### Prints

Buy your PRINTS now and get them made up when you have time. Don't delay; the sooner you come, the better the choice. Procrastination is the thief of time.

### C. L. Grant

## HILLYDALE.

Mr Editor, we have been watching the Review every week for over two months for some Hillydale news but never could see any. We hope that that writer is not dead; it was about the time of that big storm he disappeared. We expected he might turn up about the time the snow went away but not yet, so I thought I would jot down a few little items this week.

Mr James White of Durham cement plant drove out on our corner on Sunday evening with a smashing pair of drivers and engaged a servant girl and a trained nurse to nurse him in the buggy for a few hours. Jim does not look bad when he comes out in full dress.

Mr Will Allen, Jr. had a wood-bee on Friday and we understand he got a good lot of wood out.

Mr Wm McMeekin has completed his contract. He has taken out a great deal of timber of one kind and another.

Some people say that farm laborers are scarce but it does not look like it as Mr Edward Johnson cannot get time these days to talk to all the men that come wanting to hire with him.

Little Florence Ash, grand-daughter of Mr and Mrs Jas McMeekin, has been lying for the past five weeks ill with pus in the head. She has been operated on twice but she still lies in a dangerous condition. There is a nurse Miss Copland from Stratford, waiting on her.

Mr George Baird of Winnipeg is visiting his brothers and sisters and renewing old acquaintances after an absence of twenty years.

Mrs Baird spent the winter months with her daughter Mrs Jacob Burrows of Paisley and arrived home on Wednesday.

## HOPEVILLE.

Mrs Snell of Muskoka was here visiting and staying with her son James at the funeral of his wife and arranging about the children. She has now returned to her home.

Mr Joseph Coulter of Dundalk is visiting around here for some time. He is talking of going to Durham or Owen Sound to follow his trade, tailoring.

Messrs D K McArthur and Wm Dezell have been in Toronto on business. Mr John Brown, who was farming on con 15, has left with his family for the N. W.

We understand a dog farm is started here and quite a number of the fancy canine is seen around the place. A man from Beer Street a few days ago suggested that we should change the name of our village to Dogtown.

## Agricultural Topics.

Ottawa, March 27th, 1905.

To the Editor of the Review.

DEAR SIR—

On Tuesday the 21st inst, Professor Dr. Chas E Saunders gave evidence before the Agricultural Committee of the House of Commons and spoke principally upon wheat, milling tests, varieties, etc. His remarks were largely, though by no means altogether, on matters of more particular interest to growers of our Canadian West and I will not attempt to give you any of that part of his talk as it would be of no use to most of your readers.

The speaker said that one large Canadian Milling Co's is now bleaching its first grade flour by electrically generated gas, but that he noticed that another large company is advertising "We use wheat so good that bleaching is not required," and that it remains to be seen which the public will prefer. He does not think that the bleaching process in any way detracts from the value or good qualities of the flour or that it improves the flour in any way save as to color.

Red Fife wheat does not give the whitest flour but does give a paler flour than any of the other strong wheats save White Fife which, except as to the color of skin, is the same wheat as the Red Fife. White Russian or other soft wheats will give whiter flour which only goes to show that the quality of a flour cannot be determined by its color.

Red Fife flour has too white a gluten for good soda biscuits, tea biscuits or pies. The very qualities that make for a good "dough" flour give flour unfitted for a good flaky. Softer wheat gives a better pastry flour.

I asked the professor about "Emmor" concerning which I have noticed letters in recent issues of The Farmers' Advocate from men who claim to have grown profitable crops, and inquired whether it is really the same grain as the "Spells" so largely advertised a few years ago by Toronto and other seedsmen. He says that it is just the same and that it has not proved to be a generally profitable crop for the Ontario farmer to grow, although succeeding comparatively well sometimes on a dry soil and in dry weather. He said that they had grown some good crops of the grain at the Experimental Farm at Brandon. He told of new Varieties of wheat, oats and barley that the Farm has introduced from Europe, Australia, and India, and of experiments for their proper testing and also showed a considerable number of samples of different varieties of wheat and of bread baked therefrom.

On Friday the 24th inst Professor W. T. McCone addressed the Committee. In the absence of the Hon. Mr Greenway, who went away that morning to celebrate his sixty seventh birthday, and who the permanent chairman of the Committee, Mr Peter McKenzie, the level headed member for South Bruce, was honored by being voted to the chair for the time, and very capably fulfilled the duties pertaining to the position.

The professor spoke of the absolute

necessity of spraying in order to grow almost any of our fruits successfully and profitably and devoted considerable time to the fungus diseases which injure the grape and of means of preventing injury therefrom, all of which is of more interest to take it, so farmers and fruit growers of Southern Ontario than to those of Grey and Bruce.

H. H. MILLER.

The Weekly Globe & Canada Farmer.

Walter James Brown, B.S. A., LL.B., for three years Principal of the Canadian Correspondence College and a graduate of the Ontario Agricultural College, Guelph, has been appointed Editor of The Weekly Globe and Canada Farmer of Toronto. The interests of the agriculturalists and homemakers of this country are rapidly assuming commanding importance, and The Weekly Globe and Canada Farmer, with its new corps of editors and assistants, will devote its energies to the solution of the problems affecting the promotion of agricultural industries and the development of Canadian homes. The Review has undertaken arrangements whereby The Weekly Globe and Canada Farmer and Scriber in Canada, United States or Great Britain until Jan. 1st, 1906, for offer has never been made.

