TOWN OPICS

REVIEW balance of the year for 35 cts to new subscribers.
Money to Loan at 4 1/2 per cent.
MACKAY & DUNN, Durham.

BOY WANTED.—At once, to learn moulding. Apply at the Durham Foundry.

A church garden party at Dundalk today has a special attraction: Mr. R. R. Gamey, M. P. P.

Ben Nevis Camp meets Friday of this week and expectations are abroad of meeting with Pricewise brethren.

FOR SALE AT A SACRIFICE.—A 100 acre farm in Bentneck. Apply to MACKAY & DUNN.

Mr. S. A. Ridsdale, shoemaker, has moved from his Lambton St stand to the Daniel's residence opposite the Cement offices.

RIPPED A THUMB.—W. Glass in the Furniture Factory, Tuesday, allowed his hand to come in contact with a rip saw and made a bad gash up the back of his thumb.

We hear rumors of a Garden Party at Hampden school grounds on Friday, 7th inst. A good program will be provided and all are cordially invited. Lunch will be served from 7 to 9.

"THE HEDGES" FOR SALE.—Owing to the closing up of the estate "The Hedges," the residence of the late J. H. Hunter, M. P. P., is offered for sale. For price and particulars apply on the premises. Terms easy.

FOR SALE.—The property of the J. H. Hunter Estate, commonly known as the "Old Review," one door north of Mr. R. McFarlane's residence. For price and particulars apply to Mrs. J. H. Hunter.

FOR 35 CENTS.—The REVIEW will be sent to Jan. 1, 1904, to any address in Canada, United States or Great Britain. Send it to your friend. \$1 a year, and cheap clubbing rates with Globe, Mail & Emp. Witness, Mon Star, Tor Star, &c

WESTERN CROPS.—While some parts of Manitoba complain of light crops, a letter we received this week from Mr. Thos. Caldwell, late of Orchardville, speaks in buoyant terms of crops near Dauphin, prospectors in wheat saying it was among the best in the Province. In Dakota it is reported some crops are being plowed down, the grain being short.

IMPROVEMENT NEEDED.—Our Board of Works, busy enough already no doubt, will have to be busier and pay some attention to the approaches to the Garafra St bridge. These are in bad shape, and to safeguard the bridge itself fast driving over it should be rigidly prohibited by placard or otherwise. At the same time some attention should be paid to the fine crop of burdocks, &c, on the streets.

DURHAM PLAYS IN HANOVER.—Friday this week, our Lacrosse team plays off with Owen Sound in Hanover. Ball will be faced at 3.30 p. m., and Brown Jackson, of Seaford, will be referee. The teams have played together twice, each winning one game, and this being the decisive match, it is important that Durham should win. Therefore rush to Hanover Friday ye Durhanites and cheer your sons to victory.

A MOTHER GONE.—Sunday last Mrs. John Patterson, Upper Town, passed away, after a painful illness caused by a stomach affection. She with husband and daughter, just recently became residents of Durham, coming here from Nenagh neighborhood in Normandy, where they were held in high respect. Deceased was an estimable lady and leaves to mourn her sincerely, husband, two daughters and one son.

THE DUNDALK FIRE.—We mentioned this last week briefly. The fire started about 9 a. m. among some lace curtains in the display window of McFarlane and Richards store, and spread with such rapidity as almost to endanger life. The village has no fire protection system and individual losses are heavy. Mr. McIntyre, of the Herald, who lately installed new type and presses lost everything but his ledgers. His office was located above McFarlane store and the fall of the heavy press smashed the safe of the firm and ruined all. The Herald was issued last week from the Markdale Standard office and the proprietor with commendable energy promises to be going in two weeks. His insurance doesn't amount to half his loss. The burned block belonged to S. Bell and on it he has insurance of \$5000 only.

—Cardinal Sarto, of Venice, has been elected Pope. A surprise.

THE DUSTERS AND THE CLINKERS.

A battle royal took place on Saturday evening last at the Show Grounds between two football teams drawn entirely from the Cement Works and distinguished as above. Nothing quite so good we are assured was ever known in football circles, for a number on both sides, never having graduated at the game, made the fun fast and furious. There were circles, loops, lapses and comforts in the frantic efforts to score, something neither side did, for that is the result when an irresistible force comes against an immovable body.

