PREACHING AT 90.

On Sunday last Rev. Mr. Stewart preached as announced in the Presbyterian church to a good congregation, not a few of whom had memories reaching back to more vigorous days but none by a long way approaching those of the venerable ex-pastor of the Baptist church. Rev. Mr. Stewart is in his 91st year, and beyond a slight deafness has possession of all his faculties, takes his daily walks abroad, gets his own mail, reads it too and keeps in touch with current events. He was born in Scotland over two years before Waterloo, was herding cattle when the stage coach passed in mourning for Geo. III., came to Canada shortly after reaching his majority and was an interested spectator of and participant in the discussions of the McKenzie rebellion time, with the leaders of which he had personal knowledge and acquaintance.

When he first came to this province there were in it but 5 Presbyterian ministers and of these two were in Toronto, one in Amherstburg, one in Zorra. On the first September next, it will be 51 years since he held his first service in Durham when his auditors were the present grandfathers of the present generation.

His text on this occasion was from Ps. 126: 6 "He that goeth forth and weepeth, bearing precious seed, shall doubtless come again with rejoicing, bringing his sheaves with him." Very earnestly he pointed out causes of the weeping and the various kinds of seed sowing ever going on, and impressed the other lessons of the fertile text with a vigor and a voice surprising in one of his years.

He also gave the closing prayer and the benediction, and was warmly greeted by many friends at the close.

THE LORD'S DAY ACT.

A decision of the Privy Council given last week renders the "Lord's Day Act" passed by the Province, invalid, inasmuch as the punishments attached for its violation infringe on the rights of the Dominion to which was left, under the provisions of the British North America Act, "all matters of a criminal nature."

This is a startling decision and may have widespread and awkward consequences, for the liquor act, election law, children's protection act, and a deal of other legislation have all the same weakness, if weakness it is. Parties convicted and fined under this act will have the right to demand reimbursement and no end of trouble may follow. This seems to be the view taken by Mr. T. C. Robinette, K. C., but it is combated by Mr. J. R. Cartwright, Dep. Attorney General, who from another section of the same Brit. North America Act shows that the Legislature has given it the power in certain cases to "impose punishment by fine, penalty or imprisonment."

The effect of the decision is to wipe out additions made to Lord's Day legislation since Confederation, but there is sufficient power left, says an Alliance circular "to safeguard the Lord's Day against the assaults of greed and passion though disappointed, we do not confess defeat, nor do we feel discouraged."

Further restrictions will have to be sought at Ottawa, and from the new and varied conditions there is impossible to say what success will be achieved. In any case we think it is time our own supreme Court should be the final arbiter, when not the least benefit would be the avoidance of long delays in rendering judgments. The case and the time seems to justify a yearning for another Sir Oliver Mowat to champion Provincial Rights.

Rev. Mr. Farquharson on Sunday evening last preached from "The Sabbath was made for man and not man for the Sabbath" and outlined the situation showing the powers still left by the pre-confederation law, and laying stress of course on the law of love which should actuate and constrain all to secure for others the blessings of a seventh day rest, given in love by the Divine Father.

THE G. T. PACIFIC.

Speculation as to the terms to be given this new line by the government in subsidy, and condemnation in advance has been given to supporters of the G. T. Pacific for 50 years.

The government builds the line from Moncton to Winnipeg and leases it to the G. T. Pacific for 50 years.

The G. T. P. must build from Winnipeg to the Pacific coast at its own expense, the government agreeing to guarantee a certain amount of its bonds.

It is part of the contract that if the government is let in for any obligation, the road passes into the hands of the Dominion and is operated by Parliament direct.

The G. T. P. gets the use of the government road from Moncton to Winnipeg for the space of 7 yrs., free.

For the next 3 yrs., the company returns to the government any surplus receipts show over running expenses. If there should be a deficit, the deficit is capitalized and added to the amount upon which the Railway must pay interest for the remaining 40 years.

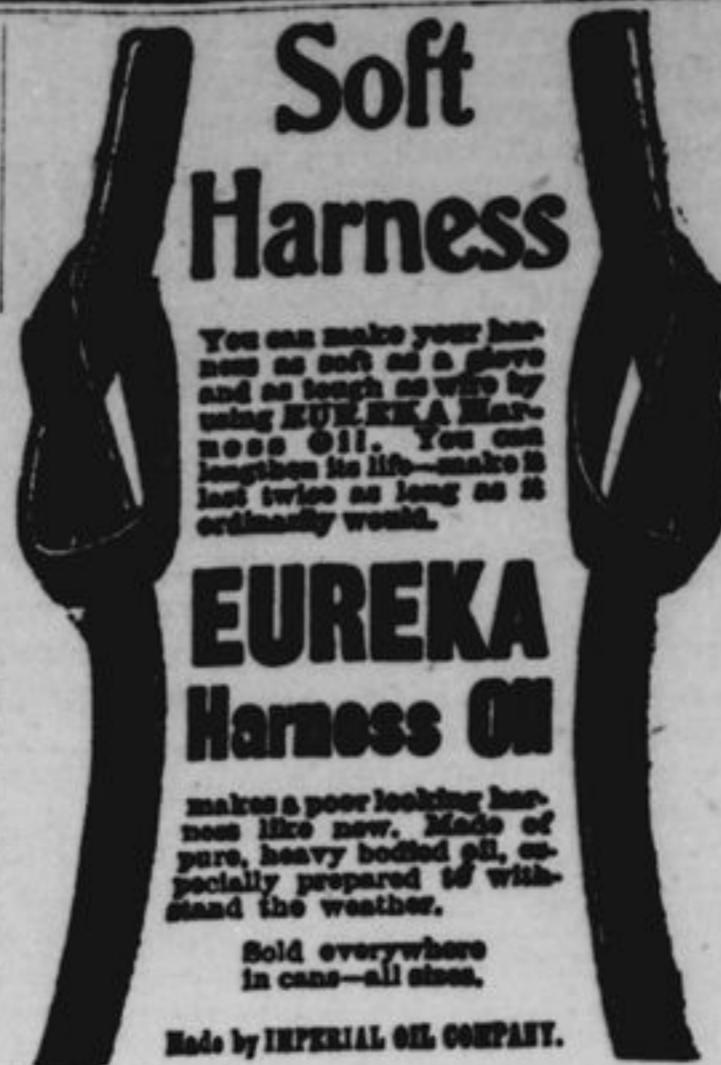

The only outlay then will be for interest on construction outlay for seven years. This amounts to about two million dollars per annum, which in national financing is not a large sum in view of the advantages secured.

There is neither land grant nor cash grant and the presentation of the whole scheme in detail by the Premier this week sometime is expected to show such a wisely-considered policy as to disarm criticism.
