## In the Millinery Department

Our Millinery has long had a reputation for correct exclusiveness unapproached by any other store making pretences to non-extravagance. You may pay up to \$15 for a hat here, but you're paying for art and not for fancifulness when you buy an expensive hat at the Store. We can give you beautiful Paris-modelled hats, the work of our own clever Milliners, at \$5 to \$10. We can give you pretty, tastefully trimmed hats for \$2.50. And at every price you find good taste, beauty and harmony.

During the evening session of the Teacher's Convention in the town hall at Drayton, last Thursday, an incident occurred which might have resulted in a horrible fatality. Acetylene gas is the lighting facility used there and when the programme was nearly over, some radical disarrangement happened to the generator causing a noise throughout the building similar to the rattle of hailstones on a tin roof. Considerable excitement was caused which was brought to a climax when an individual at the rear of the hall shouted fire! In an instant the 400 people were on their feet making for the only exit. Fortunately the power was turned off at this stage, and the general alarm subsided.—Rep.

Special Talent is being engaged for a Concert in the Rink in the evening, at which the "Kilties" will be present and other stars.

The town has guaranteed over \$200 and the Camp half as much more and the committee confidently expect the biggest crowd ever seen in Durham. Usual cheap fares.

DR. HUTTON, Chief.

A LETTER FROM CARNDUFF.

A few days ago we received a ray letter from Mr. W. S. Housburgh, late of Durham, and we cannot refrain from reproducing some of it, being of general interest and especially so to the many friends he and Mrs. Housburgh have in Durham and to the South.

We break in where he tells of the journey. "We left Mt. Forest, 20th March for Toronto, leaving there at 2:30 one hour late, the crowd being so great the train had to be made up in two sections, we getting off on the first. For an extra \$2 we took berth on a tourist sleeping car, and the convenience this brought us was well worth the money.

"On awaking Wednesday morning the 30th we were running through rocks and around lakes, and for most of the day the train sped through the barren waste. To our regret we passed through Port Arthur and Ft. William at night and did not see the busy mill towns.

"Thursday morning the scenery was of the same dreary character, rocks, hills, lakes, with occasional John left stretches of low land covered with small spruce, tamarack, &c. We got to Rat Portage at one p. m., where a stop of 30 minutes was made and engines changed. As we neared Winnipeg a noticeable change in the prairie region. Arrived at Winnipeg at 6 p. m., where all changed cars. Left at 7:30 with no incident of importance till we reached Brandon, 133 miles, at 1 a. m. Friday morning. Here we had to change again onto the Souris branch which would take us to our destination at Carnduff. This was the roughest piece of road we had met: running into snow-drifts, stop, back, and start ahead again.

"Arrived at Carnduff at 12 noon Friday, which was good time, 31 days. We were pretty tired after the last 125 miles of rough riding but glad to be here safe and sound. My brother John left the Thursday before us, yet only reached here one day before us. We have rented a farm about 5 miles from Carnduff and one mile from John's. Mrs. H. likes the country well.

"The price of land has gone up almost 100 per cent in the last 4 yrs., much of it held by speculators. Clean prairie around here—no scrub. Farmers seem to be in good shape, many fine bank barns, some of them 70 x 44 feet, and outbuildings to match.

"Carnduff has four general stores and two hardware, five elevators, a flour mill, three feed and livery stables, four implement shops, three lumber yards, furniture store, two butchers, two bakers, watchmaker, tailor, druggist, doctor, lawyer, veterinarian, blacksmith, Stationer, Chinese laundry, hotel, court house, real estate agencies, race course, school, two churches, Methodist and Presbyterian, and many fine residences. The town is laid out in streets and avenues.

Though Carnduff is five miles distant it does not look more than two owing to the clear atmosphere

"I have been ploughing on a riding plough, half mile furrow without turning. It is raining to-day, the first since we got here, weather has been cool, especially with east winds, which old residents say, are more prevalent than usual. The prospects for a good season are excellent.

"I hope this will find you all well, give our regards to all old friends."
