Another Death Roll.

MR. THOS. EDWARDS.—This well-known citizen of Glenelg passed away very suddenly on Sunday last. As we have been informed he had just got out of the door when he fell and expired. He was one of the pioneers of his town-ship and had reached the ripe age of 81 yrs. He was a native of the North of Ireland, a member of the Methodist communion, and Conservative in politics, and bore a high reputation as a friend and neighbor. Mr. R. T. Edwards, formerly a well-known teacher, is a son. We hope to have more particulars next week.

MISS M. HEWITT.—Still another victim to the grim reaper, when on Sunday the only daughter of Mr. and Mrs. Hewitt passed away. She was an attractive young lady, just entering upon womanhood, and her death is a severe blow to parents and friends. The family only recently purchased the Wool-gshan property moving there from Rocky Saugen. The funeral takes place to-day, Wednesday, two brothers being expected from Omaha.

MRS. GEO. HIND.—This lady died on Thursday last aged 60 yrs. Previous to marrying Mr. Hind some 13 years ago, she was Mrs. Vollett, wife of the late Henry Vollett, of Bentinck. Besides her husband she leaves to mourn her loss, four daughters, Mrs. E. McPherson, N. Y., Mrs. A. Hind, in town, Mrs. S. Neal, Orchard, Mrs. Bilton, Holstein; three sons, Will of Bentinck, Aaron, Normanby, John in town. Her funeral on Sunday was attended by many citizens and old neighbors in the country. She was buried in Maplewood cemetery. Rev. Mr. Masson conducting the services.

DIED AT DAUPHIN.—The following brief notice of the passing of an old resident of this part, reached us by mail on Monday. Ever is death stepping into some home. We extend sympathy to the sorrowing husband and other relatives: "Died at Dauphin, Manitoba, August 7th, of Apoplexy, Jane Dargavel wife of Asa Tolson. Mrs. A. Tolson was born in Bentinck, Feb. 20, 1836 and was well known in Durham and vicinity. She was a member of the Dauphin Presbyterian church and was very highly respected as was manifested by the very large procession which followed her remains to the grave. Mary, William, Alexander, and Dr. J. Dargavel attended the funeral.

THE LATE WM. BELL.—We were pained and surprised last Monday night to have a telephone call with Mr. John Muir, Toronto, the subject being the death of Wm. Bell, well known in North Egremont and a good distance beyond. He died on Monday at the home of a friend in Toronto from cramps which worked up from his limbs to some vital part. His death will come as a surprise to his old neighbors who knew and respected "Billy." He had just lately disposed of his valuable property to the Lothian Bros., and he had apparently a prospect of reaching old age in comfort. He is the last of the family, who were all unmarried. His brother John died many years ago and they followed in succession his brother Robert, his mother, sister Jane, his father, who reached about the century mark, his nephew Tom, and now he will follow them to the little Ghenezer burying ground on Con. 2, S. D. R. Glenelg. We have not learned if he has made a will. A distant branch of the family is in this country somewhere, and it is a question whether they or the government will bear his wealth. He was an ardent and devoted Orangeman and he will likely be buried under their auspices.

TRACTION ENGINES.—An amendment to the Statutes this year leaves the law in this shape as regards the crossing of bridges and culverts by traction engines: "Before crossing any bridge or culvert it shall be the duty of the person propelling to run an engine or other heavy machinery to lay down on all bridges or culverts planks of sufficient width and thickness as may be necessary to fully protect the flooring or surface of such bridge or culvert from any injury that might otherwise result therefrom by the contact of the wheels of such engine or machinery; and in default thereof the person in charge and his employer, if any, shall be liable to the municipality for all damages resulting to the flooring or surface of such bridge or culvert as aforesaid."

Traction engines are a necessity, and they have entirely displaced the horse power for running threshing machines all the same they are pretty hard on culverts and small bridges. By using the planks now required by law, the danger to these structures will largely disappear.—Ex.

HYMENEAL.

A happy event took place Aug. 3rd at the home of Mr. Thos. McNally, Glenelg, when his sister Annie was united in marriage to Mr. John Ellison, Rev. C. E. Pine officiating. A very pretty arch of evergreen and flowers was formed in the parlor under which the happy couple were expected to stand, but as the night was so warm the marriage was performed outdoors under the trees where all the guests could witness the ceremony. The bride, who was given away by her father, was becomingly attired in white lustré, with chiffon and silk applique trimmings, and sash, and carried a bouquet of flowers. Miss Maggie McNally acted as bridesmaid and was tastefully gowned in sea-green crepe de chine, trimmed with white. The groom was supported by his cousin, Mr. Malcolm McEachern. After congratulations all repaired to the house and sat down to a sumptuous repast. The presents were numerous and valuable.—Com.

THE WAR

Great things a-doing. The Port Arthur fleet, never safe outside, found they were not safe inside last week, as the Japanese guns on surrounding heights were getting within range and literally "making it hot" for them. Acting on orders from Admiral Skrydloff, conveyed into the fortress somehow, the bottled up fleet in Port Arthur, made a bold dash out, no doubt aiming to unite with the Vladivostok fleet. But Togo was on the watch, and there was fought, when all comes to be known, one of the greatest sea battles of modern times. The Russian fleet scattered, the bulk of them going back to Port Arthur, some going to the bottom, some few it is thought have escaped, a few reached Chinese Ports, the great battleship Czarevitch and three destroyers reached Kiao Chow, Germany's seaport, battered and almost helpless, and these had to leave in 24 hours or lower their flag and be disarmed. The latter has been done.

