ROJESTVENSKY TO GIVE BATTLE TO ADMIRAL TOGO

News That the Two Fleets Have Met May be Received Any Day.

Vladivostock Will Not be a Repetition of Port Arthur.

Russians May Force Togo's Hand by Bombarding Some Jap City.

............ St. Petersburg, May 2-, 1.15 p.m.-Admiral Avellan, head of the Russian Admiralty, this afternoon confirms the Associated Press despatches saying Vice-Admiral Rojestvensky is steaming north to give battle to Admiral Togo. He considers it possible that news to the effect that the two fleets have met may be received any day. Admiral Avellan reaffims the official denial of the reports that Rojestvensky has broken down and asked to be relieved. Avellan says Rojestvensky sent detailed reports of the condition of his own health and of the health of the crews of his ships. The constant tension and hard work of the past months have been a great strain on the Admiral's health. ******************
