as cheaply as he can make a pound of pork or beef, and the difference shows in the price. If you have not customers already, ship only to reliable produce merchants. If shipping alive one must allow for considerable shrinkage.

The following extracts from Bulletin No 7 deal with feeding and preparing poultry for market.

FATTENING CHICKENS IN CRATES, The fattening crates in use at the illusand 20 in high, inside measurements. Each crate is divided by two tight wooded partitions into three compartments, and each compartment holds four chickens. The frame pieces are 2 m wide, questions. ami seven-eighths in thick. This frame bottom are seven-eighths in. wide, and three-eighths in thick. Two inch spaces tory, between the slats in front enable the chickens to est from the trough. The bright and amusing anecdotes, items of bottom slats are 11 in apart and the slat strange and curious knowledge, poems nearest the back is 21 in from the corner and sketches.

The bottom slats are placed on This is what THE COMPANION offers the top of the bottom cross pieces of the frame to prevent the chickens' feet being bruised when the crate is placed on the ground. The top slats are 2 inches apart flashy, elevating and strengthening slats are out above each partition and member of the family. six strips two inches wide and nailed under them. The three doors so formed

are hinged to the rear corner pieces. The crates are placed on stands 16 in. from the ground. The droppings are read. Abght "V" trough 24 in. meide. carried on two brackets nailed to th ends of the crate. The bottom of the trough is 4 in, above the floor and the upper maide edge is 2 in. from the crate.

Situation of crates:-In warm weather the crates should be placed outdoors in a sheltered position.
In ansettled weather it is advisable to SELLS & CHEAP constauct a rough board shelter to shed the rain; or the crates might be carried into a shed or barn.

pentilation is required at all times.

In order to have the chickens plump and fit for the market when at the most profitable age, they should be put in the day of August A. D.. 1905, and to me crates when from three to four mouths old, though suitable market chickens of the lands hereinafter described for the any age will show gains in the crates. Select for fattening chickens that are Children's Winter Vests, all sizes from 13c up | with . hort straight legs set well apart, M en's Cardigan Jackets at \$1.00 and 1.40 each | and above a'l with a good constitution.

THERE'S MONEY IN THIS FOR YOU | one side should be removed for the front.

Lathe should be removed for the front.

Lathe should be removed for the front.

Lathe should be removed for the front.

In the front and lengthwise of the crate to form. the door. The laths are put the same distance apart as recommended in the construction of the fattening crates, A board should be loosened in the top to remove the chickens, and a feed trough

> Fattening Rations'firsh of interior quality; ground peas import a hardness that is not desirable, Ground oats, buckwheat, barley and low grade flour are the most suitable meals.
