#### A TRIP TO ST. JOHN.

It is a far cry from Vancouver to St. John and yet it seems fitting that the young man "go West" should this year call to the venerable assembly to turn

toward the land of the using sun. As most of your readers are aware there are two main routes leading to St. John, one round by the old city of Quebec, along the banks of the St. Lawrence, down by the bay of Chaleur and away by the northern extension of the Mrs Noble and her two children re-urned to Toronto Tuesday where they been the lumbering centre of the east. The other route takes you from Montreal by a direct line across the state of Maine to McAdam and thence along the valley of the St John river down to the chiefcity of New Brunswick, Measured

Mr. Will Buchan left Taesday for by actual mileage, the latter is much the shorter route, but by the more practical measurement of dollars and cents they are the same. By the shorter route the actual running time is less, but those who travelled on, on Monday evening reached St. John slightly ahead of those who by the shorter route left Mr. Jos. Corbett, Sr., Grayenhurst, is Toronto on Tuesday morning. The route by the Intercolonial offered more sight-seeing and more travelling for the money than the other, but remembering the Scottish advice, "gang richt through" I relected the shorter route. Evidently the C. P. R. were doubtful of the popularity of their own route for the 'special' that was mentioned in a Mr. Fred Glass, at present with the circular from the company was not sent Knechtel Co. in Hanover, got three of out. However, two day coaches, a dinhis fingers taken off in the shaper a few | ing-car and pullman bore the placards | days ago. This is a distressing accident with the inscription, "private car and we hope he may still have the use for members of the Assembly at St. John." The accomodation as we left Toronto was sufficient, but as we travelled the crowds thickened, till on Wednesday morning we were told that In compliance with General and Dis- | the party that had started out on these goal as soon as possible. We did not even go up to Montreal station but branched off to the south at the Junction. Yet in the midst of much barren land there were scenes of real beauty spread out before us. The view from the high lands over the beautiful district east of Torontowith Whitby and Oshawa away in the distance was beautiful. Of an entirely different character was the sight of the clear waters of the Ottawa

> dian saw in it the vision of Deity. In its own way equally charming was the quiet restful impression produced by Moose Lake, a resort for hunters and fishers in the state of Maine. As we swept along the banks of the St. John we found the waters running from the sea landwards which called to mind the fact that there is a tide in the affairs of men as well as in Fundy Bay.

Lay and clerical, farmers and business men, judges, lawyers and governors, ministers and professors all gather to take part in the proceedings of the Assembly. The occupations of the way are varied in the extreme One reverend clergyman was seen with a combination key with which he was exercising the ingeauity of his fellowpassengers in the attempt to unlock its mystery. Then there was the old fashioned riddle and the story chest from which were taken "treasurers both new round till the title, "Long faced Pres-The Edge Hill beef ring is starting byterians" seemed ill placed. Yet all here on June 18th, Thos Turnbull butcher. | was not so trifling. Notwithstanding all the merriment there were discussions as to life and work, till the problems of town and country were looked at from many a point of view and sympathies were awakened through a richer and fuller acquaintance. So we rolled on and there was the meeting of old friends contact with men of repute hitherto unknown, and the still more delightful discovery of character and power in some new acquaintance that sends one away with hope and confidence for the Miss Lillie Jopp left last Monday for church of the future, Yet withal the memories of the past are sad as well as glad. Ten years ago I went over the Assembly. On that occasion some of were guests of Mr Thos Greenwood's foot, Cochran, Thompson and Robertson and the dearly loved D. J. McDonnell Great improvements are in evidence with some former Assembly men. I re-

beautifying their fronts in this latter with its joys and sorrows, its laughter and its tears. One of the speakers yesterday spoke of the modern Saint John as being akin to the ancient Saint of that name in their spirit of loving hospitality and al ready we are able to testify to the truth of the remark. There are many things more that might be said but I have written at too great length already. If I have time I shall try and write something of Assembly work for a future issue which through your kindness will reach the many friends I cannot reach individually. Meantime adieu. Yours Sincerely.