R. Turner was goal keeper for the Clinkers, Thos. Lauder, champion player of Omaha, for the Dusters. Silver Jack, half back for the Clinkers, put a hard fight, but it was the opinion of most that the Dusters made the best play and would have scored often but for an excellent goal keeper. The two redoubtable captains were: Dusters, John Watt; Clinkers, Tim Moran.

They play off again on Saturday, at 7 p. m., and anyone who wants to see a hard fought and the phunniest phun should not miss it.

The Dusters: John Watt, Ch. Saunders, Fr. Havens, Wm. Storey, Barry Aldred, Jas. McDonald, Thos. Lauder, Jack and Art Whittaker, Wm. Mountain, Sam Pawson. The Clinkers: Tim Moran, Allen McFarlane, Arnold Noble, Rich. Dee, Geo. Morton, Robt. Turner, Wm. Robertson, Jack Murdoch, Silver Jack, Ch. Layelle, Norman Turner, Peter Matheson.

CRICKET.

Saturday last the cricketers here in their enthusiasm got up a friendly match between the Grits and the Tories. The result gave the Grits a majority so might be excused. The score in full below tells the tale:

1st Innings.—GRITS.

Good bearing orchard and two good wells. 1 1/2 miles W. of Dromore, 7 miles from Holstein. Will sell reasonable. Timber on the place will pay for it. For further information apply on the premises to CHAS. MCKAY, Proprietor to

Shall We Have Waterworks?

The Flowing Well Falls.

At a public meeting held in the Town Hall Monday night at the call of the Mayor, the situation created by the discovery of the Gas and Oil Company of an abundant supply of water was freely discussed and a standing vote, practically unanimous, encouraged the council to purchase the well, and proceed while the derrick is there to "run" it to 8 inches diameter, so as to utilize it for domestic and fire protection purposes.

The situation is this: when about 200 feet depth was reached the first flow began and tests showed it reached only 20 feet above ground. Drilling went on and a new impulse showed another spring, or pocket, and on reaching 300 feet the largest gush of all began and has continued ever since, tests now proving that it will rise 45 feet anyway. The council on this discovery took action and asked the company to refrain drilling further till they took counsel with the ratepayers. The delay was asked for because it is possible mineral water may be struck if continued further and the present purpose of the pure be destroyed for domestic purposes.

Mr. J. P. Telford has given a good deal of attention to the matter and formed some estimates. \$8000 he thinks would supply lower town for domestic purposes, but for about \$30000 the whole town could be supplied with this and fire protection besides.

The two great benefits, sanitary purity and fire protection were dealt with by the many speakers. Inspector Campbell going very fully into several features, especially pointing out the necessity of cleaning out the dam the condition of which is very discreditable. It seems to be proved that many lower town wells get their water from the river for since lowering it to get at bridge foundations, many have gone dry. If this be the case, our immunity from disease is very remarkable.

There seems every reason to believe the flow is permanent. The council should step to secure themselves from danger of tapping the well at future drillings. The necessity of rinning while the derrick is there necessitates speed, for the company can not be expected to keep men here idle.

The larger question of water works, for the whole town of course, is before the people, the opportunity should be grasped by the council, the saving of insurance would be considerable, and danger to health would be removed, and if this opportunity should slip, the question may have to be faced again under circumstances not so advantageous.

THE GUSHING WELL.

The drillers since we last referred to this well have struck two new and stronger springs, and what was surprising before is now even more so. Tests have been made and this new impulse sends the water up in pipes about 45 feet, and it is thought with more accurate fixtures it will go even higher. The attempt to plug the well is a matter of extreme difficulty and ensures a drenching to the operators.

A petition to the Mayor Friday last resulted in a Public Meeting being called and it was decided by resolution to meet with the Company (Durham Gas and Oil Company) and ascertain definitely about securing the right of the well for the town.

Levels taken by Mr. J. P. Telford show that the Middaugh House corner is only 26 ft 2 inches higher than the outlet, and from the same corner to the REVIEW office corner is 94 feet. Thus it is plain lower down at least can be supplied with abundance of the purest of water and perhaps the whole town by the use of a stand pipe.

The advantage of pure sparkling water such as this need not be dilated on. It is far in advance of wells in convenience and in its sanitary features and we are pleased to see our council alive to the situation.

BORN.

COLERIDGE.—In Owen Sound, on July 29th, to Mr. and Mrs. Wm. Coleridge, a son.

WHELAN.—In Hepworth, on July 29th, the wife of J. P. Whelan, a daughter.
