Men and Eternity.

For what is it that Dr. Wallace asks us to believe, and has written this most paralogistic of books in the attempt to prove? It is that, at some distant period-and Dr. Walface makes much of its distance, as an argument in his favor-this uniwerse was called into existence by the will of a Creattor, for a specific purpose, the production of man. Assuming the initial fact, we must agree with Dr. Wallace in assigning hundreds of millions of years to the age of the universe. Then there arrived man. He has been here for a few hundreds of thousands of years. He has still a few-a very few-millions of years to run. It is true that in one place Dr. Wallace speaks of him as "permanent," but elsewhere he repeatedly admits that there must come-and that comparatively soon -a period to man's existence. But the has apparently never asked himself, "What then?" We know that matter and energy are indestructible. We have every reason to believe that the universe will exist for ever, and Dr. Wallace suggests no alternative. Yet he believes that the hundreds the city of London raised, equipped of millions of stars were called into and sent to South Africa 5,000 to exist for a quite indefinite period in an eternity.-London Academy.

Where is the Sun Going?

There is a popular notion that the placets in our solar system revolve about the sur. This is only half i true, points out Prof. Harold Jacoby, of CColumbia University, in a remarkable article in Harper's Weekly of November 28th. The sun, like the planets, says Prof. Jacoby, as in motion, are also the so-called "fixed" stars; and, reasoning from this basis, he discusses the fascinating question of the destination through space of our solar system. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh, being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
