Assessment of Glenelg for 1905. ANNOUNCEMENT, 1905-1906

Table with 2 columns: Category (Real property, Buildings, Business, Total, Assessed for 1904, Raise in 1905, Children from 8 to 14, Names on Roll) and Amount.

Mr Editor for information I send you the above statement of the assessment of the Township of Glenelg for 1905 and perhaps a few lines of explanation may not be out of place.

The Assessment Act as it is at present demands all assessors to commence their work on the 15th Feb. and finish on or before the 1st May. Every person will admit that the time of beginning the duties of an assessor is entirely out of place, because on 15th Feb., snow in general is about 3 to 4 feet deep hiding from view the many boulders that are covered by the enormous depth of snow thereon making the rough places appear smooth and in some instances the smooth places appear rough on account of snow drifts, etc.

Parts of the Township of Glenelg are hard to travel when snow is deep on account of some of the roads being in an awful state even to get over a foot. To remedy this matter it would be absolutely necessary to change the time for performing the work for as it is at present it has to be done on snow up to the neck or in water up to the knees as both are often experienced before the work is finished. Should the good men that are framing the law see the absurdity of setting out a stranger for instance who knows nothing about the locality, at the time that the statutes demand now, I think that they would at once see that a change is necessary for no matter how familiar a person is with the lay of the municipality he represents there are parts of it that he knows nothing about for there are scores of farms that have a fine appearance in front and at the far end nothing but hills and valleys, etc., and others that have a big hill in front and the best of land at the far end.

How is the matter to be remedied? I say change the time for commencing from Feb. 15 to April 15, and finishing on 15th June, when a man has solid footing to travel and he can get over the ground far faster and easier; remunerate him so as he could afford to examine every farm thoroughly from one end to the other or at least go far enough to have a view of the whole farm. By making the change I think it would meet the approval of all ratepayers and certainly of the assessors for it would give them an opportunity of seeing every place in their natural state and even then they would find it a difficult task to please everybody for they cannot please themselves.

I am, yours, J. McDonald.

VOTERS' LIST—1905.

Municipality of the Town of Durham County of Grey.

Notice is hereby given that I have transmitted or delivered to the persons mentioned in sections 8 and 9 Ontario Voters' List Act, the copies required by said sections to be so transmitted or delivered of the List made pursuant to said Act of all persons appearing by the last revised Assessment Roll of the said Municipality to be entitled to vote in the said Municipality at Elections for members of the Legislative Assembly and at Municipal Elections; and that the said list was first posted up my office, at Durham, on the 31st day of July and remains there for inspection.

Electors are called upon to examine the said List and if any omissions or any other errors are found therein to take immediate proceedings to have the said errors corrected according to law.

Durham Public and Model Schools A GROWING SCHOOL.

Owing to the large increase in attendance in the High School Department—the average for the last academic year being seventy—the Board decided to engage permanently a second assistant. With the increased and efficient staff, and a well equipped laboratory, the school is in a better position than ever to do efficient work, which will be taken up in three forms: FORM I—Those who have passed the Entrance Examination. FORM II—Those who have passed the final examination for Form I, or its equivalent. FORM III—Jr. Leaving and Jr. Matriculation work.

The staff will endeavor not only to teach efficiently but will also at all times give cheerfully, individual assistance as opportunity offers.

RECORD.

Jr. Leaving and Jr. Matriculation. 1903—80 per cent of those recommended passed.

1904—50 per cent of those recommended passed. The average over Province for this year was only 48%.

1905—71 per cent of those recommended passed.

The above record shows that the work done in our High School Department will compare favorably with that done in the High Schools.

Good board and lodging may be obtained at reasonable rates.

FEES—One dollar per month payable in advance.

The School will re-open Tuesday the 5th of September. It is very desirable that all who purpose attending should present themselves for enrollment and classification the opening day. It is a mistaken policy to defer this for a week or so.

The Principal requests the co-operation of all students in making the work of the school harmonious and profitable.

Any further information regarding the School will be cheerfully given on applying either to the Principal or to any member of the Board.

Thos. Allan, Principal. Chas. Ramage, Secretary.
