

STRAINED HIS BACK WHILE LIFTING

Was in a Bad Way till He Used Dodd's Kidney Pills.

They Removed the Bad Effects and now William Sharam is as well as ever again.

Murray Harbor South, P. E. I., Oct. 10. (Special.)—Hurt through straining his back while lifting, Mr. William Sharam, general storekeeper here, got so weak that he could scarcely hold up. To-day he is enjoying the best of health once more, and when asked how he got his health back he hesitatingly answers, "Dodd's Kidney Pills."

"Having sprained my back with heavy lifting," Mr. Sharam says in telling his story, "it brought on Urinary and Kidney Trouble. I got so weak that I almost fainted, and could scarcely hold up. I was terribly troubled with having to get out of bed so frequently to urinate."

"After using many medicines with no good results, I tried Dodd's Kidney Pills. I have used ten boxes in all, and now I can sleep without being disturbed, and all old troubles have vanished."

Dodd's Kidney Pills cure the Kidneys. Cured Kidneys cures numerous diseases, including Rheumatism, Dropsy, and Bright's Disease.

DESERTS OF THE SEA.

There are Some Lonely Spots on the Ocean Seldom Crossed by Ships.

There are deserts on the ocean as well as on the land—vast wastes upon which the eye of man has never rested and which have seldom, if ever, been crossed by the ships of commerce. The waves on these wastes have never been parted by the prow of a sailing vessel or lashed by the propeller of a steamer; immense solitudes where the flap of a sail is never heard nor the strident cry of a siren; veritable deserts, whose silence is broken only by the howling of the wind and the roar of the waves, which have been vainly pursuing one another since the day of creation. These deserts lie forgotten between the narrow ocean highways—travelled by vessels. In such waste places of the sea a disabled ship, driven out of its course by a hurricane, may drift for months, tossed by the ceaseless ground swell, without being able to hail assistance. Her only chance of escape is the possibility that some ocean current may drag her into a more frequented region.

It is generally supposed that by reason of the universal increase of maritime traffic the sea is everywhere furrowed by vessels. This is a mistake. Ocean commerce has grown enormously during the last half century, but that development is due to the substitution of steam navigation for the old-fashioned employment of sailing vessels. When the first steamed vessels came to the water with its paddle wheels, the sailing fleets ceased to increase. With the advent of the screw propeller they began to decrease. The gradual but constant disappearance of sailing ships made the ocean more of a desert before. Sailing vessels had their established routes in accordance with winds, currents and seasons. The gaps between the routes taken by the outward bound and homeward bound ships was often considerable. Moreover, the capricious elements not infrequently played the mischief with nautical instruments, and as a result the field of operation for ocean shipping was vastly expanded. This is no longer true to-day. The liner goes straight ahead, in defiance of wind and wave. The ports between which she plies are great industrial or commercial centres, whither come numberless railways, serving as prolongations of the lines of navigation. Freight cars carry their loads of merchandise to the lesser ports and the cities of the interior. The railway has killed coast-wise navigation. The ocean highways are, therefore, anything but numerous. The most frequented of oceans is the Atlantic. Apart from the polar seas, we see that in its northern part there is only one desert zone—a dreary waste of waters between the routes from Europe to the United States or Canada, and those from Europe to the Antilles. In the South, between the routes from South America or the western American coast and the routes from South Africa, extends a desert occasionally traversed by the steamers of the lines from Cape Town and Mozambique which, when the coffee season is at its height in Brazil, cross the Atlantic for cargoes at Rio Janeiro and Santos.

The Indian sea is frequented only in the north by lines out of India and into China, and a little in the west by liners from Oceania, which call at Colombia, and then make straight for Australia. Two lines, each with a steamship a month, connect San Francisco, Australia and Cape Town. The Pacific is the Sahara of the great seas. Saving only the steamships from the Far East to California and British Columbia, a line from Sydney to San Francisco, and a one-horse line (with sailings four or five times a year) between Tahiti and the United States—save for these mere ribbon-like streaks, the Pacific is a desert. Only a few native canoes ply daintily from island to island in archipelagoes girt round with coral reefs—veritable ocean graveyards, the terror of sea-faring men. How many ships of which we have received no tidings, and of which not so much as a drifting spar has ever been heard up, have been dragged by irresistible winds into those solitudes of the South Pacific no one will ever know, for the ocean guards its prey full well.—Chicago Chronicle.

Minard's Liniment Relieves Neuralgia.

One of the Six Hundred.

