GREAT HEAT.—An unusually heated spell of weather has been experienced here since last Thursday. On Monday morning heavy rain fell which makes a good combination for promoting fall growth. But no doubt there's a cold blast or two waiting around the corner.
 A professor has discovered among some ancient ruins what is supposed to be the sixth commandment. The text is as follows:—"Thou shalt not tseyap noht sselnu reppawen a daernt thas uoht." The commandment is easily translated by beginning at the end of the sentence and reading backward.
 Priceville Show will be held on Thursday and Friday, Oct 5 and 6, the Friday of course being the big day. Don McMillan is President, Neil Kinross, Secy-Treas. and with two capable officers, a wide awake bunch of Directors, and a good Prize List behind them there is only requirement of good weather to make a great success. Rush in the entries early as the Secy. is an overworked man on Show Days. As usual one of their fine concerts is planned for in the evening.
 H. H. Mockler's values in Ladies Jackets appeal to keen buyers.
 NOT DROWNED.—Shallow Lake had a stabbing sensation a short time ago an Italian being the criminal. It had another last week when Geo. Ellis disappeared for four days. While in Owen Sound and intoxicated he wandered onto the "Minnie M." and went to sleep. On waking up he was on his way to Collingwood. He got home the fourth day and found his father and neighbors grappling for his dead body in the Sydenham River! Next time he disappears there will be less interest.
 NATURE STUDY.—As will be seen elsewhere, the Annual Convention of S. Grey Teachers is to be held on the 12th and 13th inst. The first day will have the usual character, but a new departure has been made for the Friday, an excursion to Guelph having been arranged. The object is not pleasure, but profit for the intention is to visit the McDonald Institute and get some pointers on "Nature Study," the new subject or rather system receiving much attention at present from educators. The fare from Durham is only \$1.15, and no doubt many besides teachers will take advantage of the trip.
 Rev. T. H. Farr, B. A., of Wallaceburg, the newly appointed rector of Gorrif parish, was raised on a farm in the County of Grey, near Durham. He received his theological training in Huron College and graduated in 1898 with the degree of Bachelor of Arts from the Western University, London. On Dec. 21st he was ordained Deacon in St. Paul's Cathedral, London, by the late Bishop Baldwin and the year following he was ordained to the priesthood in the same place and on the same date. He was appointed to Atwood parish where he labored till January 1902, when he was appointed to his present charge in Wallaceburg, where he has labored in the Master's vineyard with success.—Wrexeter Star.

EGREMONT EXCELSIOR.

Directors Delighted. Holstein People Pleased.

