

# NEGRO EDITOR'S APPEAL TO HIS HOLINESS THE POPE To Protect Their Race From Outrages and Abuse.

Colorado Springs, Col., despatch: At a session of the Convention of the Western Negro Editors' Association, held here, a memorial to Pius X. was adopted. It says: "Since there are so many Catholics among the negroes of the United States, who, in common with others of their race, are subjected to unparalleled outrages upon the slightest provocation, involving the innocent as well as the guilty, we urge his Holiness to use his good offices among the Catholics of this country to preserve friendly relations between the races, and to break down the spirit of unfairness so prevalent among the Labor Unions, composed in a great measure of Catholics, which, in many instances, deprive the negro of an opportunity to earn an honest living."

**Is This True?**  
New York cable: A special cable despatch from Rome to the Tribune says that it is learned from an authoritative source that the much-talked-of right of veto in the conclaves by many considered no longer a right, because it had fallen into disuse, was absolutely enforced by Austria last Sunday.  
Cardinal Rampolla stood far ahead of all others on the ballots, and would have been elected, when suddenly the conclave was broken up by receiving a telegram direct from Emperor Francis Joseph, saying that he exercised his veto absolutely against Cardinal Rampolla.  
The greater part of the Sacred College was much irritated, and particularly the French cardinals, who declared that they would not recognize the veto, but a night's rest brought better counsels, and the conclave decided that in the present position of the Church in France the Holy See could not fail to give heed to the protest. It was thought that the Austrian Emperor's despatch might have been the result of the joint wishes of the triple alliance. This did not, however, allay the irritation of France, which found itself powerless.

**Held an Informal Reception.**  
Rome cable: During the full hour this morning the bells of about five hundred churches were rung in honor of the election of Pius X., a welcome unique of its kind, and ordered by Cardinal Respighi, Vicar of Rome, who issued special instructions to all the churches contemporaneously celebrated masses for the event, the intoning of the Oremus combining with the harmony. The bell ringing served another purpose, that of heralding the grand ceremony of the reception of the diplomatic body accredited to the Holy See.  
Rome has lately been sufficed with Vatican functions, but that of this morning was so striking that it held its own with the others. The members of the Sacred College held a kind of informal reception, the college, seated as it was, having brought them together together. A procession was then formed. First came the Swiss Guards, which gives a peculiar medieval splendor to all Papal gatherings, then the Papal Guard, followed in circular ranks by the

## DYING FROM HARD USAGE.

Walkerville Man Fell in a Pit and Was Arrested for Drunkenness.

Walkerville, Aug. 10.—Hoiden White, a Walkerville news agent, who was arrested on a charge of drunkenness in Detroit while suffering from an epileptic fit, is dying at his mother's home on the anniversary of his twenty-sixth birthday. He told a startling story of the treatment he received in the Walkerville Street Station, as a result of which Sergeant Swartwood and England and Patrolman Mulharg are now on the suspended list pending an investigation. The White family declare that the boy's falling to recover is due solely to the fact that he was not given medical treatment at the jail.  
With staring eyes the unfortunate newsboy has been unconscious since Saturday part of his face is paralyzed and his brain is affected. He imagines that the heavy bars of the jail still hold him a prisoner, and in his delirium cries out to be set free. His hope is held out for his recovery.

## KILL NEGROES FOR NOTHING.

Whitecappers Stay Preacher and Fatally Shoot Non-lawyer.  
Lewelsburg, Tenn., Aug. 10.—A band of whitecappers last night made its appearance at the home of a negro preacher named John Millikin. Millikin made his exit through a back door. He was brought down by a volley, dying almost instantly.  
John Hunter, a son-in-law of Millikin, was made to accompany the mob on a fruitless search for another negro, and in an attempt to escape was fatally shot in the back. The wife of Millikin was struck over the head with a gun and painfully injured. No cause is assigned for the killing.

## THE POPE'S APPEARANCE.

The Pope, in spotless white, his grey hair in harmony with his white attire, and surrounded by his guard, who always remain near his person, went on foot just ahead of the others.  
The procession, having gained the hall of the throne, where the members of the diplomatic body were gathered, Senator D'Antas, the Portuguese Ambassador, and Dean of the Corps, read in a clear voice the collective greeting of his colleagues, presenting their homage to the new Pope, and assuring them of their fidelity. Pius X. answered with great cordiality, thanking them heartily for their good wishes.

