"McTUFF"—R. B. Clement, a prominent citizen of Walkerton and second oldest resident of Brant township, died week before last. For years he contributed racy letters to the Hanover Post under the pen name of "McTuff" and last week that paper gave a very appropriate and sympathetic obituary.

Miller delivered an address upon "Weeds" referring to the weeds in Society and basing his remarks upon the exhibit of weeds at the South Grey Agricultural Exhibition. Mr. McKinnon, though expected was not present.

H. H. Mockler handles over twenty different lines of men's underwear in all weights and sizes, and at the very lowest price too.

DO YOU TAKE A DAILY PAPER.—If you are desirous of keeping in touch with things—of knowing the essential facts of about practically everything that is happening the world over—then read the Toronto Star. Perhaps you are in business; then read the Star for its full and accurate market and stock reports. You are interested, maybe, in politics. The Star's record of political happenings is full and free from partizan bias. Whatever you look for with most eagerness in a daily paper, you will find in the Star, whether commercial, political, sporting, or general news. Its woman's page makes it a favorite in the home; its cartoons in point of artistic merit are perhaps the best in Canada. Editorially it is not blindly partizan but sane and fair. By subscribing now you can have THE STAR, together with THE REVIEW until December 31st, 1905, for \$1.75. Don't wait until the end of the year, for in so doing you miss all the good campaign reading. Do it NOW.

Death was Busy.

Hugh H. McLean.

Last week the family of Arch. McLean, Bentinck, received the alarming news that son and brother, Hugh H. was dangerously ill in Winnipeg of typhoid fever. His brother Duncan at once went west to find him dying, and on Tuesday came a telegram from him that the day before death had claimed the much-loved son and brother. Deceased learned his trade, harness-maker, with Mr. Thos. Smith of town, spent two years with Mr. James of Priceville, and went west 7 or 8 years ago to push his fortunes. He was a popular young man, amiable and obliging, and his premature death at the age of 32 will be a great blow to his parents and family and cause for sincere regret to the many friends he met with on his visit home last winter. His brother leaves Thursday with the remains and will likely arrive in Durham on Saturday.

Jas. Storey

The whole town was painfully startled on Saturday to learn that James, son of Henry Storey, a bright lad of nearly 10 years had died. A week before he was around as usual, on Monday he was taken acutely ill with appendicitis and an operation was performed only to find that the disease had made such disastrous progress, that there was little hope. Though never a rugged boy, he struggled on till Saturday as above stated. He was buried on Tuesday, a large number, young and old, attending the funeral and the service in the Methodist Church. Rev. Mr. Colling spoke of his faithfulness and usefulness in church work, where he would be greatly missed, and his late employer, Mr. Catton, spoke warm words in praise of his faithfulness at his factory duties. His parents, one sister, (Mrs. Wm. Caldwell, Normanby) three brothers,—Wesley and Melville home, and Thos. in the west, are the mourning family circle.

Mr. Joseph Sharp.

Startlingly sudden also came the news on Monday that Mr Joseph Sharp had died on Sunday. Just last Thursday he left home for treatment, which proved ineffectual and to day, Thursday, he will be placed in the silent tomb; so soon are we "blotted from the things that be." Deceased was in his 63th year and came here over 30 years ago, and was well and widely known, as an intelligent and progressive farmer, taking a great interest in improved stock, &c. He leaves as chief mourners his wife and five sons, Wm and Ben in town, John at home, and Jas and George in the west. His remains will be placed in the English church cemetery.

To all of the mourners we extend sincere sympathy.

A fearful accident has taken place in Sarnia tunnel. A freight train separated and part was left in the tunnel where deadly gas collects. A rescue party was formed, three of whom lost their lives making 6 victims in all.

A BANK ROBBERY.—Professional burglars blew open the vault and safe in Hartman's Bank, Clarksburg last Sunday. All they got for their trouble was less than \$1 in cash and a box of notes and drafts which will be no serious loss. About \$7000 worth of jewels were also burglarized lately from the T Eaton residence in Toronto.

Bentinck Agricultural Society's Show was spoiled in attendance by wretched rain weather but the entries were, according to the Post quite good. The displays made by the merchants and manufacturers were highly creditable. Stock classes, notwithstanding the weather were well represented, but of course the spirit was taken out of the day by the depressing rain.

SIR WILFRID LAURIER.

"For my part I will not rest and shall never be satisfied until at least the Canadian people can boast of a Railway built from ocean to ocean upon their own territory and absolutely free from contact with foreign territory."

Campaign Warming Up.

This week we present our readers with a cut of the Conservative Candidate and as far as looks is concerned any government might be proud of either.

Premier Laurier is this week speaking at 3 or 4 points in Ontario, and it looks like a triumphal tour.

Mr. H. H. Miller is this week speaking in Egremont and Normanby, and so far is gratified to find himself welcomed as the representative of the best Government Canada ever had—the government that does things. What did they do?

