1903? It is about the surplus of our revenue over expenditure. The surplus for this year will pay for the construction of this road. Sir, what is the liability incurred by the Government for the construction of this road from Winnipeg to the Pacific Ocean. Assuming the road is 600 miles long, the cost of contruction will be \$18,000,000 and the total interest for three years will be \$3,780,000. This is the whole liability to be incurred by the Government for the construction of the railway from Winnipeg to the Pacific.
