A. B. McLELLAN

TO LET.—The rooms above A. McLachlan's store, recently occupied by Dr. Gun and office. To rent on easy terms. Apply to W. H. BEAN, Sec'y A. F. & A. M.

A young man took his best girl to church Sunday evening, and, stopping at the end of the back pews, turned to the usher and said, "I guess we can quit here, as we are not getting any usher, with a subdued smile, "we guess you can, but probably it would be better for all concerned to wait until you get home."

The very simple practice by farmers of putting their names on their road gates is generally done, but of great benefit to people—and they are numerous, whose business requires them to call at many farms in neighborhood not over-familiar to them. The small amount of time required would confer a great blessing and saving of time on many a poor, tired traveller.

In the report of the results of the examination at Queen's University published in the Kingston papers last week we were glad to see that Miss Lizzie Scott had succeeded in passing with credit the examination in Junior Mathematics and that Mr. N. W. Campbell passed in Medieval and English Constitutional history and secured first-class honor in philosophy. These are the first students who have written at the newly opened centre at Durham. We congratulate them in their success and trust they may have many worthy followers whose names shall bring honor to our town.

The Aytou Creamery Company have engaged the services for the season of Mr. Binnie, son of Mr. George Binnie of Glenelg and are congratulating themselves on their good fortune in selecting so competent a young man. Mr. Binnie has had several years experience in the practical work in the management of creameries and has completed two seasons at the Ontario Agricultural College Guelph. He is a brainy ambitious young man and started in this week determined to keep up the reputation of the institution to the high mark it had attained under the old management and if possible to send it suiting a notch or more onward and upward. Under his supervision the building and appliances are being overhauled and renovated and the tool of the engine on Monday morning we hope will usher in the most profitable and satisfactory season that has been. Aytou Advok. The Review joins in good wishes for man and make.

BUY AT HOME—Every mail that comes to this town brings numerous catalogues, and many of them beautifully and artistically illustrated, from the large wholesale and retail stores of the cities. They are received by the townspeople and farmers. Did you ever stop to think of the real purpose of these catalogues? They are merely advertisements calling your attention to things our home merchants have to sell. Do not let outsiders draw your trade away from home as long as you can find what you want at home. Remember your home merchant helps to build your schoolhouses, your churches, helps to maintain your ministers, his business helps to beautify the town; he is present when the town wants waterworks, lights, sidewalks, etc.; he is present in numerous other ways indispensable in our town. Look at the question fairly and you will give him the first chance at least to supply you. The large city stores may be alright—if you think so but what do they do to merit a portion of your trade? Do they pay any county taxes; do they even contribute one cent to the building of the town in any way? Do they come to your assistance if sick or offer you credit if in need? Stick to your home merchant. Heed his advertising for your trade. You will be far ahead. And when a representative of an outside print shop asks the merchant or business man for work he remembers the home printer, and that he is entitled to patronage as you are to that of other residents of the town and tributary country.—Ex.

Your Label.

Our label sheet has been corrected to date and as usual we ask all to examine and see that we give them due credit. In hundreds of changes it is possible that a mistake may be made. Please don't let it run on and speak of it next year. We are to refer again to compel those who are a year or more in arrears and ask them to pay up. Obliging, THE PUBLISHER.

Firemen's Concert

Thursday—to-night—every one should go to the best concert held in town for a long time. The talent secured is a guarantee of excellence. Miss Koenig and Miss King of Mt. Forest, Dr. Brown Holstein, Mr. J. Drysdale, Master Harry Ross, Misses Jean Brown and B. Crawford. Then the McClocklins and H. H. Mockler are to give some of their dramatic representations. Dr. Hutto is in the chair. Reserved seats 35 cts. Other seats 25c. Plan at Darling's Drug Store.

Town Council

Regular meeting was held on Monday night and a large number of accounts were passed.

An application from Mr. A. Cameron for leave to establish a billiard room did not seem to meet with the approval of the council. The cost of the license, \$200.00 and the antipathy of the town to such an establishment was pointed out and no action was decided on in the absence of a petition. The council have very deep sympathy for Mr. Cameron's handicap, a lost arm, and no doubt hope and believe there are other avenues of usefulness before him less open to objection.

