## TOWN TOPICS

Brick for sale, or will exchange for wood. Apply to Ayling & Son, at the millyard, Durham.

The Review and Daily Star to new subscribers to end of year for only \$1.00. Easily remitted. Do it now.

If you want to purchase a house and lot in Durham, see A. H. Jackson. Price reasonable and good terms.

The percentage of males employed as teachers in Ontario public schools has dropped from 58 in 1897 to 24 in 1905.

J. L. Flarity is making to order a fine line of ladies' up-to-date coats, in fancy cravettes. Call and see them. You will be delighted.

NON-SCUTTED.—At the Division court last week Mrs Skelton sued the Bell Estate for wages, but, having received a legacy, she was non-suit.

Mt. Forest defeated Fergus at home in the first exhibition lacrosse match of the season on Victoria Day, the score standing 6-4 in favor of the Lornes.

The fence around the race-track at the exhibition grounds is being rebuilt about 400 feet having been carried away by the river in the recent spring floods.

To LET.—The rooms above A McLachlan's store, recently occupied by Dr Gun as office. To rent on easy terms. Apply to

W H BEAN, Sec'y A. F. & A. M.

MONTHLY MEETINGS.—School Board meets to-night, Thursday; Public Library Board in Library Rooms on Friday, Town Council on Monday next. All at 8 p. m. and don't you forget it.

Week day services preparatory to the Communion on Sabbath following will be held in the Presbyterian Church on Friday at 2:30 and 8 p. m. Rev Mr Matheson. Priceville will preach at both.

A woman in the States won a prize by giving the best answer to the conundrum "Why is a newspaper like a woman?" Her answer was, "Because every man should have one of his own and not run after his neighbor's."

STARTED AGAIN.—After a two weeks' cessation of work for a spring clean up the Farmers' Manufacturing and Supply Co., started the wheels of the Separator works on Monday. The full staff is not taken on as yet but it is hoped that all will be before long.

The "24th" was spent quietly in Durham, every piece of horse flesh being in requisition. There was no public demonstration of any kind, and fishing and small pleasures were in fashion. Several Union Jacks added patriotic color to the occasion.

The Cement Works are this summer turning out more cement than ever before, and of a quality not inferior to the excellent product of the past. Orders for concrete and barrels ahead are being filled in the office and the price ranging higher than last year, a record season is sure to be made.

SICK PEOPLE.—We are pleased to hear that Miss Lottie Benton is recovering, though slowly, from a severe illness. Mr Arthur Allan at Fergus is also gaining ground, and the wheels of the great sufferer for the last few weeks but is getting better. We regret we cannot speak so hopefully of Mr Ben Mail who is not gaining as his friends could wish.

A WATER TEST.—If you want to test the purity of your well water, here is a simple recipe for doing so: Fill a quart bottle nearly full of water, and dissolve in it half a tea-spoonful of loaf or granulated sugar. Cork the bottle and keep it in a warm place for two days. If the water becomes cloudy or milky within forty-eight hours, it is unfit for domestic use.

BOUND TO HAVE IT.—Our North-ermost correspondent sends us the following item: "A delegation consisting of Messrs. John H. Sme and George Lethian, farmers, and Mr Orchard, a sawmiller, leave on Tuesday morning for Toronto, where it is expected they will be met by H. H. Miller, M. P. and Dr Jamieson M. P. Their purpose is to interview the C. P. R. officials with a view to having that railway run its new line through the thriving and progressive village of Dromore. It is surrounded by a rich farming community where many thousand dollars' worth of stock, grain, timber and general merchandise is annually shipped to outside points. Besides the problem of construction would be comparatively easy through a gently rolling country."

The "Presbyterian" in its notes of the recent meeting of the Synod of Toronto and Kingston, has the following reference to a local man: "The report on Church Life and Work was introduced by Rev. Wm Farquharson in one of the best speeches given during the meeting. He dealt with the subjects of Sabbath desecration, the inroad of intemperance and church attendance. He pointed out the difficulty in drawing the line between necessary and unnecessary labor and recreation and the great need of guarding carefully the sanctity of the day. He feared that in spite of all the efforts for legal restriction of the liquor traffic the habit of intemperance was gaining ground, and said that whatever be the restrictions the fight is still on and the battle is a moral battle. Dealing with the alienation of the intellectual, he discouraged the open immoral from the Church. Mr Farquharson emphasized the need of seeking to suit the one great message to all conditions and needs."