**He is Well Pleased.**  
All then kissed his hand, and the Pontiff took this opportunity of speaking personally to each, showing a knowledge of the politics of various countries, which surprised the diplomatists, the new Pontiff being credited with taking small interest in affairs outside Italy. It was another surprise to them to hear him speak French, if not fluently, at least with a certain readiness. Altogether the whole audience gave promise of a new era of international cordiality at the Vatican.

**Coronation on Sunday.**  
Rome, Aug. 11.—The Coronation ceremony will be performed at St. Peter's, on Sunday, according to a rite dating from the latter part of the fourteenth century. As the Pope enters the choir, the choir of the Papal Chapel holds up before him a reed surmounted by a handful of flax. This is lighted; it flashes up for a moment and then dies out at once, as the Chaplain chants: "Pater Sancte, sic transit gloria mundi." ("Holy Father, thus passeth away the world's glory.")  
This is done three times. The Mass is then begun as usual, but before the incensation of the altar, the "blessing of the Pontiff-elect" is pronounced by three cardinal bishops, each of whom recites prayer over him.

**Salmon Packing Trade.**  
Seattle, Wash., Aug. 10.—As a direct result of the Treasury Department's recent ruling permitting American salmon packers to recover a drawback of duties paid on foreign fish caught for export, the Canadian packers have sought a truce in the warfare going on near the border waters. A conference has just been held here between J. A. Trusset, of Vancouver, B. C., and E. B. Wagner, of the Pacific Packing and Navigation Co., at which it was agreed that the Canadians would cease fishing in American waters and buying American fish, and the Americans, as far as the salmon combine is concerned, will keep out of Canadian waters. The Canadians for years have encouraged fishing in American waters for their canneries, but the duty on salmon prevented retaliation by the Americans. With the drawback allowed by the Treasury, the Americans were put in position to retaliate.

## FISH DROWNED HIM.

Yankee Sportsman Pulled Overboard by Big Trout.

Rochester, N. Y., Aug. 10.—Lucien P. Wagner, a business man of Penn Yan, was drowned in Keuka Lake yesterday by a monster lake trout. Wagner and Jerome Lee were trout fishing in the lake when Wagner hooked the fish. Lee went to his assistance, but before he could seize the line Wagner was dragged head first out of the boat. The line became entangled about Wagner, and although he struggled desperately, he was pulled under the water and did not rise again. Attempts to find the body have failed. Lee says he got a glimpse of the fish as it pulled Wagner from the boat. He describes it as the largest trout he ever saw, and there are many big ones in Keuka Lake.

## CHRISTIAN SCIENCE.

Jury Would Make Treatment a Legal Offense.

Toronto, Aug. 10.—"That Hilda Frazee came to her death in Toronto on June 9th from scarlet fever, and that from evidence adduced for our consideration we find that no one showed any negligence in connection therewith; and we, the jury aforesaid, would, however, strongly recommend that the law be so changed as to make it a criminal offense for any Christian Scientist to administer their treatment to any person who is not legally of age."  
This verdict was the finding of the coroner's jury in the case of Hilda Frazee, the five-year-old daughter of Mr. L. D. Frazee, carriage agent, at 251-253 College street, who died of scarlet fever on Tuesday, June 9th, and was buried the following day at Mount Pleasant Cemetery. Mr. and Mrs. Frazee, the parents of the deceased child, were the only witnesses examined. To Mr. H. H. Dewart, who appeared for the child, had administered reading Christian Science, and afterwards by Dr. Carveth. He said that he was a staunch believer in the doctrines of Christian Science, and that he and his wife had administered treatment to their daughter by reading paragraphs from the Bible and the Christian Textbook. He said that the child had been ailing for about

three days before medical assistance had been called in.  
Mr. Dewart—who advised you to call in a physician—said that Mr. Frazee—Mrs. Jean Allison, a neighbor, came in and told me that her child became ill and developed symptoms of scarlet fever. She knew that my daughter was not very well, and she suggested medical treatment for the child. I complied with her request.  
Mr. Dewart—Did you give the child any medicine?  
Mr. Frazee—Dr. Carveth prescribed the medicine, which was administered according to directions.  
Mr. Dewart—Have you had a personal demonstration of being cured by Christian Science?  
Mr. Frazee—I was cured of fits, which I experienced from my babyhood until I was 25 years old.  
To the foreman of the jury Mr. Frazee said that he knew of cases where a broken shoulder had been cured by Christian Scientists.

