Magnificent Show of Live Stock at Guelph.

Talks on Poultry by Hart, Graham and Clark.

Hon. John Dryden on Work of Women's Institutes.

opened to-day under most satisfactory conditions. The attendance was considerably ahead of last year's the National Council of Women, and opening day. Judging proceeded during the afternoon and evening, and Cornell University. the crowds, which surrounded the Judges' ring took an intelligent interest in the decisions. Tastes run to the commercial classes, as is seen in the entries of the one class H. Reid, Kingston. of grade steer, two years and under three. In fact, there are 36 animals entered in the export class. Ex. perts say that the quality has never and 3. John Campbell, Woodville. sented.

Educational Features.

The educational features began tonight in the lecture-room with addresses on poultry. There was a good attendance, and the use for the first time of a stereopticon added to the anterest. Mr. F. C. Hart, chief of the poultry division of the Dominion Department of Agriculture, spoke on the best type of fowls for fattening | 2, G. A. Drummond, Beaconsfield. and winter taying. Mr. W. R. Graham, poultry expert at the O. A. C., spoke on breeds of chickens, the results G. A Drummond, Beaconsfield; of the experiments of 1903 at the college, and on ducks. Mr. J. W. Clark, of Onondaga, led in the discussion.

The Forestry Problem.

The forestry problem as applied to agriculture, which has suffered greatly by the denudation of farmjers' wood lots, was the most interesting subject before the Experimental Union at its closing day's ses- | 2. J. Jackson & Son, Abingdon; 3, sions. Of such importance was it Telfer Bros., Paris. deemed that a committee was appointed to bring in a recommendation with regard to establishing school of forestry at some point in Ontario. The committee reported this afternoon a resolution, which was carried unanimously, of which the following was the concluding portion: "The Ontario Agricultural and Experimental Union would strongly urge upon the Government the necessity (1) for establishing at the earliest possible date a school of forestry, where instruction shall be given in practical methods of dealing

with forestry problems. The utility of old fashioned farm manures was shown by Mr. Zavitz's report of the co-operative experiments with manures and fertilizers. It also showed the poor results where no fertilizer is used and the need of yarious soils of different artificial | he was among those drowned. Moy plant food. An interesting supplementary report was given by Prof. | and had a certificate. He neglected Harcourt, showing that \$29,692; to get a passport, prior to a trip worth of bones, and \$70,720 worth of tankage were exported last year from the Dominion, and \$53,692 worth of wood ashes, or 1,073,000 bushels were exported from On- Federal authorities that Moy Took tario. SMUGGLED FROM CANADA.

The Adventures of a Band of Captured Chinamen.

Buffalo, N. Y., Dec. 14.—The Federal authorities who are investigating the smuggling of Chanamen into the United States from Canada, and especially the case of a party of eleven, which was accidentally dumped into the Erie Canal at the foot of Beckenridge street, last Friday, four being drowned, and unearthed a case of kidnapping, and indications of a plot to commit murder. The kidnapped person was a Chinaman, Mok Took. He was in the party of eleven and has not been seen since the accident occurred. The inspectors believe that Took was a registered Chinaman, to Canada, and decided to come back to the United States with a party of contraband countrymen. It is stated by the United States Chinamen are brutally treated by the emugglers, the inspectors say if not to a plot against his life. Other
