LEAVE BIG VAULTS ALONE.

Bank Robbers Find it Impossible to Break Into Them.

derchants are Tobbed, the safes of country banks that carry a surplus of perhaps \$10,000 are often riddled by burglars. How is it that the millions quietly reposing within now. cities are never attempted? For it is a fact that during the last twenty-five years no attack, successful or otherwise, has been made on any bank yault in the United States in cities of over 50,000 inhabitants. Most of able piece of jewelry or a roll of balls

. Money can protect money. That is the safes costing perhaps a few hundred dollars; advertises his loss in the newsperpers. a great city bank seends perhaps \$150,000 for its burglar and fire-proof vaults. And these vaults are proof. They are absolutely un- cach the greatest number of people with assailable. The guarding of a bank's has been reduced to sign a money neer, heving one caken the proper pre-Cautione, never gives the matter a further

thought, though he has millions of dollars The fireproofing for a large vault can be constructed for from \$10,000 to \$15,000. It is the burglar-proof steel lining that brings the cost of vault construction up to the six- | other channel of publicity.

Think of a steel door weighing twelve tons or of a hinge alone weighing one ton. When that door consists of ten inches of drillpreof steel, plate lapped on plate, do you won ler that even the most daring borglar has never attempted it? Such a great door usually has some four and twenty-two or three inch steel entire closing of the door is absolutely water tight. The closing has actually been tested one whole night under water. This closing 'is one of the "tongue and groove" variety and groove is packed with packing.

This formidable door is furnished with a time lock that can be set for any number of hour for which it is set arrives. The door is would still be one to open the door. called the day grate gives access to the vault. To this chamber, which, with its four-luch walls of drillproof steel, is worthy of Vulcan himself, only the active officials of the bank

have entrance. Here are the tellers' safes, where they keep the money for the day's up like so many bags of buttons, each bag being securely tied and sealed.
