Washington, Jan. 16.-An unsuccessfu attempt was made to-day by one or more civilians to blow up the statue of Frederick the Great, recently presented to the U. S. Government by the Emperor of Germany, and now standing in the war college grounds. A charge of explosives, with a lighted fuse, was attached to the fence surrounding the statue, and exploded, blowing a hole in the soft mud and shattering eighteen window panes in near by dwellings. The police believe the affair was either a hoax or a decidedly amateurish attempt to work up a sensation.

Defence of Afghanistan Must Also be Looked After.

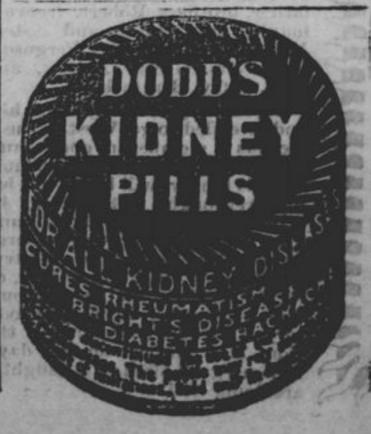

London, Jan. 16 .- Premier Balfour, speaking at a banquet given in his nonor at Glasgow to-night, avoided the fiscal question, except to say that he had nothing to add to or retract from his Edinburgh speech. He hoped conferences with the colonies soon would be quite as essentially a working part of the empire as the House of Commons.

The two great problems with which the army had to deal, Mr. Balfour said, were the defence of Afghanistan and rearmament, which involved a cost as much as any continental nation was able to hear. When this was completed the
