Money to Loan at 4 1/2 per cent.

MACKAY & DUNN, Durham.

The Quarterly Meeting will be held in the Methodist church on Sunday morning, commencing at 10.15 a. m. Conducted by the pastor.

The Chatsworth Banner says: "The O. Sound lacrosse team is made up of players from all quarters of the Dominion, and if they do not win it will be to their discredit."

"THE HEDGES" FOR SALE.—Owing to the closing up of the estate "The Hedges," the residence of the late J. H. Hunter, M. P., is offered for sale. For price and particulars apply on the premises. Terms easy.

PASSED THE NORMAL.—Saturday's papers have the list of successful Normalists and amongst them we notice the names of Misses M. McKenzie, A. C. McKenzie and A. L. McCracken, who wrote at Ottawa. Congratulations.

Dead Bugs.—The best bug killer and Fertilizer in the market, at Darling's

THAT FLOWING WELL.—Still flows nor shows signs of diminution. The council as intimated last week took action to test its strength and found that it would rise only 20 feet in pipes, hence was of no value as waterworks. So there is water to waste. The drilling still goes on under some difficulty we should think, and we wait with patience for gas or oil or both or neither as the time will show.

LACROSSE.—The English lacrosse team at present touring Canada, played in Mt Forest last week with the local team and they were again defeated at Fergus by 8 to 5. They won at St. Mary's, Gravenhurst and a few other places but wins for them are the exception, confirming the superiority of Canadians at their own game, as established on the tour of the Canadian team in England. A number went from Durham to Mt. Forest and helped to make a \$200 gate.

You need summer goods now—take advantage of the big cuts in prices, at Mocker's midsummer clearing sale.

A COMET.—One of these rare but interesting celestial visitors is visible to the naked eye at present in the region of the Great Bear constellation, i. e. the Dipper, but is rapidly passing westward on its journey to the sun. To the eye it resembles a star of the 3rd or 4th magnitude, but is distinguishable by its blurred, misty appearance. Through a telescope of 45 times magnifying power the (Borelli's) comet is seen to have a tail and the nucleus is faintly defined in the surrounding mist. It is evidently going to approach the sun much nearer than we are and then whisk off into space once more unless it is caught by the great luminary.

One Car Barrel Salt, at Parker's warehouse.

A FINE PICNIC.—Thursday last pupils and friends of the Presbyterian S. School, boarded the train at 3 p. m., for Holstein, and in the beautiful grove there spent the time in fun and feasting till the hour for the evening train. The size of the company might well have caused anxiety as to provision, but without any miracle there was enough and to spare. Swings, races and lacrosse by the Juniors were features of the sports, and a race for the train in the evening by four dames, was, if not on the program, not the least piece of fun, we have been told. Speed and victory lay with a lower town lady. The arrangement with the G. T. K. enabled the S. School to come out about clear, and the youngsters got a free ride.

To make room for Fall Goods, prices are cut to pieces at Mocker's. We lose, you find, the dollars.

THE RAILWAY ACCIDENT.—The accident referred to last week had no more serious results than we indicated. 8 cars jumped the track and the coal contents of some of them were pitched as from a catapult, far into the adjoining swamp. The engine and two cars kept the track and the passenger coach fortunately was not upset. The traveller who was hurt was pitched several seats ahead and alighted on his back, but was able to move around. The cause is obscure, but is thought to have been the result of a truck of a coal car either breaking or leaving the track. Those who saw the track and ruined cars were impressed with the tremendous force that might have been deadly. The estimated speed of the train by various observers ranged from 35 to 60 miles. The wrecking engine and outfit soon put things to right again.

Best Machine Oil 35 cts a gallon, at Parker's.

Read Mocker's ad — Midsummer clearing sale now on.

Paris Green, strictly pure—as cheap as any place. Darling's Drug Store.

COAL.—The School Board recently laid in about 32 tons of coal which they obtained at a fair price.

SUGAR DON'T GO.—The Walkerton Telescope advises the winding up of their Sugar Co., as none of the others have been successful and there is nothing to attract capitalists.

DURHAM'S GROWTH.—As shown on the Voters' List is considerable. An increase of 70 over 1902. The North ward has an increase of 10, East ward 23, and West ward 37. In the lists this year the School Voters of Bentinck and Glenelg are also shown.

Boiled and Raw Linseed Oil, in barrel lots—at Parker's.

THE BRIDGE.—Mr. Arch. Davidson and his men have the foundations ready for the cement concrete piers and embankments for the new bridge. When these are completed, we presume all haste will be made with the placing of the superstructure and thus relieve the awkwardness of the round about drive from the station. The concreting is going on this week and the spot is an object of interest.

King Edward has taken action which will greatly please loyal teetotalers. A naval officer wrote to his Majesty asking if he would issue an order that when his health was toasted it need not be drunk in wine. The King replied through his secretary that the Lord of the Admiralty probably would not like his interfering by issuing orders, but he would be glad to have it circulated privately that he considered a toast as much honored by those drinking it in water as by those using wine.

ACCIDENT AT CEMENT WORKS.—Mr. Wm. Levi, injured last week at the Cement Work by a fall of fifteen feet, is recovering slowly. For a few days his case seemed hopeless but latest accounts are hopeful. While astride of a 6-inch belt being placed on a pulley he lost balance in some way as it started and was whisked over the other end and went crash to a brick floor. His jaw is said to be broken, some teeth knocked out, an eye severely injured, and other casualties. The only wonder is he escaped with life. Much sympathy is felt for him and his young wife.