In the recent birthday honors list were a number of veteran officers who received marks of royal favor in commemoration of the jubilee of the Crimean war. His Majesty at the same time, was not forgetful of splendid heroism displayed throughout the campaign by the rank and file of the British army, and he has conferred on Sergt. Numerley, formerly of the 17th Lancers, who took part in the charge of the Light Brigade at Balaclava, the medal for meritorious service. The secretary of the army council has intimated to Sergt. Numerley that King Edward bestows this honor upon him together with the annuity "as a reward for his long and highly meritorious service, including the Crimean war."

The gallant old lancer gives a vivid description of the daring charge of fifty years ago. He says: "We had not proceeded far before the men in the left division of my squadron were nearly all mowed down, including a sergeant, who had his head blown off, but afterwards rode about thirty yards before he fell from the saddle. Every shot from the enemy's guns came with deadly effect, and I had many hair-breadth escapes from death. Within a few yards of the Russian guns, my horse was shot and fell on its head. I endeavored to pull it up, but found the animal was unable to move, its foreleg having been blown off. I left my wounded charger and forced my way on foot, when I was attacked by Russian cavalry, through whom I succeeded in cutting my way. No sooner, however, had I got clear of my foes than I was knocked down and ridden over by a number of riderless horses. Having regained my feet, I observed one of the 13th Light Dragoons under his horse, which had been killed. The rider (Trooper J. Malone), not being able to free himself, I succeeded in dragging the horse off of him, and set him at liberty. Later on I assisted Sergt. Major Farrell, of the same regiment, to carry Capt. Webb, who was badly wounded, out of danger. I once more returned to the open under a heavy fire and brought out Trumpeter William Bretton, who was very seriously wounded. I then caught a stray horse belonging to the 8th Hussars, which I mounted, and returned up the valley, galloping through scores of dead comrades and horses that lay there strewn over the ground. Later on I found the out of 145 men belonging to the 17th Lancers who went into the charge, only thirty-five could be discovered."—London Telegraph.

Strong words by a New York Specialist.

"After years of testing and comparison, I have no hesitation in saying that Dr. Agnew's Cure for the Heart is the quickest, safest and surest known to medical science. I use it in my own practice. It relieves the most acute forms of heart ailment inside of thirty minutes and never fails."—35

CULINARY HINTS.

Potatoes will bake more rapidly if a pan of water is put into the oven with them.

Coarse salt and vinegar will clean enameled ware that has been burned or discolored.

No odor from onions will pervade the house, it is said, if a generous piece of stale bread is cooked with them.

A nut pick kept on the kitchen table is the most convenient utensil for removing the paper cover from the milk bottles.

Never use newspapers to wrap about anything eatable. It is economy to have a supply of paraffin paper always on hand.

Eggs should be kept in a receptacle to themselves, since the shells (when fresh) are so porous every strong odor is absorbed.

After a can of condensed milk has been opened, keep the lid raised, or, better still, cut it off so the contents will be exposed to the air.

Stand the jar to be filled with hot fruit on a steel knifeblade or a cloth wet with very hot water, and there will be no danger of a broken jar.

Perch or other small fish are much better if fried quickly in deep, hot fat. Larger fish can be fried slowly in a skillet in hot salt pork fat.

For the meringue on pies use one tablespoonful of granulated sugar to the white of one egg. It is more satisfactory than powdered sugar.

The novice should memorize this rule: White meats well done, dark meats underdone, except in fowls, which should always be thoroughly cooked.

A novel pickle is made by combining sweet corn and cabbage, each cooked separately, then scalded in sweet spiced vinegar and canned for winter use.—The Pilgrim.

For the Fair.

Fichus remain.

Coat-tails appear.

Plaited skirts reign.

Shaded plumes are lovely.

New Etons are attractive.

There are lace hat scarfs.

Lavender girdles are delights.

Shirred cloth blouses attract.

Skirt trimmings are ubiquitous.

Basques complete most coats.

Broad vegetable fibre braids is used.

A tailored petal turban is an odd novelty.

Sautache buttons come in one and two-tone effects.

Furs border the foot of the dress and serve for hats.

No one style seems to prevail in any sort of garment.

For almost any purpose ribbons in three shades of a color are chosen.

Accordion chiffon is as much favored as ever under lace flounces.

Heavy lace is a prominent feature of evening and carriage cloaks.

Cheerful between rich velvet and shimmering silk ribbons is difficult.

Passenterie effects, as well as cords and tassels, are among the favored.

Embroidered velvet appliques, small, elegant designs, trim taffeta effectively.

Leaf brown collars is one of the most charming of stuffs for house or reception dresses.

Fabric Fruits for Hats.

