VOL. XXVII. NO. 334

DURHAM, THURSDAY, AUGUST 24, 1905

CHAS RAMAGE, PRINTER AND PUBLISHER.

Pickling Time is Here

And none but the very best vinegar is good enough. We have a large supply of the VERY BEST Vinegars that money can buy. Our price is just the same as the price of ordinary vinegar. Don't be put off with inferior Vinegar. Get the best. It pays.

Best White Wine and Cider Vinegars, 40c a gallon

SPICES

We have just opened out new, fresh spices of all kinds for pickling, &c. PURITY and STRENGTH are their two great recommendations.

Dry Goods

We have been very busy checking out Fall Goods. We require a great deal of extra room so summer goods must be cleared out. Here are a few inviting prices:

- Cambric and Muslin Embroideries, reg. 15c to 18c for 10c yd
- Muslins and Gingham, reg. 15c and 18c..... for 10c
- Art Muslins..... 6c to 25c yd

In fact all lines of SUMMER GOODS at CUT PRICES.

We Want your Butter and Eggs

Prices for Produce are very high and the demand for it is strong. Within the next two weeks we want 150 boxes of Butter and 2000 dozen Eggs. We will pay the highest market price in either Cash or Trade.

James Ireland.

THE CASH STORE — H. H. Mockler

Highest Prices paid for Butter and Eggs.

H. H. MOCKLER.

TOWN TOPICS

FOR SALE—At the Hedges, Buggy, Cutter and other articles. Apply to Mrs L Somerville, on the premises.

Hon. Chas. S. Hyman, Minister of Public Works, visited O. Sound on Saturday.

At 2 P. M.—The sale of the Matthew's property in upper Town takes place at 2 P. M. on Sept. 12 next.

D. McDougall has again been appointed Collector for Bentinck Township. He has performed the duties for about a quarter of a century.

Owen Sound's great Summer Resort, Kings' Royal Park and Hotel, also the steamer Canada, are to be sold by Public Auction. This is a hard blow to the County Town.

The senior C. L. A. championship and with it, the Globe shield, was virtually won by St. Catherine's lacrosse team, when they defeated the Torontos easily last Saturday.

Messrs Calder and Livingston of the Fire and Light com. of council were, in company with chief Torry, inspecting the tanks the other day. They found them in reasonable shape we believe.

Coming every Day.—Shipments of binder twine are being received every day, and we intend to keep right on till every farmer is supplied. Come to the Hardware emporium for your twine WM. BLACK.

FOR SALE—A three-year-old horse sound wind and limb, bred of "Clear Grit." Will be sold on easy terms. Also a "Stony River" two year-old mare colt, something special. Apply to A. B. McLELLAN, Agent, Durham.

GREATLY IMPROVED.—We omitted last week to mention the great improvement neighbor Torry has made on his residence. A fine verandah at front and side has made a complete change and with a judicious coating of paint to the house, there's no knowing it. Mr. R. Williamson did the work in good style.

ONE WEEK EARLIER FOR THE WEST.—On account of the earlier demand for farm laborers it has been decided to run excursion Friday Aug. 25th. Same terms and conditions as advertised. Intending passengers will kindly let me know in order that ample accommodation may be provided. R. McFarlane, Agent, C. P. R.

THE LATE CHAS. CALDWELL.—Today, Wednesday, the mortal remains of Mr Chas. Caldwell, Normanby, are being laid to rest. He had reached the patriarchal fourscore years and for a very long time has been a respected resident of Normanby. His three sons, Rev H. Caldwell, Burford, William and Samuel were all at home. We have no further particulars this week.

If experiments now being carried on prove successful it will not be very long ere the railways are equipped with smokeless engines. A smoke consuming device will be attached to the engines, and instead of the smoke being carried into the air it will be conducted back into the furnace by pipes, and the process constantly repeated. The amount of smoke that reaches the open air is scarcely noticeable. The device is the invention of a German engineer.

SUPPLY OF TEACHERS GETTING LOW. The new commercial and industrial conditions, the development of electrical and mechanical power and the prizes that are offered by a business career are attracting so many young men of promise that the effect is being felt in the teaching profession and in the supply of teachers. Educational authorities declare that at no period in the history of the province has there been such scarcity of school teachers as at the present time and the conditions are such as to hold out slender hopes of accessions to the ranks in the near future.

Two Shows.—Notwithstanding the efforts of the Department to reduce the number of small Fall Shows it appears that Normanby intends to have two where formerly there was one. Ayton is preparing grounds and we may see the ambitious village run a race with Neustadt, for a time or two, before both settle down to take time about. Last week's Advance says: The new agricultural grounds are fast nearing completion. A nice tidy wire fence is being put up, with good green cedar posts peeled and painted which add to the appearance. The track is levelled off some but needs grading which will be done as soon as the fence is completed. When all these improvements are made we fancy our show grounds will have few peers in the province.

Assessor J. MacDonald, of Glenelg, has an interesting article in another column on Assessment matters. We think his arguments for a change of time unanswerable.