A Dollar Bill found! During a half hour shopping at Mocker's midsummer sale.

COMMENDABLE SPEED.—This week the machinery of the New Cream Separator industry is being installed in the new building, and already quite a staff of men are employed. Every step taken by Mr. Broomall and his associates seems to indicate that the right men are at the helm, and that a great and successful industry is assured. Another new smoke stack is up and last Saturday the whistle blew for the first time. The building, though appearing low outside, is found to be on examination admirably fitted for the work. About 25 men are already employed, and we understand more than twice that many will soon be.

A farmer came to town with his wife to do some shopping the other day. On his way back the thought came to him that he had forgotten something. He took out his note book and went over each item checking it off, and saw that he had made all the purchases he intended. As he drove on he could not put aside the feeling that there was something missing. He again took out his note book and rechecked every item, but still found no mistake. He did this several times, but could not rid himself of the idea that he must have forgotten something. When he reached home his daughter came out to meet him and with a look of surprise, asked "Why papa, where is mother?"

ANOTHER DROWNED.—A despatch from Hanover to the Toronto papers says: "The waters of the old Saugeen River, at this place, claimed another victim this Saturday evening, in the person of a young man named Adam Birney. He with two other young men went in bathing about 7 o'clock. He jumped into the water and swam out about to the middle of the stream. It is thought he took cramps, for in a moment he sank beneath the water. His body was recovered about two hours after but life was extinct. He was a turner in the Knechtel Furniture Company's factory, and took a lively interest in lacrosse and football circles. He was about 21 years of age and unmarried. His parents live near Enniskillen in the County of Lambton.

DUNDALK SUFFERS BY FIRE.

This, Tuesday morning, a fire swept the best business portion of Dundalk. At this writing details are meagre, but the two banks, McFarlane & Richard's store and the west side generally is reported gone. The news came by morning train to Ceylon and Priceville, the wires being down.

BOY WANTED.—At once, to learn moulding. Apply at the Durham Foundry.

BARN BURNED.—During the violent thunder storm Tuesday evening the new barn of Mr A Crutchley, Glenelg, was destroyed by lightning.

FARM BOUGHT.—Mr. Robt. Landsay, Vickers, was in town Tuesday, making final arrangements for the purchase of the Fraser farm which lies in nicely with his.

Dr. Geo. S. Burt will be at the Mid-daugh House, Durham, on Wednesday, August 5th, for consultation in Eye, Ear, Throat and Nose cases. Hours, 12-4 p. m.

Dundalk votes on Monday on three or four by-laws, including waterworks, cement sidewalks, street improvement. The Herald seems to think there is danger of defeat from the indifference prevailing.

CRICKET.—A friendly game of cricket was played on the school grounds Tuesday between married and single men. Each side had two innings and the game from the start was keenly contested, but the benefactors won the match by 2 runs.

It is expected that one of the hardest contested lacrosse matches of the season will take place this Friday in Mount Forest between the Owen Sound aggregation and the Lornes of the former town. Mount Forest will have a little more trouble this time.

The fund that is being raised for presentation to Premier Ross now amounts in cash and subscriptions to about \$30,000. It has not been decided yet when the presentation will be made, but the committee who are looking after subscriptions will probably wait until the fund has reached \$30,000.—Ex.

DROWNING.—The fatalities from this cause are more numerous than ever. In boat and canoe on beach and river they go down to death. Usually the vigorous and strong on whom too often all warnings are lost. "The body was recovered but life was extinct." Such is the gruesome report that saddens many homes. Be careful.

VOTERS' LISTS.—A week ago Saturday we sent off Egremont Voters' Lists, and the list was first posted up in the Clerk's office in Holstein on July 20. This week we complete Durham lists, having practically got both out within the month, which, in a picnic season with an average run of job work and the weekly issue of the REVIEW is no small feat.

TIMELY WARNING.—The practice of writing on newspapers and packages to be sent through the mails has become so common that the Postoffice Department is sending out inspectors, in an effort to put a stop to it. Postmasters have been instructed to open all packages not sealed and if there is any writing to report the same to the Department. The law provides a fine as high as \$50 for this offence.

MAGISTRATE'S FEES.—A Port Elgin magistrate charged \$180 fees and was fined \$80 by Judge Barrett for imposing a fine in excess of what is allowed by statute. It appears the statute allows no fees for the case in point, the magistrate appealed and the Divisional Court decides that the penalty for excessive fees does not cover a case where no fees at all are allowed.

WILD MUSTARD.—Walkerton is the nearest of the eight places in the province selected by the Department of Agriculture to give an exhibition of destroying wild mustard. Packages of seed have been sent out to be sown on small plots which will just be ready about fair time for spraying. Brantford, O. Sound, Simcoe, Whitby, Renfrew, Perth and Richmond are the other centres.

AN OLD ADVERTISER SAYS:—"When a retailer's announcement is read, it is perhaps for the moment believed by the reader, but it she afterwards comes to the store and finds that what you have said is not true, she will not only believe you have told a falsehood in this case, but will most likely be suspicious of the truth of future statements. If however, she finds the full truth has been told, she not only has faith in that one particular statement, but you have clinched your argument and won a customer for many days to come."

Eyes Are Workers.

Sight is the only special sense which we use constantly except during sleep. Perfect eyes see without effort. The imperfect ones are constantly under muscular strain. Is it any wonder eye strain is so hurtful? How are your eyes? Consultation free. Satisfaction guaranteed.