The Post Office Deficit.

They turned a deficit in the Post Office department into a surplus. Finance Minister Foster in 1896 said "There is now a deficit of some where near \$800,000 between the receipts and expenditures of our Postal service, and this, I fear, makes the time somewhat distant when what otherwise might be fairly asked for can be granted—that is a reduction in the postal rates of this country."

Sir Wm Mulock took the reins in 1896, the deficit grew less; he reduced letter postage from 3c to 2c yet the deficit grew less. He reduced foreign postage from 5c to 2 cts and the deficit kept fading till one morning, not "distant" either he announced a surplus. A vast expense was incurred to supply the Yukon, but even this is swallowed up and this year there is a surplus of \$800,000 a difference of over one million dollars in 8 years, and had the old rates been continued this would have been two millions more. This was something to do. Vote for Miller who believes in such doings.

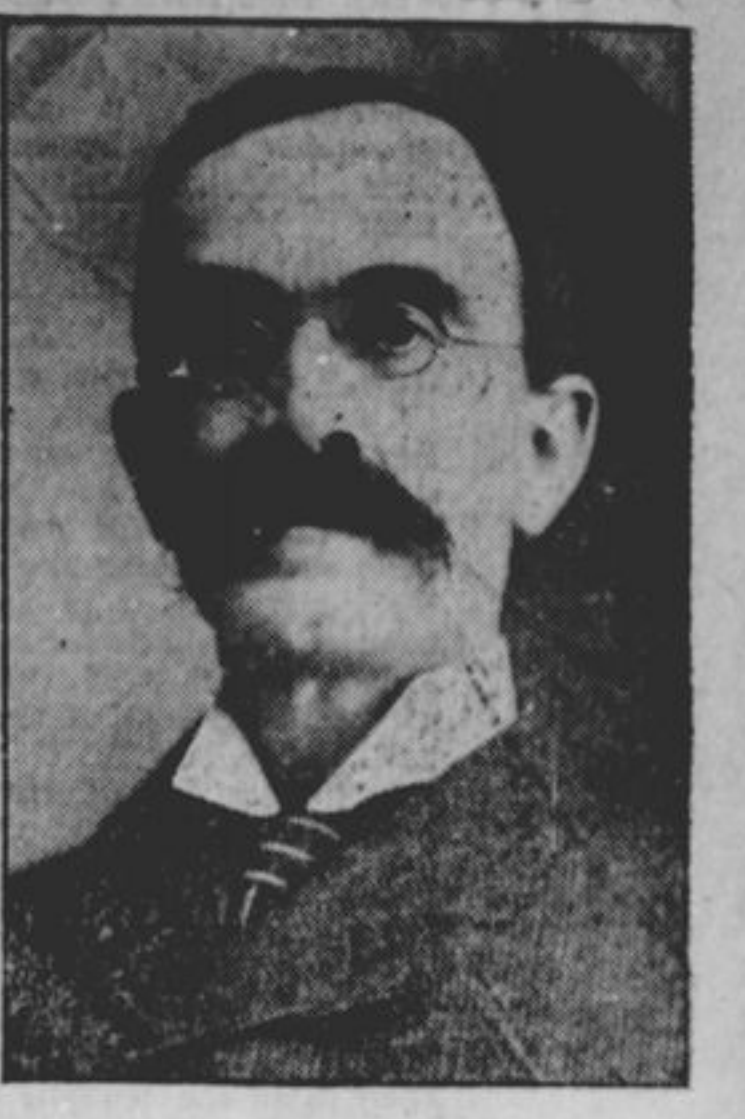

The Tariff.

What more? They reduced the tariff, for say as you will that there is still protection, the fact remains, that had the old duties been in force last fiscal year, the huge surplus of \$16,000,000 would have been several millions larger. They reduced the tariff from an average of \$18.28 per \$100 to \$15.88 per \$100 and had the old duties remained there would have been over 30 million dollars more money collected from the people than there has been. This amount remains with the people and is one cause of the general prosperity which clings to us while our neighbors in the States have pinching times and thousands out of employment. This is doing something surely, and the way to recognize it is to vote for H H Miller, who is also a "doer" in every good sense.

The Preference.

What More?—They discovered Canada for Britain. No! No! you say! But they did. Until recent years Britain did not look on Canada as she looked on Australia and New Zealand. Canada was somewhere near and overshadowed by the States. Canada? Why it was largely French. Canada? Why it was a cold barren country where people built ice palaces, hunted bears, walked on snow shoes, &c and even the London Times thought Lord Dufferin was an appropriate Governor General because he had written "Letters from High Latitudes"! All this has been changed. Britain sat up and rubbed her eyes at the Jubilee in 1897 to see a French Canadian premier, and civilized! and was eloquent and intelligent! and a London paper was forced to say "a great man has come amongst us"! What did he do? speak only? No. He and his government laid in the lap of the mother country, the warmest and best gift she had ever received.