## Exchange Echoes.

### Stole \$47.00

Last Friday a young man named Gilbert had the unique experience of hiring to a farmer for six months, stealing \$47 and being arrested, brought before the magistrate, sent up for trial and lodged in jail all in one day. Gilbert hired with Mr Chas. Frost of Sydenham on Friday forenoon and early in the afternoon, while Mr Frost was engaged in conversation with a man outside of the house Gilbert entered the house, went through his money box, clothes and stole the \$47. He then went outside and told Mr Frost that he was going up the road for his satchel and as he did not return Mr Frost became suspicious that all was not right and on examining his clothes found his money gone, and at once set out in pursuit of the hired man, whom he traced to this place. He secured the services of County Constable George McFarlane, who arrested Gilbert in Mrs Ross' store where he was purchasing a suit. He was taken before John McDonald J. P. and sent to Owen Sound for trial and Constable McFarlane and Mr Thos Merriman took him to Owen Sound and had all the stolen money, except 25c which he had spent for tobacco. The prisoner said his name was Joseph Wright and that he had no home, but when Chief McCauley of Owen Sound saw him he at once recognized him as Gilbert, a denizen of "mid town," who served three years in penitentiary for stealing \$500 in Regina and other things for theft, and had only been out of jail a few weeks.—Chatsworth News.

## Consentance Money.

On Wednesday morning of last week Mr R. Trimble received a letter from a gentleman residing in Holland township, the letter being posted at Markdale. The contents of this letter were a surprise to Mr Trimble and were worthy of being made public. They consisted of a dollar bill and a note to the effect that the writer some 48 years ago had purchased half a pound of tobacco, price "ten pence," and which had never been paid for. The note quaintly ended with the following postscript: "Quit tobacco." At the time of this purchase Mr Trimble kept a store about a mile north of this village on the Toronto and Sydenham line.—Flesherton Advance.

PUBLIC TELEPHONE.—There are two things that the farmers of Ontario have been asking the government for pretty persistently for the last year or two. One of these is what is known as Rural Free Delivery of mail matter. During the present session of the House the Postmaster General has expressed his mind pretty definitely on this subject, and he holds out no hope that the system will be introduced in any part of Canada in the immediate future. He has been making investigations into the working of the system in the United States and finds that although the population there is much denser than in Canada that the scheme is a financial failure, and in our case the cost would be so enormous as to place it beyond reach. The other matter as that of public telephones, and there seems to be more hope of an early realization of this convenience. Last week the Postmaster General only moved a resolution inquiring into and report regarding the various telephone systems in operation in Canada and elsewhere and to advise what changes in the present methods they consider advisable, but in the course of his remarks declared himself in favor of the government taking charge of the telephone system and running it in connection with the post office department. If this suggestion is acted upon it will not be many years before every farmer will have the telephone in his house, and will be able to call in a doctor or transact a good deal of other business without having to leave his own house. If the government takes charge of the telephone, every householder will have his own instrument, and the cost will be next thing to nothing. This is what every farmer ought to agitate for until the thing becomes an accomplished fact.—Ex.

HIGH WATER CAUSES DAMAGE.—The water is if anything higher this year than last owing to the continued warm weather and the absence of frost at night. Last spring there was a greater quantity of snow to be melted, but the weather man did it more gradually. Even at that the high water caused great damage to the Hanover Portland Cement Co. property. Expense was not spared to endeavor to avert a similar repetition this year but that was not proved successful. The cement lining that was put in the race has not proven so efficient as it was hoped and expected that it would. Early Tuesday morning it was noticed that the water from the swollen race was pouring through cracks in the cement wall near the power house and tearing up the ground on its way to meet the water on the other side of the

## SATURDAY BARGAINS

It was a corker, our Bargain Days, last two weeks. We had great expectation, but we surprised ourselves and the people too. Many had to leave—couldn't be waited on—but on Saturday we will have better accommodation and better bargains. Everybody is invited. Our visitors are all welcomed our patrons esteemed.

If you are hungry for bargains you shall have them in Ready-made Clothing, Gent's Furnishing, Groceries, Hardware, in fact in everything, and the trade we won we mean to keep and what's more to increase.

We never remember a time when goods of all kinds were so fine, good or cheap. We absolutely refuse to handle inferior goods. If you care a rap about economy, we think the following bargains will interest you—but that's for you to say. Glance over the prices and see.

## DRY GOODS

300 yds FANCY GINGHAMS, were 10c and 12c .....for 8c  
50 yds BLACK DRESS GOODS, were 50c .....for 35c

## PHOTOGRAPHS

To introduce our FINE LARGE PHOTOGRAPHS, we have made arrangements to give

ONE with every dozen Cabinets.

THESE LARGE PHOTOGRAPHS, finished in the latest style, mounted on a beautiful American mount, are worth \$1.50 alone. This is going to advertise our Studio far and wide and hundreds of people will see them. We do not say how long we can continue this offer as it means a lot of extra work and expense.

We know this style of Photograph will please you, as it is real artistic.

## Fred. W. Kelsey.