The Show at Holstein on Tuesday was the best yet held by the Society and that is saying a good deal. It was estimated that at least 3000 people passed the gates and the exhibits were numerous and of a high character.
 Nothing is so striking as the number and quality of the cattle. It would be hard to find anywhere nine such Durham cows lined up as faced Judges Brigham and Livingstone. Without a doubt a steady improvement is taking place in cattle which will before long place Egremont on a par with Wellington County. In horses too the township, especially in the South shows great improvement.
 Ex-Roeve Don McQueen won a bunch of red tickets for Durhams that would make any man proud, for every thing was keenly contested. Mr. C. McInnis had a yearling bull of great excellence for which he longed for competition.
 The Fairbairns of course were prominent and the young one carries home for a year the handsome cup presented by McIntosh of Mt Forest for the best team on the grounds. If he wins it or three years in succession it becomes his property. The exhibition in the line of drivers, teams, &c., was a most creditable one and one was not surprised to hear Judge Huck of Mildmay who has been judging at Chesley, Paisley and other points, say that this was the best show he had seen this year.
 The Hall, up-stairs and down, presented a chaste, aesthetic appearance. A magnificent display of flowers gratified the eye on entering, chiefly from the homes of Dr Brown, J. D. Main and W. Seaman. J. C. Adams had a remarkable display of coleus plants which would have got a prize at Toronto. Fruit, Grain and roots we have seen better, but there were good samples, a few surpassingly good in apples.
 Messrs C. L. Grant and A. Wenger of Ayton were nearly surfeited, testing as judges, the bread, pastry, pickles, Dairy produce, &c. They declared it excellent and their decisions gave satisfaction. The Society should offer separate prizes for the various kinds of pie.
 But upstairs was the ladies' delight for here in high class pretension were dainty ladies' work which should be included in the Fine Arts, substantial articles of domestic manufacture, quilts that would cover a regiment. The Fine Arts proper contained some fine work which memory dwells on lovingly, but which we cannot reproduce. The prize list will show the excellent artists.
 Mr. H. H. Miller, M. P., Dr. Mearns, J. Messenger of Hanover were on the grounds; Mr. and Mrs. Jas Murdoch, Owen Sound, met many old friends of course; a very large number from Durham, Ayton, Mt Forest; Everybody seemed to be there, and the two churches and the hotel were kept busy catering to the crowds.
 Pres Wm Allan, Secy. A Seim, and Asst-Secy W. J. Sharp have our thanks for Press courtesies. That they and the Directors were pleased goes without saying. The great success puts upon them greater responsibilities to go ahead. There is a demand for a two-day show, at least that the inside judging be done earlier. To be independent of weather housing will have to be provided for stock classes, &c. &c, and the hall made larger. To do this, the ridiculous charge of 10 cts could be increased. Shows with inferior attractions have charged 25 cts.
 Pres Allan has been 38 years consecutively in attendance at Holstein Show and his faithfulness, reproduced in kind over all the township, is what makes Holstein a success, quite independent of all government grants.
 The Farmers' Manufacturing and Supply Company had some fine articles on exhibition. Photographers Chapman and Le-Warne of Mt Forest each had a display and a large number of other pushing merchants. The local stores did a big business, as did the merry-go-round on the grounds. Some fine new buildings have been built recently. The Pettigrew property changed hands a few days ago for \$1200, the purchaser being Mr. D. Coleridge, Jr. Holstein is progressing and expects next year to have fine cement sidewalks.
 In addition to Mr Seim, the pushing Leader men, Durham and Mt Forest printers were on hand.
 W. Mountain took the major part of the poultry prizes and his good wife as usual figures in the Ladies' work.

Fall Millinery Openings.

As usual we have made our semi-annual bow to the milliners and gazed with more or less of interest and rapture at the attractive shades provided for fall and winter wear. We found both very busy, great stocks on hand, and hard indeed must she be who leaves Durham for lack of variety or good taste.
 S. F. MORLOCK.
 Mr Morlock as usual has an expert in charge. Miss Coghlan—who, to years of experience has evidently added a personal tact, which makes a fairy bover to the show room.
 With the coming of the first chill days of Autumn and Nature's Autumn tints comes to the feminine mind, the thought of Fall and Winter millinery and the display shown in this store is well worth the inspection of all the ladies of the town and vicinity.
 In colors many exquisite shades in green, brown and blue are shown.
 A pretty toque of Alice blue velvet, was much admired. It was quite close fitting and raised off the face with clusters of shaded blue violets, and roses of the same shade at the base.
 A handsome long black sailor in castor panne velvet with facings of blue and roses under the brim was very stylish.
 A beautiful shirred green silk, falling shape with densed side edged with wings and a Bird of Paradise osprey and twists of green and Tuscan ribbon.
 There are hosts of pretty toques, turbans, and many ready to wear shades to suit every one.
 The tints shown this season are most beautiful and the combinations of foliage, chiffon and flowers make a most effective showing.
 MISS DICK.
 The Lambton Street parlors at no time looked better, will be the judgment of the many who have waited on and been waited on by Miss Dick and her six busy assistants. Miss Dick's experience and ability is so well-known to this community now, that anything we can say in favor, would appear superfluous. If a call has not yet been made, it should not be delayed. Every one claims Millinery is prettier and more becoming than ever and prices reasonable.
