SUFFERED TORTURE FOR FOUR YEARS

Day in a Chair.

Sundridge, Ont., Nov. 7 .- (Special.) --Mr. William Doeg, of this place, now a hale, hearty man, tells of his almost Ariberg 8 miles 4,300 feet miraculous cure of Rheumatism by using Dodd's Kidney Pills.

"For four years I suffered excruciating torture," says Mr. Doeg. "I was scarcely an hour free from pain. I could not lie down to take rest, but had to sit night and day in a chair.

"I was treated for Rheumatism by several doctors, and also tried several medicines without receiving any benefit. Almost in despair, I feared I never read of some remarkable cures by Dodd's Kidney Pills. I procured a box and soon found they were doing me good, and before I had finished the second box I was entirely free from pain and a new man."

Day in a Chair.

Breat engineering leat of tunneling through the Alps near Mount Simplon has once more brought into prominent notice the enormous task that still lies before the 10,000 men who are burrowing in the bowels of the earth.

The Simplon tunnel will be the longest in the world, and the reason for its great length is that its course is at a far lower altitude above sea level than that of other Alpine tunnels, as the subjoined table will show:

Length, sea level. St. Gothard 9% miles 3,788 jeet

The work of piercing was commenced in August, 1898, at Brigue, on the Swiss side, and at Iselle, on the Italian side, simultan-that the mountain was composed of vertical strata, but horizontal beds were met instead These demanded enormous labor, and great rushes of water had to be stopped. At one time the situation was really critical. The engineers came upon a bed of moving earth, again would ge free from pain. Then I to block the part of the tunnel already drillhave been encountered.

The rock through which the tunnel is be ing driven is exceedingly hard, consisting of Dodd's Kidney Pills always cure Rheumatism by putting the kidneys in shape to take the cause—Uric Acid—out of the blood.

Boy's Tussle With a Leopard.

Boy's Tussle With a Leopard. A huge leopard visited the Gopalpore and rotates slowly, but it is kept up to its work by hydraulic pressure of 1,500 pounds

The hospitality of the manager of the Gopalpore tea estate is proverbial, and he has a "Mutton Club." The leopard soon got to find out this, and he therefore strolled into the precincts of the club and made himself an honorary member straightaway, quite unconventionally and without any of the usual formalities. For "tiffin" he selected and seized the fattest sheep. But the boy who was in charge of the sheep by the hind legs and hung on to them while the leopard was tugging away at the other end, the boy yelling "blue monday" all the time.
