Mr C. McKinnon received 7 horses by the train on Saturday last. They have been kept at the expense of the G. T. R. in Palmerston for about 3 weeks. He has also bought the Cement team, and these and others he intends to make into a carload and ship west.

FANCY STOCK.—Mr Hamilton Allan has lately purchased the fine thoroughbred Coach-horse "Eye Glass." He is a dark brown, foaled in 1901, sire being "Golden Badge" and dam "Wink" by Rossington, all famous horses. We hope his enterprise will be rewarded.

The Mt. Forest Confederate says: "A correspondent of the Durham Review ascribes the poor success of the National Portland Cement Co to its disobedience of the divine command to remember the Sabbath Day. There may be a relation between the two closer than some people think."

DIED IN GRAND RAPIDS.—Very sad was the news received by Mr Neil McGillicray and family of Rocky Saugeen last week. Their son Duncan a young man of nearly 21 years, left early in the winter to work in a chair factory in Grand Rapids and he has succumbed to an attack of typhoid fever. The remains arrived here on Saturday last, and were interred at the Rocky Cemetery on Monday. Much sympathy is extended to the sorrowing relatives.

Mr. Mortimer Lynch, whose death was announced lately, was one of the early settlers of Normanby, one of the very few remaining whose coming dates from the land sale in 1854 and 1855. He came to Canada from Limerick, Ireland, when seven years of age, settling with his parents near Peterboro. He was a progressive farmer, a member of the township council for several years, a Conservative, and a good Catholic. He leaves a widow, five children and two brothers to mourn his loss.—Ex.

A number of Mt. Forest's leading business men voluntarily took shovel in hand last week to aid the C. P. R. to open the line to Arthur. A small silver shovel was put up for competition and it was awarded to Mr Thos Marin, the Liberal candidate, who, the Confed says, "shovelled with might and main." It will, with reason, be a valued trinket.

## AFTER 28 DAYS.

On Saturday last the G. T. R. authorities succeeded in getting the train through from Palmerston and sent another out in return, after a blockade of 28 days. There was no public rejoicing but a decided sigh of relief was given that at last the elements seemed like withdrawing their opposition.

This beats the record: 28 days to clear 28 miles! But the difficulty was not over yet. Sunday was fine, a little snow, with just a little blow, but enough was blown to block the train Monday morning, which had to undergo the humiliation of returning through the ditch. A plough and some shovellers went at it again, but alas! Tuesday morning's train showed the same fate. By Tuesday evening the snow plough again forced its way through and today we hope will prove the truth of the adage: "the third time's the charm."

Needless to say the blockade of freight is serious. Winter goods on the way are now out of season. Slight supplies of groceries have been expressed in by mail—by train from Palmerston—is provokingly irregular, and there is a general topsy-turvy feeling, that the times are out of joint until a few millions of the beautiful! have gone down the Saugeen river.

## WILL THERE BE TARIFF REVISION?

The question of the tariff is now engaging many minds in Canada, both in and out of Parliament. Tariff revision will probably come up in some form or other during the session of the Dominion House. The Toronto News has been collecting the views of public men, merchants, manufacturers, and representatives of the farming interests, and representative divergence of opinion is expressed.

Unusual interest attaches to the session of 1904 for several reasons. The modification of the Grand Trunk Pacific scheme is bound to be the subject of much discussion. In addition to this, a general election is expected in many quarters shortly after prorogation.

Of all daily reports of proceedings in the House those of The Toronto News probably excel for accuracy and completeness. The News reports every debate with care and fidelity, and having its editorial comment to treat each case honestly and fairly. The price of The Daily News in this district is \$1.00 a year by mail. A card to The News, Toronto, will bring a sample copy by return of post.—Examine our clubbing rate.

## THE RAILROAD OPEN AND CLOSED.

Saturday last, after an interval of 28 days, a passenger train arrived at and left Durham Station. The gang of shovellers reached Palmerston two nights previously, after many hindrances and re-shovellings and truly these men have earned more than their wages for many of them had scant sleep for days. The trip back with the snow plough was accomplished with some difficulty, and the train followed on Saturday, bringing a few passengers and some express matter, but no mail. This, Monday morning, the train left on time, but fate is still against the G. T. R. for it reached a point somewhere below Holstein and had to give it up and backed to Durham with its quota of passengers.

When and how winter is to end is a puzzle. There is more snow on the ground now than we have some winters ago. If it goes by the process of the sun alone, checked by chill winds, spring is a good way off and there will be no spring wheat sown in March, as has been done, with small prospect of any in April. If a combination of warm winds and rains and sun take place, the rivers and their banks, colours and some other odd places will be pretty wet. Come to think of it, we have not heard of a single bet taking show her hand as she uncovers for the spring cleaning.

## SAUGEEN PRESBYTERY.

The regular meeting of the Saugeen Presbytery was set for March 1st, but the throes and convulsions of nature on that memorable 29th of February so completely blocked the ways that there were not enough members in their places even to make an adjournment. At the call of the moderator a second attempt was made on Tuesday of this week but still the conditions were so unfavorable that not a single member arrived by train. As might be expected the attendance was somewhat small though conspicuous among those who braved the roads was the venerable Rev. Mr. Morrison of Cedarville, who is never failing in his attendance. The Rev. Mr. Edmiston of Rothsay was elected Moderator for the current year and Rev. J. Reid of Mt. Forest was called to the chair for the day in the absence of the moderator elect. By regular rotation Rev's. Hanna Campbell and Reid were appointed Commissioners to the Assembly at Halifax. Rev's. Hanna and Reid declined the appointment, next in order came Rev's. McCullough and Farquharson but neither gave a decided answer as to whether they would except the appointment or not. Reports on Church Life and Work, Sabbath Schools, Remits and Home Missions were presented by the conveners of the several committees.

Rev's. Farquharson, Little and the elder from Holstein were appointed a committee to visit Cedarville, Eplin and Kingscote, to consult them regarding a proposed re-arrangement of the field. Presbytery adjourned to meet at Durham on the first Tuesday of July when there will be held the annual convention of the Young People's Societies and Sabbath School workers within the bounds of the Presbytery.

As it is a long time now since Presbytery met in Durham the REVIEW takes pleasure in welcoming the venerable body and of assuring them that no blockade is likely to hinder any of them from coming to our beautiful town.

## THE WAR.

The week has shown no surprising developments, the most noticeable thing being the suspicion in Asia that Japan is using Chinese pilots to re-col her fleet from time to time. The Russian minister to Peking is warning China that Russia will send her armies there if she swerves from neutrality. Nothing seems more certain—than this: if Japan should win a land victory equaling her naval success, nothing could keep China out of the melee.

The Japs are moving steadily north, the two parts of Russia's fleet in Asia have not yet succeeded in uniting, the Baltic fleet is on the move, and there seems to be a certainty of a big land battle soon. Both sides are making a strict censorship, what is let out occasionally being apparently intended to deceive.

Gen. Kuropatkin is speeding over the long railway and promised before he left to drive Japs into the sea and sign the treaty of peace in Tokio. The Bets made a similar threat of driving the British into the sea, and on the other side Gen. Buller boasted before leaving England that he would eat his Christmas dinner in Pretoria, but he didn't by a long way, and the fierce Russian General may learn that it is better to boast when putting the harness off.

Meanwhile it is extremely satisfactory to find that Britain and France are keeping cool and even removing causes of friction between them such as the Newfoundland troubles, which are reported as being settled for some concessions in Africa.