Southampton was incorporated as a town last Thursday, having, it is claimed, a population of 2,500. W. F. MacLean M. P., of the Toronto World, also of the salary grab fame, was the chief speaker at the celebration.

The blasting and removal of the rock on Lambton St is about completed and when the highway is smoothed down, the road will be the second best of the approaches to the town. Before many weeks citizens will be able to walk that far on the new sidewalk for which tenders are asked on Friday night.

DIED AT 92—Tuesday's Guelph Mercury records the death at Marden, of Mrs Janet Blyth, mother of the late John Blyth, of Normanby. She has been a resident of the neighborhood since 1827 and was an esteemed member of the community. Her son Colin is well known in Normanby.

OH! THE DUST!—We have dust in Upper Town, but not of the abundant dirty, choking variety Lower Town residents have to endure these days. Where's the watering cart? What is use of seven doors if drugs, dry goods and food products are to be coated with powdered mud? Some heroic measures should be taken to have the sprinkler a-going again.

By defeating Mt Forest at home in, as the despatches say, one of the cleanest and swiftest lacrosse matches ever seen in Hanover, the German Champions of this district stand an excellent chance of landing on top, on the round. The score was 7-3, and it will be difficult for the Lornes to secure a lead of 5 goals in the return home match on Friday.

The unexpected may happen, however and the match will be attended by an interested number from this town. The winner will probably be pitted against Elora in the next semi-final round.

The total number of municipalities in the Province of Ontario is 787. Local Option by-laws, under provincial legislation, have been carried in forty-nine of these. There are seventy-five others in which no licenses are issued. There are thus one hundred and twenty-four municipalities in which no licenses are issued. The number of licenses in the other municipalities is being at a rapid rate reduced. In 1875, the number was 6185. Last year it was 2800, and already one hundred have been cut off for 1905. It must be borne in mind in this connection that the population of the province has almost doubled since 1875.

BREACH OF PROMISE.—The heading does not refer to the matrimonial kind but to the pedagogical experience of the School Board here. The application of a Miss Dudson was accepted by the Board for the Entrance room here at her own figure and after 10 days or more she gave up the position having secured something better. The Board here has been put to some trouble in the matter but have made some home changes which ease the situation. Miss Meredith has been given the Entrance room while Miss Margaret McKenzie takes the 3rd class department. A new teacher being still wanted for the junior department.

The Solar Eclipse.

One of the most interesting celestial phenomena for some time will be the eclipse of the sun next Wednesday morning the 30th inst. As seen here the eclipse will be almost total, as the moon will hide about four-fifths of the sun's surface.

The eclipse begins here at sunrise at 5.40 the maximum is at 6.34 and finishes at 7.34. The path of totality begins near Winnipeg and travels eastward to the Atlantic ocean, striking through a place known as Hamilton Inlet in Labrador.

The great luminary will be obscured here for 2 minutes, 38 sec., the longest on this hemisphere, but still a very short period to secure all necessary observations and photographs. Parties of scientists both from Canada, and the States, are at Hamilton Inlet for this purpose. From this place, the path of total eclipse crosses the ocean with tremendous velocity and reaches Spain in 1 hr. 6 min, then crosses the Mediterranean into Africa and finally ends in the Arabian deserts.

Northern Spain is the best situated place on the globe to observe this sight, but it is worth the trouble for many here to rise a little earlier and witness it—such as it will be in Durham if clear weather prevails.

TO RENT.

Waggon-Maker's shop in village of Dromore, Show-room suitable for furniture. Dwelling above. A good stand. Apply to Mrs John Wilson cr I. M. Findlay, Dromore.

Durham School.

The advantages of Durham as an educational centre for higher work are neither few nor small. The record of the school for many years back has been most creditable, the result of the examinations showing a percentage higher than many High Schools with a larger staff.

The laboratory equipment and other supply features it has ever been the policy of the Board to maintain at the highest possible efficiency, and they have been pleased to see Principal Allan and his assistants make most judicious and efficient use of them.

The heating and ventilating systems are the best procurable and it is the aim of the Board to study the comfort and convenience of every pupil.

As will be seen on page 5, a thoroughly competent staff has been engaged for the Continuation Class work, and parents and guardians desiring High School privileges for their children will study their own interests by sending them to Durham School.

The school reopens Sept. 5th, in all its branches which includes, of course, the Model School, for which already a number of applications have been received. In this department Principal Allan has no superior judging by the unvarying success of his pupils at the examinations.

Business Education.

The well-known Elliott Business College of Toronto has enjoyed a splendid patronage during the present year and this is no doubt due to the superior training that the College imparts. The Fall Term opens on Sept. 5th, and already many have signified their intention of being present on the opening day. "Thoroughness is the keynote of this Institution," is the motto of the Elliott Business College, Toronto. All the graduates secure positions and the demand for students to fill good positions has, during several months of the year, been fully six times the supply.

Obituary.

John McKinnon whose death notice was published in last week's issue was born in the Tp of Bentinck about six miles north of town in April, 1864, when he lived until 1889, when the family moved to the present home at the rocky. Ever since that time the subject of our sketch has lived there continuously, until three years ago when he returned to town during the cement boom, but again last year moved back to the old homestead.