**AFFECTED BY "X" RAYS.**  
London Doctors Suffer From Manipulating the System.  
London, Aug. 10.—Two doctors, belonging to the staff of the London Hospital, have been affected by "X" rays in a manner similar to that of the assistant of Thomas A. Edison, the great American electrician, and have been compelled to abandon their work. They were engaged for a long time in making examination of and manipulating diseased parts, while "X" rays were directed on the patients. When they began to suffer for they tried gloves on the backs of which lead foil was sewn, but these impeded the movement of their hands, and were discarded. One of the sufferers ceased operating under the "X" rays eighteen months ago, yet his hands have improved little, despite constant treatment.

## A DYNAMITE TRAGEDY.

Father and Son Torn to Pieces While Fishing.  
Vancouver, Aug. 10.—A terrible tragedy occurred near Gateway Point yesterday. Two men, believed to be Henry Caldwell, a surveyor, and his son, went to a small island, about two miles from Victoria, and off Macartney's cove, to fish. Their dynamite exploded, and the bodies of both were torn to small pieces and scattered over the rocks.

## ELECTROLYTIC STEEL PLANT.

A New Industry on the Welland River at Chippewa.  
Niagara Falls Report: It was currently reported on both sides of the river to-day on good authority that Canadian capitalists had secured the Ruthenberg process of making steel by electricity, and in the near future will construct a mammoth electrolytic steel plant on the Welland River, Chippewa, Ontario, which will supply a large block of Canadian Niagara power.

## CANADA WANTS MEN.

W. T. R. Preston Issues Invitations for Harvest Hands.  
London, Aug. 10.—Mr. W. T. R. Preston, Commissioner of Immigration, issued an invitation in the press for harvest workers to go to Canada, urging that they must leave at once. The men, unacquainted with farming, are told that they must be willing to accept \$10 monthly, farmers being responsible for their board and lodging. Agricultural tourists are promised \$20 to \$25 monthly, with the board and lodging. Persons desiring situations as farm or shop assistants are not advised to proceed unless proceeding to appointments already secured or to join friends.

## MILLIONS LOST IN STOCKS.

Wall Street Yesterday a Scene of Financial Despair.

## STOCKS WERE THROWN AWAY.

New York Report.—Two more Stock Exchange failures, making a total of six the last 11 business days, were recorded to-day, when Sharp and Bryan and Harbutt, Hatch and Company, announced their inability to meet their obligations. Both failures had been discounted for a week or more.

The day's business can best be summarized by the statement that almost four-score of stocks, fully two-thirds of the active ones, touched the lowest record reached during the present movement, which had its inception last September.  
At the close of the day some of the solid interests declared that the financial atmosphere was being cleared, but for all that Wall Street as a whole could see no silver lining in the clouds, much less a golden one. Other failures were confidently predicted, and the names of several important firms were mentioned as among those in financial straits.  
A sharp break in sterling exchange during the day was coupled with the suggestion that at least one international banking house had been making desperate efforts to borrow money abroad.  
The day began ominously with lower prices. The Sharp and Bryan failure made little impression on values. In the last hour and a half stocks were thrown over ruthlessly. To-day's shrinkage alone aggregated many millions of dollars. Countless "stop loss" orders were caught in the selling avalanche, and it is probable that hundreds of weak accounts were closed in utter disregard of the losses sustained by their owners. The market was mainly owing to the entire list, just seven stocks made net gains. Slightly over 1,000,000 shares changed hands during the day. The heaviest trading was in Michigan, Baltimore and Ohio, St. Paul, Erie, common, Missouri P. & N., Pennsylvania, Reading common, and United States steel common, the lat-