Berries.

Peaches.

Cherries.

Apricots.

Tangerines.

Crab apples.

Lady apples.

Small green apples.

Realistic little pears.

Cherries come in all colors.

All fruits come in clusters.

Plush peaches are tempting.

Small oranges are "in" as to color.

Velvet damsons match a favorite blue.

Hard to Make them Do It.

RYRIE BROS.

"DIAMOND HALL"

115 to 124 Yonge Street TORONTO

A TRUNK ADVERTISER.

A dealer in trunks in Chicago credits his large local and general trade to the fact that he is the only trunk man in town who advertises extensively in the daily newspapers. "I think," he says, "that the custom of travellers from Switzerland to Washington, D. C. He was a friend of the Ambassador from whom he came into possession of the watch. Mr. Hiltz's superintendent of the Volta Bureau for the Diffusion and Distribution of Knowledge Relative to the Deaf, has been one of Miss Keller's best friends. The gift has been appreciated as shown by the fact that she has learned to tell the hour with remarkable accuracy, or to within two minutes of the exact time, wholly by the delivery of her touch. The second watch, which was modeled on the plan of the original, was made expressly for her in Switzerland."

Who Knows Anything About "BANNIGER"?

All buyers, sellers and users of EDDY'S IMPERVIOUS SHEATHING PAPER are interested in this question

Will every reader of this enquiry "WHO KNOWS ANYTHING ABOUT BANNIGER" please drop a line on the subject to THE E. B. EDDY COMPANY, HULL, CANADA

When to "Slip" Flowers.

The first of September I cut or break off slips and put them into sand or earth to root for winter growing. The slips cut now will not do much blooming during the winter, but will make nice plants for next summer's planting out. From July until frost I slip geraniums and put them into tin cans in earth composed of two-thirds good garden soil and one-third sand. They seldom fail to root if not kept too damp. If cooled in pure sand the sand must be kept wet all of the time, but by rooting them in soil they do not have to be transplanted and I find they grow better and stronger.

Rest for Mother Pleasure for the Children

It is not always that pleasure and profit can be combined.

The **Merry Contrary Washer** affords the children an opportunity of rendering effective help—and it is a time delight themselves. Unlike the ordinary washboard, it is made of strong spiral springs joined to a wooden base. It is used by dipping it into the water and wringing it out. Five to six minutes does a tubful. If your hardware dealer does not carry them, write us for booklet. Sold by most dealers at 25c.

THE BOWEN & CO. LTD., HAMILTON, CAN.

Bliss Beyond Compare.

Fond Mother—You will be 3 years old to-morrow. Willie, and I want to give you a real birthday treat. Tell me what you would like better than anything else!

Willie (after thinking earnestly for five minutes)—Bring me a whole box of chocolate creams, mother, and ask Tommy Smith to come in and watch me eat 'em.

Hens Lay All Year Round

when you season the food with Myers' Royal Poultry Spice.

Just think what it means to have the hens laying regularly all winter—when eggs bring their best prices. That's what Myers' Royal Poultry Spice does for the chickens. It's rich in nitrogenous matter—supplies all the constituents that compose the egg and gives more lasting internal heat. It makes hens lay—and insures fertile eggs for setting. It's wonderful for making young pullets early layers—for fattening chickens, ducks and turkeys—and for raising plump, strong, vigorous poultry.

If you want to make money out of your "chicken yard" feed Myers' Royal Poultry Spice. It's not a food—but a relish.

MYERS ROYAL SPICE CO.

Niagara Falls, Ont. and N.Y.

Sold everywhere.

HELEN KELLER'S TIMEPIECE.

One May Know the Hour by Simply Feeling the Watch.

How Helen Keller could tell the time of day has often been a cause of wonder to people who did not know that she was the possessor of a unique timepiece. How she came into possession of this watch and later of its counterpart is thus told in the Boston Transcript:

"Years ago, in the days of the Empire, an American Minister found it necessary, on occasions to seek an interview with a Emperor, and in this he always was mindful of the necessity of making these interviews as brief as possible and of withdrawing as soon as he could from the Emperor's presence, making it essential for him to keep watch on the passing of time. How to do this was a problem, for to consult one's watch openly in the presence of the royal personage manifested by would be a great breach of etiquette; yet in the audience chamber there was no timepiece by which those received by the Emperor could be guided in the least in the matter of time.

The American representative at the Court of France by good fortune came into possession of a watch which was extraordinary in its construction and which made it possible for him to tell nearly the correct time merely by feeling of the watch while it was concealed in his clothing. This he could do, with a little practice, in so short a way that it could not be detected. This proved a great boon to him and he took it with him to the Emperor's court during an interview granted by the Emperor, and it is history that he was particularly successful in consequence of his diplomatic work.