Mr McKinnon was well known to all in town and surrounding townships and his sudden and unexpected death has cast a gloom over the whole community. He was a kind and genial disposition ever ready to lend a helping hand in time of trouble and for years but few more muscular men could be found in the community.

Five years ago he was married to Miss Cassie Fletcher of Bentinck who, with two little children, are left to mourn a kind and loving husband and a fond and affectionate father.

Mr McKinnon had been ailing for some time, but for some weeks previous to his death was gaining rapidly and the day upon which death occurred seemed in appearance and spirit his old self again. After spending a day in directing and interesting himself in the work of the harvest he retired at apparently well but shortly after he was seized with a fever and before 1 a m in his spirit took its flight. To the loving wife and brothers who felt so hopeful for his recovery, death came as a sad blow.

The funeral which took place to the family plot in Rocky Cemetery was the largest to the cemetery in years the cortege being over a mile in length. The funeral services were conducted by Rev Mr Little of Holstein with whom the deceased had worked faithfully during Mr Little's stay at the Rocky.

The deceased was a member of the Rocky church and for years had been an earnest worker for its welfare.

The brothers, with the exception of Chas. who was on his way from the West and did not arrive until the following day, were present at the funeral. Many were the tributes of respect and sympathy shown to the memory of the departed, who thus in the very prime of life was taken from this vale of tears. The deepest grief is felt by the community in the loss of a useful citizen and a kind-hearted and genial friend and for the sorrowing wife and little children who

"Long for the touch of a vanished hand,
 And the sound of a voice that is still."
 Com.

TENDERS WANTED.

In the Town of Durham, for the construction of Granolithic sidewalk as follows:

1. From Lambton St. Bridge east to Middaugh House.
2. From Mill St. along Albert St. to George St. thence along George St to Daniel's corners on Lambton St.

For specifications etc. call at the Clerk's office.
 Lowest or any tender not necessarily accepted.
 T. MORAN,
 Chairman Bd. of Works,
 Tenders received up to Aug. 25.

Hymeneal.

A quiet wedding took place on Wednesday, the 2nd inst., when Miss Doris Banks of North Bay, Ont., was united in marriage to Mr Jas A Thomas, of the Thomas Jewellery Co., of the same town. The ceremony took place in the Methodist church, Rev Mr Brown officiating. Only the immediate friends of the couple were present. The bride was handsomely gowned in white pointed esprit over white silk organdie and carried a bouquet of white roses. After the ceremony the bridal party repaired to the home of Mrs B. W. Meredith, sister of the bride, where a dainty lunch was partaken of. The happy pair left on the evening train for Banff, Vancouver and Portland, Ore.—The West, Regina.

SMITH—GADD

Wednesday of last week, 16th inst., a very pretty and unique wedding was solemnized at Knox Church, Normanby, by the pastor, Rev D L Campbell, when in the presence of a church full of guests, Miss Lizzie, eldest daughter of Mr Thos Gadd was united in wedlock to Mr Alex Smith, of the 15th con-Normanby. Promptly at 5 p m to the strains of the wedding march played by her sister, Miss Lydia, the bride entered on the arm of her father and took her place under an arch of evergreens and ferns, erected as a pleasing surprise by the Endeavor Society of which the bride is an active member.

The pulpit, platform and organ also were brilliant with flowers, the pretty little church thus adorned making an ideal bridal bower.

The bride was dressed very attractively in white crepe de chine trimmed with white silk applique and point de esprit, and carried a bridal bouquet of white roses and maiden hair fern, sprays of which were also in her hair. They were unattended.

The ceremony over and an appropriate bridal hymn sung by the choir all repaired to the bride's home where on the porch the happy couple received the congratulations and good wishes of their friends.

This over, adjournment was made to the dining room where the guests numbering about 125 sat down to an elegant repast, one and all doing justice to the attractive menu before them. A beautiful three story wedding cake, festooned with silver berry leaves and flowers, handwork of the bride chiefly, adorned the table.

This feature over outdoor games were indulged in during the fading daylight, and later indoors, music, song games and chat, filled up the fleeting hours of the evening.

The groom's present to the bride was a handsome gold watch and chain, and besides this a great array of useful and valuable gifts from friends testified to the esteem held for the bride. She has been a prominent church worker and the community as well as Rev Mr Campbell, rejoice that she is still to be with them.

The bride and groom were formerly pupils of the writer and he will soon forgive a pressing combination of circumstances that prohibited him from being personally on the scene while such an interesting union was being consummated. All the same his good wishes are extended to the young couple for happiness and prosperity on the voyage of life.

The groom is a son of Mr Alex Smith one of the well-known pioneers of the neighborhood, who we are glad to see is able to be around again after his serious accident.

This is only the second marriage in Knox Church, the first being Mr and Mrs Wm McIlvride over 20 years ago.

Hides

Forgreen beeding hides, free of cuts and holes, horns and tail-bone out, I will pay 8 1/2 cts per lb, 2 lbs per hide tare.
 T. SMITH.