ter leading the list with a total of more than 85,000 shares.  
Sharp and Bryan were specialists in several stocks, more particularly in Virginia-Carolina chemical and their failure is regarded as directly attributable to the decline in those shares. During last year's boom Chemical preferred sold as high as 124.75 and the common at 89. They closed to-day at 55 and 23.34 respectively.  
According to the statement of the assignee, Sharp and Bryan's liabilities are about \$5,000,000, mostly secured. Assets are said to include several million dollars of Stock Exchange securities, the value of which is almost altogether on market conditions.  
No statement regarding the affairs of Harbutt, Hatch and Company was made.

## LABOR IN THE RAND.

Recruiting in British Central Africa Has Proved a Failure.  
Johannesburg, Aug. 10.—With a view to testing the accuracy of a statement made by a witness before the Labor Commission that 10,000 natives annually are available from British Central Africa for the Rand, the Transvaal Leader wired to the president of the Chamber of Commerce at Blantyre, His reply states that recruiting in British Central Africa has been a failure. The balance of 600 men out of 1,000 who have been credited to the local labor bureau is unable to obtain sufficient labor for home railway construction. The Chamber considers that it is impossible to obtain the supply required by the Rand.

## IRISH HONOR LIST.

King Confers Titles in Connection With His Recent Visit.  
London, Aug. 10.—A long list of honors, conferred by the King in connection with the royal visit to Ireland, is published to-night. Sir John Charles Reilly, Colonel M. P. and Thomas A. Donohoe, chairman of the County Down Council, have been made Privy Counsellors, and Sir Daniel Dixon, Lord Mayor of Belfast, and Edward Fitzgerald, Lord Mayor of Cork, have been created baronets. Other honors are distributed to those who accompanied the king's visit during the royal tour.

## COMMISSIONER IN TRINIDAD.

Sir Henry B. Bell, Chief Justice of British Guiana.  
Port of Spain, Aug. 10.—The appointment of Sir Henry B. Bell, Chief Justice of British Guiana, as commissioner to enquire into the alleged excessive and uncalled for shooting and bayoneting by the police during the recent riots has been officially announced.

## TO CROSS IN ONE PARTY.

Chamber of Commerce Will Thus Tour Canada.  
Montreal, Aug. 10.—The delegates to the coming Congress of Chambers of Commerce of the Empire, to be held in this city, beginning Aug. 17, will, after the conclusion of the convention, travel west over the Canadian Pacific Railway in a special train provided for the occasion. The evening train is expected to leave Montreal for the Secretary of the Board of Trade of the above decision.

## WAS TWICE DEFEATED.

Government is Having Hard Work in House of Lords.

## HAD ONE VERY CLOSE CALL.

London cable: The Government is meeting with difficulty in steering the Irish land bill through the House of Lords, which was occupied to-day with the measure in its committee stage. Amendments were passed with persistence by the landlord interest, and the Government was twice defeated on divisions during the evening. The vote was mainly owing to the presence of many Irish peers, who are seldom seen in Parliament, but who have found it possible to attend now to defend their own interests.

While the bill was in the House of Commons one of the stiffest fights that the Nationalists put up was to secure the right to make bargains regarding the sale and purchase of estates outside the zones where prices were fixed. Mr. Wyndham, Chief Secretary for Ireland, and the introducer of the bill, finally yielded the point when it seemed apparent that the bill otherwise would be wrecked. Lord Clonbrock, an Irish peer, moved in the House of Lords that bargains should only be allowed in exceptional circumstances. If this motion had been carried it would have again raised the whole dispute both in the House of Commons and in Ireland. As it was, the Government only defeated the amendment subject to the payment of \$1,000 within four years to the beneficiary's sister, Kate Ryan, and \$500 each within two years to Nellie Rutledge, of Streetsville, and Nellie Harris of Peterboro', Ont. The farm is divided equally between Charles Drew and W. M. R. Ryan. The testator also makes these bequests: Dr. Harry Rutledge, Streetsville, Ont., \$1,000; a diamond ring, single stone, to William N. R. Ryan, an English watch, gold chain, and a sapphire and two diamond rings to Ralph Dunn.

