TALKING IN SIGNS TO INDIANS.

Accomplished Deaf Mute Able to Converse With the Crows.

When Mme. Paille, the accomplished deafmute who has done so much in France for those afflicted like herself, visited this country three weeks ago and went to visit relatives in southern California she journeyed a little out of her way and spent a week in investigating the sign language of the CrowIndians. To a New York friend she wrote that she was amazed at the facility with which she could convey her thoughts to a people as ignorant of her mother tongue as she was of theirs. "In less than an hour," wrote Mme. Paille, "I was able to explain, by the use of my hands, where I came from, where I was going and the general object of my visit. I found that while I could not make myself understood ing, however, lies in the demand it has by spelling out words in the deaf and of Precepts), in the palace, was a stern created, in all parts of the world where dumb alphabet in French—for my knowmotor cars are being used for pleasure ledge of English is limited-I readily
