David's Trust in God .- Psalm 23.

Commentary .- I. The shepherd and his sheer (vs. 1, 4). 1. my snepnerd. Christ is the great Shernerd and his followers are the sheep. To appreciate the force of the image it is necessary to understand the difference between the modern sherherd and the Oriental sherherd of olden times. In that land there is a strong attachment between the sherherd and his flock. Equally tender relations exist between the good Sherherd and his flock.

BLONDES ARE DECREASING.

At the Same Time the Demand for Blond Hair is Increasing.

The present duty on human hair imported into the United States is 20 per cent. ad valorem, if manufactured, that is, in the form of switches

or wigs, the duty is 35 per cent. The United States imports every year a considerable amount of human hair, the countries which are Germany and Sweden.

For some reason, about which hairdressers are not agreed, there is a much larger demand for blond than market with that shade of hair. The Swedish blond hair is thicker and lighter than the German hair, and for that reason is more easily dyed to a satisfactory shade.

In all countries from which there are reports, the number of blondes is decreasing, while the number of brunettes correspondingly increases. As the partiality of purchasers runs just the other way and there is a steadily increasing demand for blond side; Sweden and Germany are drawn upon. France is one of them. No group of American workingmen would ever be satisfied with such scanty rations. The swarthy Latins who came here to work or our railroads are content with the simplest and cheapest fare. They had but little to eat in their own land, and little will suffice them as ong as they remain in America.