# PORTS TO RETAIN TROOPS IN MACEDONIA.

Canadians in Lockport Seeing New Steel Process.

Lockport, Aug. 10.—A party of distinguished Canadian officials and railroad men have been here for some time. They constitute a commission from the Canadian Government and have kept very quiet about their mission here.

The party is here for the purpose of witnessing a test of a Philadelphia man's process for making steel. It is reported that the manufacture of steel on this continent will be revolutionized by the new process—an electric process.  
This is a process invented by Marcus Ruthenberg, of Philadelphia, the Capitalists from large cities in the United States witnessed tests of it some months ago.  
The Canadians who are here, it is asserted, are: Eugene Homell, superintendent of mines of Canada, Ottawa; O. Higman, Government electrician, Ottawa; Hon. Donald Lockhart, Auditor of the Canadian Pacific Railway, Montreal; William Simpson, a capitalist, of Ottawa. Dr. Carroll, of Ottawa, is also registered at the Kenmore Hotel with this party, and, it is understood, has witnessed some of the practical details of the electrical furnace at the Cowles works.  
It is reported that this new process of manufacturing steel will be given a commercial trial in Canada somewhere on the Niagara River, and that the gentlemen now here are interested in the project. One rumor has it that they contemplate building a plant on the Welland Canal and use Niagara Falls power.

Won't Give Them Up.  
London, Aug. 10.—In the House of Commons to-day Premier Balfour, in reply to Henry Norman, announced that instructions had been sent to the British Minister at Peking not to agree to the Chinese Government's demand for the surrender at Shanghai of the editor and staff of the Chinese Reform organ, Sapano.

The Macedonia Revolution.  
Constantinople, Aug. 10.—Consular advices received here yesterday from Monastir indicate that the situation in Macedonia was constantly growing worse.  
At a meeting of the Ministers it has been decided to adopt measures of support every day to suppress the situation in Macedonia, in which event, massacres are almost inevitable.

The Bulgarian Exarch was summoned to the Yildiz Palace on Wednesday and urged to make a final appeal to his flock to deliver up their arms, and thereby avoid bloodshed.  
It is asserted in some quarters that the authorities are secretly arming the Kurds, while endeavoring to convict the Armenians of revolutionary intentions.  
A despatch last night from Constantinople announces that yesterday the Sultan has abandoned all idea of withdrawing the Turkish troops from Macedonia, and is making vigorous preparations to draft troops for the disturbed districts.  
A circular note had, it was stated, been sent to warn the European powers of the Turkish Government's intention. The note stated that the situation is very serious, and although it did not mention Bulgaria, the document is regarded as a menace to the Bulgarian Government.

# RACE ACROSS CONTINENT; KING OF TERRORS WON.

Power Co.'s Boiler Explodes Killing Two Negroes, Others Hurt.

Chicago, Aug. 10.—To reach the sick bed of his young daughter, reported dying in Los Angeles, Cal., Henry E. Lowe, of New York, Chief Engineer of the United States Steel Corporation, is rushing across the western prairies on a \$4,000 special train that promises to beat all transcontinental records.

Mr. Lowe left New York Tuesday afternoon at 2:45 o'clock, and is due in Los Angeles at 11 o'clock Friday, making his total time for the trip from sea to sea, three days and nine hours. Telegraphic messages have been sent directing that relays of locomotives be prepared and that Mr. Lowe's train be given the right of way.

**Lost the Race.**  
Los Angeles, Cal., Aug. 10.—Mary Lowe, the 15-year old daughter of Henry Lowe, Chief Engineer of the United States Steel Corporation, who is speeding across the continent on a special train, died at a hotel here last night. When death came to the child, Mr. Lowe was passing through western Kansas.

**Prominent Mason Dead.**  
Bridgeport, Conn., Aug. 10.—Jas. A. Wilson, a prominent lawyer, died last night of Bright's disease. He was born in New York in 1857, where he practiced law many years. He was owner of the Mosaic-Cotton Rubber Company, and prominent in Masonic circles.