It is in this same historic watch which Helen Keller now wears, and it came to her as a gift from Hon. James Hitz, formerly Consul-General from Switzerland to Washington, D. C. He was a friend of the Ambassador from whom he came into possession of the watch. Mr. Hiltz's superintendent of the Volta Bureau for the Diffusion and Distribution of Knowledge Relative to the Deaf, has been one of Miss Keller's best friends. The gift has been appreciated as shown by the fact that she has learned to tell the hour with remarkable accuracy, or to within two minutes of the exact time, wholly by the delivery of her touch. The second watch, which was modeled on the plan of the original, was made expressly for her in Switzerland."

A Little Sunlight Soap will clean cut glass and other articles until they shine and sparkle. Sunlight Soap will wash other things than clothes.

A Kind-Hearted Lover.

Sidney Fowler, of Fairfax, Ia., was to have been married to a Rushville woman on Sunday, says the Atchison Globe, but a few minutes before the ceremony was to be performed he announced that he would withdraw, and took a Burlington train for his home. Fowler is a widower and the woman is a widow. They had been acquaintances many years. The wedding date was set for Sunday. The preacher was present, the guests were there and the wedding dinner was set. But it is said that the bride-to-be's chaperon cried a good deal and Fowler said if they were going to feel so badly about the matter getting married he would withdraw, and he did.

Dear Sirs,—This is to certify that I have been troubled with a lame back for fifteen years.

I have used three bottles of your MINARD'S LINIMENT, and am completely cured.

It gives me great pleasure to recommend it, and you are at liberty to use this in any way to further the use of your valuable medicine.

Two Rivers, ROBERT ROSS.

The Knockers.

(Chicago Chronicle.)

Hear the knockers how they knock, Always knock, knock, knock, knock, What a lot of trouble they can make by the knock, How they hammer, hammer, hammer In the day and in the night, They are always, always knocking, Always pounding, always knocking With a devilish delight; The keeping time, time, time, With a boiler maker's rhyme As they hammer, and they hammer and they knock, And they knock, On the anvils you can hear them as they shock As they shock, shock, shock, As they shock, shock, shock, With the knocking of the hammers on the block.

ENGLISH SPAIN LINIMENT

Removes all hard, soft or calloused lumps and blemishes from horses' blood spavins, curbs, splints, ringbones, swellings, sprains; cures sore and swollen throat, coughs, etc. Save \$50 by the use of one bottle. Waranted the most wonderful Blemish Cure ever known.

EFFECT OF ADVERTISING

A telephone company which had 11,000 stations had made but little increase in two years. Then it began to advertise in the newspapers. Three years later its stations numbered more than 70,000. "Advertising," said the manager, "achieved what house-to-house canvassing could not."

Too Much Red Tape.

The Vienna newspapers tell the story of a fire which broke out at Hermannsdorf, an Austrian village near the Bavarian frontier. A Bavarian fire brigade which was stationed not more than three miles away, hastened to the rescue, but the Austrian Custom House authorities refused to allow the fire engines to pass the frontier before the usual tax on imported machinery was paid. The Bavarian firemen naturally turned back and half the village was burned down before the nearest Austrian brigade was on the scene.

CATARH CANNOT BE CURED

WITH LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surface. The combination of these two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials.

F. J. CHENEY & Co., Props., Toledo, O. Sold by Druggists, or direct from the makers, Take Hall's Family Pills for constipation.

A Valuable Engraving.

Messrs. Christie, London auctioneers, recently received what is technically described as a "first state with untrimmed margins" of J. E. Smith's engraving of Reynolds's portrait of Lady Catherine Pelham Clinton. It had been folded and creased in all directions, and was received through the mail with an illiterate note, which stamps far its return if not found worth selling. The owner evidently thinking it value not more than a few shillings. It was auctioned off for nearly \$2,800.

Kidney Cry.

Pain in the back is the cry of the kidneys for help. To neglect the call is to deliver the body over to a disease cruel, ruthless and finally destroying. South American Kidney Cure has power akin to miraculous in helping the needy kidneys out of the mire of disease. It relieves in six hours.—38

Here Montreal Herald.

Under the Montreal Steel Works employed 400 hands. Under the it employs 450 hands.

From a couple of three-story buildings the concern has grown.

The sales of the Am-Holden Shoe Company are now in a way that they were built in Montreal. The largest shoe factory in Canada. Tell it over.
