

SHOT HIS WIFE AND SUICIDED.

Wounded the Man Who Interfered Between Them.

Mob Lynched a Man Who Murdered a Boy.

A Chicago Labor President Viciously Assaulted.

Menasha, Wis., Oct. 19.—Frederick Crawford, of Oshkosh, shot and killed his wife in this city last night, wounded a man named L. J. Jourdain and blew out his own brains. Crawford and his wife had been separated for some time. It is said that Jourdain attempted to interfere between them. Jourdain's wound is not necessarily fatal.

Murderer Lynched.
Hamilton, Ont., Oct. 19.—Walter T. Nackson, convicted murderer of Fannie Buck, a six-year-old boy, was taken from the county jail here last night by a mob and lynched. Shortly before midnight, masked men armed with rifles and shot guns, forced the jail and recovered Fannie Stephens. Jackson was found crying in his cell. He pleaded piteously, but was rushed into the street, where a rope was thrown over an electric line and the noose placed about Jackson's neck. He was asked if he had anything to say, but only pleaded for mercy. The mob then pulled him into the air, after which they quietly dispersed. Not a shot was fired.

Identity of the Mob Leaders is Unknown. Thirty-five minutes after the lynching Jackson's body was cut down by the sheriff and coroner and removed to the morgue.

Labor Man Assaulted.
Chicago, Oct. 19.—Michael Donnelly, international president of the amalgamated meat cutters and butcher workmen, lies at his home, says the Tribune, recovering from a vicious assault that is alleged to have been instigated by the labor leaders, who are opposing his attempts to purify the Chicago federation of labor. Donnelly was attacked on the night of Sept. 29th, while returning from a meeting of the packing trades council. For two days the doctors expressed little hope of his recovery, but after a report that he was suffering from a physical breakdown caused by overwork. Private detectives were set at work and have announced that the guilty men are known and will be arrested as soon as the instigators of the assault are discovered.

SHOT AT FALLS.
A Bartender Mortally Shot—Hacker Arrested.

Niagara Falls, Oct. 19.—A shooting affair occurred in the tunnel district last night, and as a result it is expected that two men will die. George Follet, a hack driver in the employ of the Miller & Brundage coach company, went to the tunnel district last night in company with Bert Barker, another driver. They entered the tunnel and were drinking. They were served by an Italian waiter named Joseph Mengelli. An argument arose as to the price of a bottle of wine, and Follet pulled a .38 calibre revolver from his pocket and fired four shots at the waiter, two of which took effect. One bullet entered the left chest under the heart and the other entered the left chest under the heart, and the other entered the left chest under the heart, and the other entered the left chest under the heart.

GLAD TO BE CO-RESPONDENT
Capt. Lawton Will Now Have Chance to Tell What He Knows.

New York, Oct. 19.—"I am glad to be named as co-respondent in the suit for divorce brought by William Newbold Bolter against my wife," said the statement of Capt. T. E. Lawton, a promoter, who added that he would now have the right to go into court in Mrs. Bolter's defence and make public the persecution to which she has been subjected, and of which the suit is the climax. Capt. Lawton said his relations with Mrs. Bolter were of a business nature, she being the secretary of a company of which he is president.

The defendant in the suit has lived ten years with a broken neck, but his affliction is apparent only in that she cannot move her head sideways and that her carriage is a trifle more stiffy erect than ordinary. In 1892, shortly after her marriage, at Denver, she was working as a newspaper reporter, and was on a ranch. She had tethered an Indian cayuse, when Mr. Bolter began beating the horse, and the rope to which the animal was fastened, became wrapped around her and she was thrown on her head. She suffered a dislocation of the vertebrae at the neck and lower in the spine, and for two years was encased in plaster casts.

Mrs. Bolter was Miss Naomi Sherwood and is the daughter of Sir John Woodhouse Sherwood, one of the original settlers of the Red River lands, a descendant of the family whose estate once included Robin Hood's Sherwood Forest, and on her mother's side, of the blood of Marston, who gave their name to Marston Moor.

BIG DROP OF VALUES

Sensational Slump in Montreal Stock Market.

CREDIT OF FIRMS IMPUGNED

Montreal despatch.—There was a sensational drop in values on the Montreal stock market to-day, and in many instances prices touched the lowest on record, eclipsing the big slump in the market last June. For some weeks a clique of operators, seeing that there was little prospect of an upward movement, and believing that more money could be made on the short side, had been trying to break values, and that they have succeeded in their campaign is shown by to-day's record. Their operations have of course been helped by the weakness in New York, but in the furtherance of their efforts they have resorted to the distribution of the most audacious falsehoods, involving the credit of firms and individuals. The report was sent broadcast that leading Montreal brokers and financial institutions were on the verge of bankruptcy, and that they were obliged to throw overboard large blocks of stocks in order to realize. Queries from various parts of the country came to Montreal to-day, asking such reports were true. They only met with an absolute denial, but they had done their work. The market acted in a nervous manner and values broke violently. It is the bears, weak accounts that many stop orders were reached by the course of the break, the volume of liquidation gathered force as it proceeded.