We are informed that over \$22,000 was paid out for cattle in Durham on Tuesday.

Be sure and attend Miss Dick's Midsummer Millinery Opening this Thursday and Friday.

Twenty five cents, all in coppers, is all that a burglar received for his trouble of breaking into an Owen Sound business place.

Chatsworth to Southampton by C. P. R. may yet be realized. A. C. P. R. "promoter" has been investigating the possibilities of a cross country branch.

THE EXCURSION.—This is the annual outing given by the Farmer's Institute which promises to be successful as ever. For rates &c, see the ad on page 8.

Owing to the absence of Rev. Mr. Colling while at Conference, there will be no morning service in the Methodist church next Sunday while Inspector Campbell will occupy the pulpit in the evening.

George Muxlow, a 13 year old boy of Blantyre, St. Vincent Tp., was the victim of one of the first drowning accidents of the season. He got in beyond his depth, being unable to swim, and sank for the last time before aid could be secured.

STOLEN NOTES FOUND.—Last October Hartman's Bank Clarksburg, was burglarized, but an alarm frightened the thieves, who made off with what they thought contained only notes, and of no value to them. The notes were found secluded place on the Big Head River last week but the box was missing. This discovery may lead to detection of the robbers.

THE LATE THOS. GORDON.—Owen Sound lost a notable citizen last week by death. For about 20 years he was town clerk and had held many civic offices and positions of trust. He was also Inspector of Schools for West Grey until 1902, when he retired and was succeeded by Mr. H. H. Burgess. The public schools were closed the day of his funeral that the teachers might attend his funeral.

Word has been received from Dr John Cochran from Liverpool. He has just returned from a three months' trip in a River Plate Steamer to Buenos Ayres on which he was employed as surgeon and was about to start on another round to Valparaiso. The doctor's many friends will be glad to hear of his welfare and of the opportunity given him to get a sight of the world. We wish him success.

A MOVE IN HEREFORDS.—Last week Mayor Hunter shipped six of his famous Hereford bulls to Maple Creek, Ontario, and three more to London, Ont. Today, Monday he is shipping six heifers to Burlington. Mr Hunter is we think the largest breeder of Herefords in Ontario and we congratulate him on the success he has made of it. Fifteen out of most herds would thin them out considerably, but the Mayor has over 100 more of the same yet.

COURT OF REVISION.—This body had before it on Tuesday evening an appeal from the Cement Co., for a reduction of their assessment. Assessor Elvidge had it at \$22,000. Mr Farr, Mr Ehrhardt and Mr McKechnie were present to support the appeal but the court, while willing to have the appearance of burdening any industry, thought a million dollar plant should not consider an assessment of a quarter of its value excessive and sustained the Assessor. There may be an appeal. Mr John Kinnee also complained but no change was made.

THE PARKER SALE.—Was reasonably well attended though the afternoon threatened rain, which came heavily about the close. Auctioneer Clark made the most of the articles that were left from private sale, and in cases low prices prevailed. A good buy for about \$14.99, Phaeton for \$7.25. A large number of books and pictures were disposed of at better than usual sale prices. The piano, Nordheimer's best make, was sold for \$325. Mr J. G. Gun, not much more than half its value. The fine house and surrounding were greatly admired by the visitors and opinion is general that the Presbyterian Church has made a very wise move in purchasing the property for a manse.

WATCH THE BABIES.—The child kidnapping and murder case in Toronto which has shocked the people of Ontario this week should lead to the exercise of better care on the part of those who are entrusted with the charge of children. It is to be deplored that in any community there should exist a danger to young children of falling into the hands of parties who are criminally inclined, and liable to do them injury; but that this is true cannot be denied; and that a child such as Josephine Carr is described to be should turn out to be so monstrous an offender, might well raise the question who is to be trusted? The points we wish to emphasize at present is the danger attendant upon leaving children in carriages and go carts upon the streets while shopping is being done. Here, as in Toronto, the practise is all too common and the babies are exposed to more than the dangers of being kidnapped when thus left alone. Runaways, high winds and other common occurrence and phenomenon, are fraught with danger to the child, and we doubt not but one general result of the tragedy in Toronto will be an awakening to these dangers and a greater care exercised by mothers over their little ones.—Ed.