**A Fatal Explosion.**  
Tuscaloosa, Ala., Aug. 10.—The boiler of the Tuscaloosa Light and Power Company exploded last night killing two negroes, severely injuring Manager Methers, and Engineer Crawford, and wrecking the plant. The city is in darkness. The boiler was carried two blocks, passing through three brick walls and landing in a department store 500 feet away.

## TO ONTARIO PEOPLE.

Requests Made in Will of a Brooklyn Broker.

New York, Aug. 10.—There was filed for probate in Brooklyn to-day the will and codicil of James McCormick, the well-known stock broker, who died on July 30. His estate is very large, but its exact value is unknown.  
Mr. McCormick owned a farm known as Clyfields, near Coldwater, Ontario, Canada. He leaves lot 18 in trust for the benefit of his cousin, Charles Drew, now 20 years old, who lives in the Northwest Territories. The young man may occupy the land or receive the income until he attains the age of 30 years. The testator leaves one-half of lot 19 and the whole of lot 20, of the farm, to his cousin, William Noble Rutledge Ryan, son of Noble Ryan, of Coldwater, subject to the payment of \$1,000 within four years to the beneficiary's sister, Kate Ryan, and \$500 each within two years to Nellie Rutledge, of Streetsville, and Nellie Harris of Peterboro', Ont. The farm is divided equally between Charles Drew and W. M. R. Ryan. The testator also makes these bequests: Dr. Harry Rutledge, Streetsville, Ont., \$1,000; a diamond ring, single stone, to William N. R. Ryan, an English watch, gold chain, and a sapphire and two diamond rings to Ralph Dunn.

## ASHORE OFF POINT RICH.

Steamer Holme Aboard With Canadian Deals is Aground.  
Montreal, Aug. 10.—The steamship Holme, from Montreal to Westwood, England, is ashore off Point Rich, Newfoundland. The steamer loaded deals for Robert Cox & Co. at this port, and sailed on the 25th of July. From the information obtained, it appears that the steamer ran ashore at Point Rich on Friday last. According to the latest advice she is taking no water, but in spite of the endeavors of two French cruisers, is still fast aground.

The vessel, which has a gross tonnage of 1,781, and is of 1,143 net tons, has on board 780 standards of deal, which are worth about \$10,000. The vessel is owned by G. P. Leitch, and her agents in Montreal are McLean, Kennedy & Co.

## BETTER TIMES AHEAD.

What Head of French Delegates in London Expects.

Paris, Aug. 10.—Baron D'Estourmel de Constant, who headed the French Parliamentary arbitral commission on its recent visit to London, has written an important letter to Foreign Minister Delcasse. The letter says that during twenty years the fear of Parliamentary opposition has alone prevented the settlement of the Anglo-French difficulties, and now that the fear is dispelled, nothing prevents the adoption of a conciliatory policy. All the British statesmen whom he saw, without being unanimous in desiring this suggested new policy, which must be as clearly defined as the former one was obscure.  
The new policy has three essential objects:  
First—The conclusion of a reasonable arbitration treaty similar to that negotiated between Great Britain and the United States, and in accordance with clause 19 of The Hague International arbitration convention.  
Second—A reduction in the overwhelming naval expenses in agreement with France and Russia concerning which the baron claims to have received categorical, verbal and written assurances.  
Third—A friendly settlement of the outstanding differences which for twenty years have vainly exhausted the resources of diplomacy.

## THE DAM REPAIRED.

Last winter the dam connected with the grist mill owned and run by Mr. James Sharpe, near Princeton, was swept away by the ice, entailing a loss of some \$500, and putting a stop to operations at the mill. Since then Mr. Sharpe has been busily engaged rebuilding and improving the dam, as well as the mill, and the work having now been satisfactorily completed, he has returned to his mill. His many employees, including most of the farmers in the neighborhood and others, will be glad to hear this, as the stoppage of the mill was an inconvenience to them.

## A RICH GOLD FIND HAS BEEN MADE.

A rich gold find has been made on Pelly River, a strike which may result in the Klondike in richness. Hopkinson, the man who discovered the City is excited, and a regular stampede to the new fields is in progress.