Mr. J. P. Telford applied for permission to use certain streets to lay waterpipes from springs behind Mrs. Gun's residence to his own and other points, which was granted.

Brick for sale, or will exchange for wood. Apply to Ayling & Son, at the corner yard, Durham. Terms moderate.

TAKE HOME YOUR TREES—The trees (but not flowers and bulbs) ordered through the Horticultural Society are at Mr. John Huns, (behind the public Library) and should be called for at once.

Rev. Mr. Ryan on Sunday will preach his farewell sermon before leaving for a new field. Mr. Ryan's many friends here will wish for him success in his new sphere while regretting the removal from our citizenship of himself and family. During his incumbency Trinity Church has suffered heavily by deaths and removals, but the light has been kept burning and he leaves the congregation in good hope for the future.

Durham School Report for April

HIGH SCHOOL DEPARTMENT
Form 3—Clara Aljoe, Arthur Weir, John Johnston, Edith Grant, Carman Aljoe and Herb Campbell equated.
Form 2—Oliver Hunter, Keith Newton, Willie Farquharson, Ethel Morrison, Thos Allan.

Sr 1 A—Helen Ireland, Lillian McOrle, Laura Bryon, Jessie Black, Wilbert Knisley.
Intermediate—Isabel Lawson and Myrtle Sparling eq., Sadie MacDonald and Mary Hudson eq.
Jr A—Nellie Flaker, Cecil Towner.
Jr B—Irene McPhee, Willie Watt and Willie Hazen eq.

Card of Thanks.

To the residents of the Township of Glenelg.

LADIES & GENTLEMEN—I hereby return to you my sincere thanks for the kindness and hospitality shown me during the time I was performing my duties as Assessor of the Township of Glenelg for the present year. I am, ladies and gentlemen, Yours very sincerely,
 JOHN A. McDONALD.
 Glenelg, April 29, 1905.

Railway Smash near Varney

The morning train which leaves Palmerston for Durham came to grief on Thursday last about a mile south of Varney. It was a double header mixed train of passenger coach and a heavy load of cars filled with coal and clay for the cement works and other merchandise.

Not far from the locality of the last accident where there is a decided down-grade and a "mean" piece of filling in a swamp, the rails spread under a car of coal and at once there was trouble, for the passenger coach was yanked off the track too and quicker than it takes to write it was landed on its side, the five passengers of course being sent sprawling but escaping serious injury. Conductor Collinson got some bruises on the head, a traveller had his arm dislocated but was able to attend to business and left following morning. The others, more or less shaken up, got off with lighter mishaps and no doubt there was deep gratitude on all sides that there was no fatality.

Wrecking gangs from Palmerston and Stratford were sent for as soon as the wires could be reached at Durham and all available hands locally were set to work to unload coal, remove debris, etc. By good luck there was an engine at Durham and passengers on afternoon and evening trains were put to the small inconvenience of walking past the wreck.

The traffic on our branch is perhaps heavier than on any similar stretch of the main line and would seem to call for the heaviest iron and most secure road-bed possible. Conductor Layelle on his long service has been singularly free from accidents.

Ontario Educational Association.

Last week saw the annual gathering in Toronto of the educationists of the province and very fittingly, as last year it was held in the Provincial University. The daily papers have given fair though not by any means full reports of the work done in the various sections, yet one report can be so impressive as actually to form a part of the gathering, and to breathe the atmosphere of earnest educational effort taken part in by earnest men and women.

Without doubt, one of the burning questions was the inadequacy of the remuneration of teachers. All branches recognize this, and even the trustee section, often thought to be a class interested in keeping down salaries, add their influence to the movement to secure a better recompense to the teacher because it means better and longer service.

The ephemeral nature of the teachers' service was strikingly pointed out by Chancellor Burwash, President of the Association, who counseled the teaching profession with the Methodist ministry. The average length of service in the Methodist ministry was about 30 years, while in the teaching profession it was barely 7 years. The loss of experience this entails is deplorable and the cause is patent to every one who gives it the slightest attention—the lack of social standing and the low salaries paid for the high class of educational work demanded of the profession. The situation seems to demand government interposition and assistance in some way, either by prescribing a minimum salary larger grants, and a well-considered supernumerary scheme or all of these together.