DIED.—GREGG.—In Saginaw, Michigan, on Monday, May 29, Mrs. Margaret Gregg, [The funeral will leave the residence of her brother-in-law, Wm. Calder, Friday, at 1:30 p.m. for the Durham Cemetery]

## Women's Institute.

The S. Grey series of W. I. are over for 1905. The attendance has been fair-weather which kept quite a number from attending. The total attendance Dept. were Miss Blanche Maddock and Miss Bella Millar, both of Guelph.

The members of the Institute seem very much alive to the importance of gaining as much information as possible from the delegates and came primed with eager intelligent questions. This interested part of the audience greatly assisted the speakers in making their addresses practical and to the point.

At Holstein, Miss Millar gave an address on Domestic Education touching on the various methods of instruction at the present day. Domestic Science Education was touched upon and the great benefits of the Women's Institute were especially emphasized. Miss Maddock gave a short address on Food Elements, describing in few words the work of digestion and the necessity of eating simple foods and the necessity of the subject ventilation, emphasizing the necessity of pure air and sunlight in order to build up the constitution of the members of the family.

At Dromore both afternoon and evening meetings were held. In the afternoon Miss Millar gave an interesting demonstration on Emergencies and Home Nursing, and Miss Maddock dealt with the subject of Fruits and Vegetables. She also spoke on Bacteria and ventilation, showing the great necessity of pure air in the sleeping room as well as in the living room and pointing out that it had been proved that a room 15 ft x 20 ft would only contain enough pure air for one individual for the space of one hour.

In the evening Miss Millar spoke on Women's Institutes, showing the purpose of this worthy organization, the benefits derived from attending monthly meetings and the best methods of conducting and making the meetings interesting.

After a patriotic song, "Three Jolly Britons" by Mr Wm Ramage, Miss Maddock gave an interesting talk on the St. Louis Exposition, but her main address was a pleasant and profitable talk to the boys and girls. She pointed out the responsibility that each of us have in this life, that each were placed in the world for a purpose and unless we do our part the world will be poorer for it.

Mrs John Renton, president of this branch, presided over both afternoon and evening meetings in a very proficient manner. Miss Watt and Mr Ramage gave a very pleasing quett, and Mr. W. Isaac sang "Farewell Blue Bell" in his usual good style. "Past 12 o'clock" was rendered by Miss Isaac and was heartily enjoyed. After a vote of thanks to all who assisted in the program and also to our worthy president, God save the King brought to a close a most successful meeting.

Friday afternoon a meeting was held in the Town Hall, Durham. The Annual meeting commenced at 1:30 at which the following officers were elected: Pres.—Mrs Thos McGirr, Durham. Vice Pres.—Mrs David McCrie, Durham. Secy.—Miss Jean Brown, Durham. Directors—Mrs Chas. McArthur, Durham, Mrs Chas. Gray Sr Varney, Mrs Thos. McComb, Bunessan, Mr David Hamilton, Durham.

At the close of the Business meeting Miss Millar gave an address on the "Farm end of the Dairy" and Miss Maddock the value of fruits and vegetables and the necessity of ventilation and good sanitation.

The only place of meeting where an Institute was not organized was Hanover. The meeting for Hanover fell on Saturday, a busy day, as ladies from the country either could not get into town, or were forced to hurry home without attending the meeting and the ladies in town evidently thought the meeting was not for them, as only one was present and she was not sure whether she had a right to attend or not.

In many sections the idea prevails that the Women's Institute is for country women only, which is indeed a great mistake as the Delegates sent by Supt. Putman are using their best efforts to unite the interests of women from both town and country in this great organization which was conceived for the express purpose of interesting and assisting women of all classes and communities in the up-building and leading of the Home.

The last meeting of the Series was held to-day, Monday at Elmwood, at which Miss Maddock gave an interesting talk and "demonstration on Dress-making," and Miss Millar gave a splendid address on "Home Nursing" with demonstration in bandaging.

Mrs Jas. Watt, Hampden was appointed director for Hanover.

The names of officers and directors for Holstein and Elmwood branches will be published in a later issue.—Com

COURT DURHAM No. 111.—The members of Court Durham No. 111 will attend Divine Service in the Baptist Church at the hour of 11 o'clock on Sunday, June 11th. Members are requested to meet at Calder's Hall at 10:30. A free will offering in aid of the Foresters' Orphan Home will be taken at the Hall.

W. M. JOHNSTON, JR., Sec'y.