About the same time the Vladivostok fleet was steaming south on the other side of the Peninsula, but alas! the action aimed at was never made, for Kamimura, the silent Admiral, who hitherto has failed to check them, met them in Corea Strait and inflicted a smashing defeat, sinking the battleship Uriuk, and chasing the others home to Vladivostok, crippled and beaten.

This double naval disaster has dashed the Russians and elated the Japs. Two other disasters are to follow—may have taken place even now—the capture of Port Arthur and the defeat or capture of Kuropatkin at Liaoyang or Mukden. The Japanese saved from drowning 600 Russians when the Uriuk went down.

How the Japs towed torpedo boat out of Chefoo harbor and much other matter will be found on our inside pages.

SCHOOL MATTERS.

The contract of terracing and otherwise improving the school grounds has been let to Mr. Thos. Daniels. He intends to have it done before school re-opening and at last we shall have the satisfaction of seeing a beginning made to have aesthetic surroundings to the spot, where our young people, at a most impressionable age spend so much of their time. The fine trees already there will not be interfered with, but will be added to at the proper time.

The Lower Town hall has been secured for the fall term for one of the Junior High Schools, the requirements of the Model Schools necessitating the change. If the town continues growing as it has done, and everyone hopes it will, additional school accommodation is a pressing necessity, and one which should be and no doubt will, receive the hearty sanction of the town.

WOMEN'S INSTITUTE.

Intended for last week. A successful meeting was held at the home of Mrs. Jas. McGillivray on Thursday 4th inst. There was an attendance of nearly thirty. The topics were "meats," "Canning Fruits," "Hygiene," etc., which were instructive. Short papers were also given on "Irreverence," "Rest," etc., which were highly appreciated.

The next meeting will be held at Mrs. David McCrie's on 1st Thursday in September. The topic is "Poultry" and we hope the ladies will avail themselves of the opportunity of attending this meeting and discussing the best methods of dressing and cooking the fowl, as eating them.

ELLIOTT Business College.
TORONTO, ONT.
Strictly first-class in all departments. Magnificent catalogue free. Fall term opens Sept. 6th. Corner Yonge and Alexander sts.
W. J. ELLIOTT, Principal.

A cast iron Stomach,
It really doesn't matter what kind of Baking Powder you are using but

"ART BAKING POWDER"

is guaranteed to be free from alum and all other injurious ingredients. To induce you to give this Powder a trial, we present you with

THREE NATTY BOWLS

with each lb. can for 50c.

J. Burnett,
Upper Town.

"The Apparel Of Proclaims the Man"

Somebody that ought to know, once said this.

Our Clothing

is sought for by people whose tastes incline to the neat, quiet and respectable. There is a something about our Clothing which suggests refinement and taste;—and the prices, so low, you would hardly know how we do it.

Much lower than usual just now to clear out the remainder of our summer stock to make room for the Fall Goods.

We have delighted many a buyer. We would like to please you by selling you one of these nobby suits at a low price.

To the first three boys and girls who tell us who it was expressed the opinion of our opening quotation, and where it occurs, we will give a Boy's Tie or a Ladies' Silk Stock.

H. H. MOCKLER.

The final lacrosse match for the District championship comes off tomorrow in Hanover. An enormous crowd is expected from both Owen Sound and Durham to witness the last and decisive game between the Durhams and the Wellingtons.

Since our last issue we had an interesting talk with Mr. George Turnbull, lately from Scotland. He is full of interesting information regarding, and impressions of the old land, of sufficient interest to be recorded, and we shall see to this next week.

STILL A CRACK SHOT.—Colonel the Hon. G. M. Gibson, in the first section of the Watson-Foster spoon competition for the right half of the 13th Regiment's officers and staff sergeants at Hamilton on July 30th, won the officers' spoon. The ranges were 200, 500 and 600 yards, seven shots at each range, and his scores were 32, 29 and 29; total 87. Captain R. A. Robertson, with a total of 85, was second. Hon. Mr. Gibson's shooting was considered remarkable as he had no practice whatever with Lee-Enfield rifle. His eye has not lost its clearness nor his hand its steadiness.—Confederate.

A BRILLIANT METEOR.—Our North Egremont and Boothville correspondents both mention the light or explosion of a meteor on Saturday last about 8 p. m. It was accompanied by "a rumbling sound as of distant thunder" or as of "a ricocheting rifle ball, only greatly intensified." This is one of the famous August meteors, through a zone of which the earth passes about this time in its flight round the sun occurring in its attracting them to its surface. The friction caused by the resistance of the earth's atmosphere sets them afire, some to burn out, others to cool again and continue their journey. The "November Meteors" are still more famous.

DURHAM BRICK YARD.—We had the opportunity last week of a ride behind Mr. Wm. Black's fine mare "Nelly," and took it, en route for the brickyard, set agoing this year, largely, as we pointed out some time ago, through Mr. Black's enterprise. The Messrs Walker were busy with their first kiln, having had no little difficulty in securing wood, beginning so late in the season. This first "burn" they call a small one, containing about 100,000 bricks, and they have at this writing nearly as many more to begin another one. A burning kiln, and its accessories, is an interesting sight, and the visitors were duly appreciative of the courtesy shown them and explanations given. This enterprise is bound to be a great boon to this neighborhood, and we hope it may prove profitable to the energetic owners who are experts in the business.

—The British Mission, under command of Col. Younghusband, entered Lhasa, the sacred capital of Tibet, after a long and perilous march. They fought several battles en route. The success of the expedition will certainly enhance the reputation of British arms in the middle east.
