get too much on. We want every potato grower to try it whether a large grower or small but we know you do not like to experiment so we reprint the guarantee given by the manufacturers

"We hereby guarantee Dead Bug-when properly applied-to kill the bugs and increase the yield of potatoes and we further agree that if you plant one acre of potatoes using Dead Bug on one half and Paris Green on the other, if you don't get more potatoes from the half where Dead Bug is used-providing of course that soil is the same,-we will refund the money paid for Dead Bug."

We are agents for Dead Bug. It is cheaper than Paris Green but w can furnish Paris Green at lowest market price.
