A LAMENTED DEATH.—Our Hopeville correspondent does justice to the memory of the late John S. Hardy who received injuries in an accident near Ceylon on Wednesday last which resulted in his death. We extend our sympathy to the mourners, so tragically and painfully bereaved. Later—Our Boothville correspondent also makes feeling reference to his death.

GETTING READY.—The big committee in charge of the 1st of July sports meet on Friday evening to make final arrangements. MCGILL RESULTS, CORRECTION.—The friends of Mr A. W. Hunter will be pleased to know that he has been successful in his medical work, having secured aggregate honors in the 3rd year; subjects, standing third in the honor list. Owing to an error on the part of the faculty, Mr Hunter's name appeared in the papers as failed in Obstetrics but on investigation the mistake was observed and the above correction made. Congratulations again to our young townsman who has "honored" it all the way through.

LOST THE FIRST.—Durham's newly-organized Baseball Club played its first exhibition match last Friday in Harrison, and did not fare at all badly. Baseball has been Harrison's chief sport for years, and they have a strong team yet they came out only 3 runs ahead, the score being 6-3; If the full nine innings had been played the Durhams are convinced they would have overcome this lead. Wes. Theobald, now of Mt. Forest, was in the box for the visitors, and pitched a fine game. We look forward to some home games in the near future, especially since la. crosse appears to be out this season.

Niagara Camp.

After a very pleasant run by way of Guelph, Hamilton, St Kitts and the Falls, we arrived here safely at 4.45 p. m. ahead of the Co. from O. S. While on the way we were treated to the sight of a large steamer passing down the canal, not much in itself but interesting to us land lubbers or backwoodsmen. The weather was fine all the way down to near St. Catharines when signs of wet weather were prominent. On looking out of the car window a white, pointed, funnel shaped cloud or water-spout was seen pointing to the earth, an occurrence said to be quite common in this peninsula between the two Lakes.

Some of the 7th were met at Hamilton who exchanged friendly salutations. We had ready service at the siding where we stopped, no long wait being necessary. After a hearty handshaking and renewing old acquaintances, we settled down for the uneventful night. Wednesday morning had a muster roll call where every man of the Regt. (and horse) had to answer to his name. There was some amusement caused by the fact that some of the boys of No. 2 Co. did not know their own names, such is the apparent transforming influence of one night's soldier life in Camp. It transpired that it was the title which confused, some having received promotion without their knowledge. The first day was spent in drilling without arms. Yesterday, Thursday, rifle movements were practised in forenoon, and scouting and outpost duty which consisted of a great deal of lying down and snoring on the enemy's position, a great deal easier than the first. To-day it shows signs

PAY YOUR DOG-TAX.—All persons owning or harbouring dogs or bitches in town must pay a tax on the same to Chief Carson, Durham, at once. If not paid before the first of July the acct will be placed in the hands of the Police Magistrate for collection. June 22, 1905. BY ORDER.

County council is in session this week at Owen Sound.

"Mr Will McLeod proved himself to be a comic singer of the first rank." —Port Elgin Times—appearing in the rink, July 1.

"Then comes the Tug of War." On the Agricultural Show Grounds, July 1. The Highlanders to the East are organizing, and the West will no doubt look to their laurels.

PRICEVILLE ON DECK.—We have received a copy of the Annual Prize List of Artemesia Agricultural Society. The show this year will be held on Oct 5 and 6. President: Donald McMillan Secy.-Treas: N. McKinnon.

GREAT HEAT.—For about a week now the temperature has been the warmest of the season, reaching up in the 80's. Vegetation is taking big strides, and hay should be an immense crop except possibly on some low lands.

"Will McLeod's character songs were very catchy, and he is a whole entertainment in himself." —Tribune, Winnipeg, Manitoba.—Promises to be one of the taking features of the big 1st of July concert in rink. Don't fail to hear him.

The pipers and drummers of the 7th London Fusiliers, will be on hand at the Ben Nevis Camp Demonstration on July 1. Everyone admired the pipes in concert last year, and gratification is again in store for lovers of the "martial strain."

"The comical part of the programme was ably supplied by Mr Will McLeod, whose every number brought forth a roar of laughter and a hearty encore."

—The Huron Expositor—Come and hear him at the Sons of Scotland concert in the rink on July 1.

STORES CLOSED.—Saturday July 1st the stores are to be closed, and allow man and maid the full swing of a notable and attractive day. The Cadets arrive at 10.30 and everyone wants to see them detain. Country purchasers should arrange to have shopping done on Friday, June 30, and stores will keep open that night.

Annual Meeting.

The annual meeting of South Grey Farmers' Institute was held in the Town Hall here on Wednesday afternoon last. Pres. W. J. Young occupied the chair and opened the meeting by a brief address upon the work of the year. The usual routine business of reading minutes and auditor's report etc, was transacted. The cash receipts of the year were \$658.00 expenditures \$501.00 and the balance on hand \$157.00. There were ten meetings held during the year, with an aggregate attendance of 1099. Thirty seven addresses were given upon agricultural or kindred questions.

Meetings for the coming season are to be held in Durham, Hanover, Eltonwood, Avton, Holstein and Dromore. The meeting in Durham will be two days, the second fair to be held on the second day. Officers elected for the ensuing year were W. J. Young, Pres., Robt. Morice Vice Pres., George Binnie Sec. Treas., and Directors John Picken, Wm. Hastie, H. H. Miller M. P., Wal. Buchan, Thos. Gaid, R. Barber, Wm. Allan, D. Hamilton, Wm. Smith, D. Edge, A. S. Hunter, and Wm. Irwin, Auditors, G. Ramage and A. Davidson. Prof. J. W. Reynolds of the O. A. C. Guelph, gave an address upon climate conditions affecting agriculture. The three requisites in the soil are moisture, heat and air we cannot control the moisture in the atmosphere, but we can to a considerable extent control it in the soil. The chief object of autumn cultivation should be to put the soil in such a condition as to take in as much water as possible, and retain as much as possible. The soil should be loosened as deep as possible in the fall, as loose soil will take in and hold much more water than will the compact soil. On clay loam the difference would be 40 tons per acre. In spring shallow cultivation is best to prepare a seed bed, mellow, moist and warm, the loose surface soil acting as a blanket to keep the moisture from below from evaporating into the atmosphere, after cultivation or root or corn-law should be continued as late in the season as possible, the surface soil stirred off especially after rain, to hold the moisture, and allow the entrance of heat and air.—Com.
