We are indebted to Mr Wm R Bone in receiving this week from him a large and handsome map of Manitoba together with valuable information regarding cheap homesteads. fine views of Winnipeg, &c., &c., he has our warmest thanks. We have handed them over to our local post office (Thistle) for use to the general public. The above named gentleman, who has made a comfortable home for himself and family in Minnosota, is able to come home every few years and renew old acquaintances. On this occasion although the weather and roads have been the worst experienced for years he, wife and little daughter have been able to get around and pay his numerous friends a visit. They left for home on the first C. P. R. train from Cevlon, after the blockade. He says we need say nothing of the blizzards of the States after our experience this winter.

Mr and Mrs Wm Tucker have been paying Toronto friends a visit for this last month and returned on Monday last. This well deserved outing is something new for Wm. Who wouldn't have a wife? They have experienced a fine time among new friends.

Mr Abie Jones lately paid a visit to his grandparents, Mr Hornsby, and other Egremont friends. He continues the picture of perfect health and amply demonstrates the fact that steady work is not derogative to good health. There is scarcely any occasion for a young man lying idle most of the winter, as we see sometimes, in this wooden country of ours, if he has only the "list and elbow grease" to put it in practice, and turn his hand to any honorable calling as Abie does.
