Prof, | Imperial strategy, and that the work Square. is considered liable to develop an international situation. Jugrah, of which the division was seen, is a town of the State of Selanger, which is a British protectorate, and is not far distant from the point where a Russian division was sighted as long ago as April 27. It is not yet known whether the Russian warships are within territorial waters or whether they are obtaining supplies from the neighboring land. But a brief telegram on this subject from Singapore is taken to indicate that for a week the Russians have been practically enjoying the hospitality of the waters of the Japanese ally in the same manner that Admiral Rojestvensky's ships have utilized

French waters in Cochin-China. A cable despatch received in London this afternoon says that two of Nebogatoff's transports have put into Sabong, on the north coast of the Island of Samatra, with their bows stove in, evidently having been in collision. Their names are given as the Marie-Chen and the Permnie Hessenmuller.

RUSSIA'S NEW NAVIES.

Has Bought Argentina and Chilian Warships.

A London cable: The St. Petersburg correspondent of the Times says that rumors have been current for several days that Messrs. Schwab and Flint effected the sale of the Argentine and Chilian navies to the Russians. The Ministry of Marine denies the rumors, but they are gathering force. It is declared that several transports are leaving Cronstadt with sailors to man the purchases.

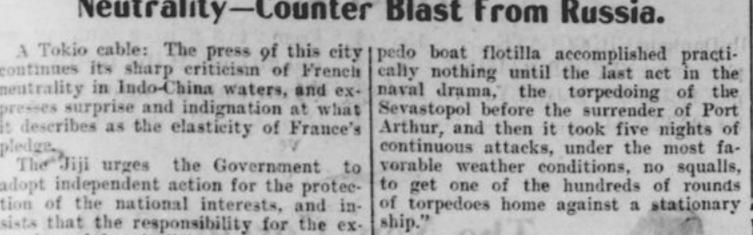

RUSSIA HAS ADVANTAGE. Rosy View Taken of Rojestvensky's

Prospects. A St. Petersburg cable despatch says: Captain von Essen, the hero of Port Arthur, and one of the ablest of the Russian naval officers, discussing with the Associated Press the coming naval battle in the Far East, took a rosy view of Rojestvensky's prospects, and asserted that he had a great advantage in many respects over the original Port Arthur squadron. Capt, von Essen declared that the engagement between Togo and Rojestvensky was bound to be at long range. He smiled at the idea that the Japanese might be able to disorganize or damage the Russian squadron by torpedo attacks, pointing out the impotency of such tactics after the first

surprise at Port Arthur. He said: "We know Togo's ships were severely pounded in the battle of Aug. 10. Some of the smaller guns on the Japanese ships actually went to pieces during the engagement. After the battle we found a large piece of the muzzle of one of the Japanese 13centimetre guns on board the Sevastopol. The Japanese, however, were able to renew their secondary armament, hav-ing a plant capable of building such

battle will be decided by the 12-inch guns," continued the captain. "But may not Togo elect to conduct a harassing warfare with his torpedo boats in the hope of sinking one of the

Russian ships?" was asked. "One of the lessons of the present war." replied Capt. von Essen, "is the ability of the warships to defend themselves against torpedo attacks during naval engagements. After the opening surprises the Japanese tor-

NAN PATTERSON'S TRIAL.

Twice the Jury Has Disagreed and Once There Was A Mis-trial Owing to a Juror's Collapse.

The Jury Stood 7 to 5 for Acquittal and it is Not Likely She Will be Tried Again.

New York, May 1.-Dramatic in the extreme were the closing scenes, early to-day, of the Nan Patterson rial before Recorder Goff on the charge of having murdered Frank T. Young, the well-known turf man and bookmaker, in a cab last June. When the foreman had finally assured the court that there was no possibility of reaching an agreement, the prisoner was in a dead faint. At 2,28 o'clock the recorder declared the jury discharged, and ordered Miss Patterson returned to the Tombs prison. She was carried out in a chair by attendants, and two doctors had a hard time restoring consciousness. When told of the result she smiled faintly. In the streets below thousands of persons, held back by mounted police, cheered the news, but were somewhat disappointed. They evidently favored the young woman and had expected her acquittal.

Various rumors gained currency as to dressed to Miss Patterson, and left how the jury stood. Information receiv- them at the door without disturbing eithed by the Associated Press is that the er of the women. About that time poll was 7 to 5 in favor of acquittal. work to certainty. We furnish you with a

Dear Sir,—I told you when I received my Incubator and Brooder that I would let you know what success I had with my first hatch. When the Incubator arrived I went and got eggs to put in it, and as I was anxious to get it started I took all the eggs I could from the party, and he had only enough so I could not pick them over. There were some small ones and some long and narrow, and as I afterwards found out some long and narrow, and as I afterwards found out he was keeping twenty-seven hens with one cockrel, so they did not look very good on the start. I put fifty-six eggs into the Incubator and followed the instructions closely, and I got fifty chicks, two having died in the shell, which I think is first-class. They are all strong and lively. I am sorry I did not order the 100 size instead of the 50. I have it now filled with sixty white Wyandott eggs I wish you could

tell me where I could get a good poultry paper, something that would suit a beginner. Yours truly, E. H. BARAGER, P.S.—I would rather attend to an Incubator than

one hen now. There is some satisfaction in knowing that if you look after them you will get chicks. Valens, Ont., April 15th, 1905. The Manson Campbell Co., Chatham, Ont. Dear Sir .- The incubator that we purchased from

you on the 18th Jan. last is certainly a dandy. Out of a No. 2 incubator with 83 fertile eggs I got 76 chickens, and they are all strong and healthy. I used 1½ gallons of oil. I think there is no better incubator in the world.

We have similar letters from every State in the United States, and every Province in the Dominion. Every Incubator we put out is the best kind of advertising we do, for it sells many others for us by its never-

> The Chatham is built on honor, and its construction and workmanship are as perfect as an experience of fifty years and ample capital can make them. The Chatham was the first Incubator made that was good enough to admit of its makers taking chances that it would make its cost for the poultryman before it was paid for.

> Don't imagine for a moment that it is any longer possible to make big poultry profits by setting hens. As hatchers hens are as out of date as stone hatchets. If these erratic, uncertain birds are kept busy egg-laying instead of wasting their time setting, the poultryman will pocket a good many extra dollars in profit.

If you want to get full particulars on the subject and learn all the details of successful Incubator hatching and profitable poultry raising send to-day for our superbly printed book, "How to Make Money Out of Chicks." It's FREE. Send for it now.
