The latsideration was because he was king, will be (1) well furnished, (2) mag-Although Solomon recognized the fact that God and not man had placed him upon the throne, yet he needed divine assistance in his work. A little child. The third consideration desire. To Solomon no doubt it was real," is the maxim of another class, was his youth and lack of experience. a most agreeable gift, as it placed | who really love this color, but have His exact age at this time is unknown, but it was probably nineteen or twenty.

8. In the midst. That is, Solomon is set over them as king. The fourth consideration was the greatness of the work to be done. All eyes are turned upon him, and he is expected to rule and guide the people. Thou hast chosen. It was not only a great nations, but the nation chosen to represent God before the world, and carry out his kingdom, and teach the world his truths. Cannot be numbered . There seems to be a reference in these words to the promises made by God to Abraham, more especially to Genesis, 13, 16. From the number of men given in 2 Sam., 24, 9 and 1 Chron., 21, 5, 6, it is inferred that the population was about 6,000,000.

9. Give therefore. Because of these considerations. An understanding heart. H's request accorded with the exhortations David had given him. H's petition was that the Lord would enlarge and strengthen his intel- the American Telephone Journal, is lectual powers; give him a ready dis- something of an art, but in these cerement in spiritual things, and a days it should, by all means, be cul- likes light cravats there is a satcorresponding disposition. for himself, and of expressing his own preference. Solomon was young DACITI and inexperienced. As he was scarcely twenty years of age, it was hardly to be expected that he would make so perfect and excellent a choice. There were a thousand other things that most men would have chosen before wisdom. 1. Solomon might have chosen the gift of an extensive empire. 2. Or greater wealth than man ever possessed. 3. Or a life of luxurious ease, long extended beyond that of his fellow men. He knew that the one gift he most needed was not in the power of princes or million-

THE ASPHALTUM SUPPLY

American Capital Trying to Secure European Deposits.

It was recently reported from Rome the neighborhood of San Valentino, in the Mazella mountains.

These deposits of natural bitumen are said to be the largest of this kind in the world. Some ten years ago the mines were bought up by a German syndicate, which since has installed modern machinery and allo connected the var.ous mines by means of a narrow-guage railway with the station of San Valentine, on the trunk line Rome-Castellamare

Adriatico. At present, six mines in the M j ha mountains are being exploited; the Duluth No. 1 80 1-8 asphaltum appears in the form of rock asphaltum, and the quality is said to be of the best known. The annual ou pit of the mines, in which
