Do You Want? A simple and accurate way of finding out the required number of rolls of Wall Paper for a room is as follows: "Multiply the length around

> deducting 20 for each opening and divide the remainder by 30. This will give you the amount in single rolls." Having done this, come and see our large stock of new and elegant designs in all the latest colorings. Our new

> stock is very much admired

Notes From Macdonald Institute. By w. J. Blakeston

One of the greatest object lessons in Ontario, or in Canada for that matter. along educational lines, is to be seen near the city of Guelph, and that object lesson is the magnificent group of buildings situated about a nule south of the city, comprising the Ontario Agricultural College, the MacDonald Institute, the MacDonald Hall and the Consolidated

It is doubtful if there is another country in the world possessing such a com-bination of halls of learning as is to be found in that imposing pile. It makes one's heart swell with pardonat le pride as be views those massive structures and realizes the advantages and privileges which they afford to our Canadian young people, for right here one may obtain an education extending from elementary lessons in nature study to the scholarly attainments of the University graduate. In fact it is affirmed by some of the leading educationists that a complete course in the foregoing institutions is just as elevating, refining, thorough and comprehensive as that obtained in any University, and far more practical hesides. It deserves to be called the University of Canada, as its work and

On the north side of the O. A. C. campus is an area of alout 12 acres rising with a gentle slope from the Dundas or Brock road. On the summit of this eminence are situated two unique, impressive and stately edifices—the Mac-donald Institute and Macdonald Hall.

As is well known, these two buildings were erected at a cost of \$175,000 by Sir William Macdonald, a shrewd, obseryant old bachelor. Whether Sir William has suffered from dyspepsia through eating indigestible pastry, soggy bread, leathery beef or fried eggs I am not prepared to say, but this Institute which he has so generously given to the public is there will be sold with the approbation certainly intended to give girls a thorough and scientific training in domestic this Court at Owen Sound, by James science. It is a deplorable fact that very many of our Canadian girls are very indifferent house-keepers, and strange to say, some feel proud to be able to say that they cannot sweep, cook or sew. Such girls are to be pitied rather than reproyed, as the blame doesn't rest wholly upon their shoulders. It would be well for some mothers to copy our late beloved queen in the matter of training children to do housework. However to remedy this tack of training in domestic science, is one of the objects of this Institute. Here girls are taught the science and art of housekeeping, including dress making, millinery, beauti-tying the home and a hundred and one things which are a thousand times more needed than the ability to speak many languages or play a difficult piece of said Master. music. We do not despise these latter accomplishments, but they should be neglected rather than the others.

The Institute also provides a course in nature study for school teachers. This important and highly educative and useful subject has been sadly neglected Black Sateen Underskirts 1.00 each | in the schools of Ontario at least. To Waists 85c an 1.00 each | arouse enthusiasm and provide efficient

Pure Honey and Fresh Groceries always on hand each student-teacher receives a grant of Sound, Plaintiff's Solicitors, Owen \$25 and five cents a mile from Sir Wm. Sound, Macdonald. The term lasts a little over eleven weeks. The following are so me of the subjects taken up:

Ornithology-Birds, their names, uses and habits: Entomology—Insects, their names, uses and habits; Botany—Plant life, identification of plants, diseases of plants, &c.; Climatology-Including cause of rain, cyclones, &c.; Astronomy; Art-Including coloring and sketching; Geology; Manual Training; School Gar- | the following route for 1905 : Monday

The principal object aimed at is to Robt Isaae's for night. It is said that the great majority of night. people go through the world with one eye shut. The book of nature, one of grandest and yet cheapest books in the universe, is open before us all the time. trying here to get the other eye open, | night. 150 Acres Bentinck North of Allan Park | but it has been closed so long with Offered cheap for quick sale.

Before I close I would like to sav to the boys and girls of Dundalk public school, of any other school. that I for night. would be pleased to give them any information I can about any insects, plants or birds they may have difficulty in identifying. Send the specimen in case of insects and flowers and full des-cription for birds.—Dundalk Herald

Women Want Franchise.

A large deputation from the Women's Christian Temperance Union waited upon the Government the other day and asked for the extension of the municipal franchise to married women on an equal basis with spinsters and widows.

This, it was urged, would be a consider-This, it was urged, would be a considerable step toward general suffrage for women. Speaker St. John introduced the deputation, whose case was presented by Mrs. McKee, Barrie. President of the Ontario W. C. T. U.; Mrs. Rutherford, Toronto, Pres. of the Dominion W. C. T. U.; Mrs Thornley, Mrs S. R. Wright and Miss Wiggins, all officers in the Ontario Union: Dr Stowe Gullen, Rev. Dr Courtice and Rev Chancellor Burwash. Mayor Urqubart also spoke briefly, saying the Toronto City Council had by resolution approved of the idea, and Hon. Adam Beck said the London Council had done likewise.

Premier Whitney, in reply, spoke warmly of woman's influence and work, The Government, he said, would be prepared to give proper, earnest and serious attention to the subject. They realized the great influence of woman, and if they fail to aid woman in exercising that influence they would be recreant to their duty.

FATAL CARELESSNESS,—It is amazing how many accidents occur from men getting their feet caught in frogs. Wm McDonald, a brakesman whose home is in Wingham, was killed at Park Head last week in this way. "He was not able to extricate it before the train passed over him." Seems to us the railways have a provision to have these deadly frogs plugged and somebody has been Groceries, Dry Goods, Boots & Shoes, Crockery, &c.