Canadian Pacific was the only stock that held up fairly well in face of the general break. It sold at 118-1/2 to 119-1/2 at the opening, but declined to 118 before the close. The heaviest liquidation was in Montreal Street, Dominion Coal, and Nova Scotia Steel. There was a renewal of liquidation in Montreal Street, and the price broke from 212 to 205. As the result of heavy hammering by the bears, Montreal Powder broke from 70, at the opening, to 63-3/4, the lowest price in its history, but recovered sharply to 68 before the close. Twin City declined from 83 to 80-3/4. Detroit United, after selling at 60-1/2 to 60-1/2 at the opening, broke to 56. Dominion coal was another favorite target of the bears, and it broke from 67 at the opening to 59-3/4, recovering to 60. Nova Scotia Steel broke from 70-1/2 to 67, recovering to 68. Dominion Steel was neglected, the preferred selling at 238, and the common at 8. Toronto Street sold down to 110. Toledo broke to 15. Richelieu declined to 69, but recovered to 72.

MURDER IN DELAWARE.

Girl's Death is Similar to That of Irene Cole.

Wilmington, Del., Oct. 19.—Mary Koskocki, a pretty 13-year-old Polish girl, was found murdered here this morning. Irene Smith, a Pole, who has been serving in the United States navy, is locked up at the police station on suspicion. The case is similar to that of Miss Helen S. Bishop, for which crime Geo. White, a negro, was taken from the New-castle county workhouse and burned at the stake several months ago. Clarence Spencer, who works at the plant of the Lobdel Car Wheel Company, found the body while on his way to work at 6 o'clock. The body lay on the bank of a ditch at the foot of B street and was partly in the water. Mr. Spencer notified the police, and an investigation was begun.

The parents of the child were nearly prostrate with grief. Their home was soon filled with excited neighbors. The police reached the conclusion that the child had been attacked, and later in the day a post-mortem examination performed by Dr. J. W. Bastian, the coroner's physician, confirmed this suspicion. It is supposed that the head of the victim was held under water until she was drowned.

LINEN TO STOP CAVALRY.

Novel Obstacles Erected by Mob in French Town.

Armentieres, Department du Nord, Oct. 19.—Strikers who pilaged linen stores have stretched pieces of linen across the streets to prevent cavalry charges. The banks have also been attacked, all the houses are closed and the inhabitants are in a state of terror. There are troops here, but they are insufficient to maintain order. The strikers barricaded all the corners of the streets and set fire to a factory. The cavalry charged along the streets in spite of the obstructions, wounding a number of people.

Colonials are Ready.

GAVE UP HIS SON TO BE HANGED

And Now Makes Application for the Reward Offered.

A Strange Stand Taken by Chicago Pressfeeders.

Fifteen Sailors Rescued From a Shipwrecked Vessel.

Chicago, Oct. 19.—Armed with revolvers, deputy marshals, thirty union pressmen employed in the printing plant of R. R. Donnelly & Sons' Company, were last night guarding the building against attack from striking members of Franklin Union of Press Feeders. The armed deputies are regular union employees of the company, all of them members of local No. 3 of the International Printing Pressmen's Union. Beside them work non-union men and girls who have replaced the members of Franklin Union now on strike. It is union against union, and no serious trouble has occurred, precautions having been taken because of threats that have been made by Franklin Union members.

When the lookout against Franklin Union was declared by the Chicago Typographical Union, the pressmen were prepared to organize a rival union of press feeders, but their plan was never executed. They refrained from taking any sympathetic action, however, and now they stand as officers of the law, barring the way to members of Franklin Union.

TRY TO HOLD BRITISH TRADE

Sweden, Norway and Denmark Ready to Make Tariff Concessions.

Christiania, Oct. 19.—Scandinavia is following with intense interest the development of the trade struggle in the United Kingdom. The exports of Sweden, Norway, and Denmark are chiefly to Great Britain. England is in particular, the best customer of Denmark. Sixty per cent. of all Danish products go to England, while 13 per cent. of all the products of both Sweden and Norway also go there. Denmark's import tariff on industrial products is low, and Danish agricultural products is of a class that meets with much favor in Great Britain. Denmark therefore hopes much from British self-interest, and does not fear overmuch colonial competition. Furthermore the Danish Government is willing to adapt its tariff to British conditions.

Of the three Scandinavian countries Sweden has the highest tariff, while Norway is midway between it and Denmark. The greatest exports are timber, wool, manufactures, wood pulp, fish, butter and condensed milk. Sweden and Norway will probably develop a preferential tariff system to hold the British market. All three are interested in free navigation, especially Norway, which does a large business with British colonies. The three countries are ready to make considerable concessions to retain the British market.