We were more immediately concerned in the trustee section where some very important discussions took place. Mr. Parkinson, Toronto, and Mr. Werner, of Guelph, gave addresses advocating the consolidation of rural schools. The former gave the experience of U. States schools which he had visited, the latter described the one in Canada at Guelph. The conclusions of both gentlemen led them to favor their wider application, and the discussion was almost entirely with them.

The evil of truancy was discussed in all its phases and a motion was unanimously passed asking that the appointment of truant officers be put in the hands of trustees instead of councils.

Another matter receiving great consideration was the advisability of forming County Trustee Associations on the model of the Teachers' Association, every County Board having representation there, and every Association being represented at the Trustee section of the O. E. A. The writer had the honor of introducing the matter last year, and this year gave a paper on the subject. The co-operation of the Inspectors' Section was asked by the Trustee section and it was very freely given.

A notable incident was using the occasion to make a presentation of a very handsome gold watch, chain, etc. to Mr. Wm. Williams of Collingwood, the loving and visible token of affection borne towards him by all of the many students who passed under his hands in nearly 30 years of educational work in Collingwood Institute. Inspectors Campbell and Burgess of Owen Sound were among the chief movers, but many little addresses and a feeling reply showed the depth of the sentiment existing between the ex-pupils and the former able and well-loved teacher. The watch was secured through Jeweller Gordon of this town.

The Review and Daily Star to new subscribers to end of year for only \$1.00. Easily remitted. Do it now.

The Lord's Day.

On Sunday Rev. Mr. Farquharson discussed the question of the Lord's Day from the text, "How much then is man better than a sheep?" After showing that man's superiority to the sheep demanded a rest suited to his exalted nature he proceeded to urge the need of an earnest and enlightened public sentiment as the chief bulwark, from the human side, of the rights of the toiler. He vigorously scored the idle sentiment that will talk on the streets but give no real substantial support to any movement to help. "There are none of you" he said, "who look at your fellow going out on Sunday with their every day apparel doomed to a bondage more galling than that made by the pit into which the sheep fell, but feel a touch of pity in your hearts. Necessary as some of the work may be, you cannot but pity the men who are deprived of the sanctuaries of home and the privilege of the sanctuary to attend to the ever devouring furnace of the ever turning wheels. Yet how much do you sympathize with the want of such of your own pleasure as you forego to give those depending on you the day of rest? How many do the demands of society in city and country keep on duty to minister to the wants of a company that are entertained on the Lord's Day? How many indolently put off consultations with the physician till the Lord's Day and then find it convenient to call in on the way to church at the very time when the physician, who holds himself in readiness to attend to you by day or by night, needs refreshing for his own spirit in the services of the sanctuary? How many have enough of real interest to turn out when there is a meeting of the Lord's Day Alliance and its representative comes all the way to present the subject for your consideration? How many do you press on you, do not suppose your words will ever influence others to turn from a course which you yourself practise while you condemn it. If you have not interest enough in the subject to come out and help to give weight to the movement by your presence, do not be surprised if the powers that would invade our Sabbath rights count you on their side on the principle that those not against us are for us. If at an election contest a candidate came to meet after meeting to find but a few of his supporters would you be surprised if he resigned in utter disgust. Yet there are those who in this great subject do all they can to weaken the hands of their leaders who would cry out in holy horror if these leaders follow their example and did nothing. "These things ought not to be." †

The morning train which leaves Palmerston for Durham came to grief on Thursday last about a mile south of Varney. It was a double header mixed train of passenger coach and a heavy load of cars filled with coal and clay for the cement works and other merchandise. Not far from the locality of the last accident where there is a decided down-grade and a "mean" piece of filling in a swamp, the rails spread under a car of coal and at once there was trouble, for the passenger coach was yanked off the track too and quicker than it takes to write it was landed on its side, the five passengers of course being sent sprawling but escaping serious injury.
