Teas of Delicious Flavor

It might worry a man with a microscope to tell Grand Mogul Tea from the common kind by the looks; but a blind man can tell the difference in the first sip.

Q Mountain grown in Ceylon, cured and blended by experts, they enter your teapot with a flavor that no other tea possesses.

Q They are a contribution to good health.

Q High in their and low in tannin—means high in flavor and not a mere substitute for biters.

Grand Mogul Tea

Q Sold only in packages—all tea, no store dust, no microbes. Look for the premium coupon in each package. "Grand Mogul" shares the advertising appropriation with you by giving the premiums. The quality remains the same—the highest.

Big Millinery Sale

It is not a usual thing to reduce the price of millinery so early in the season. However we want to clear every thing out, and during the next 3 weeks we will give you bargains in Millinery. We don't want to carry one hat over, and in order to get rid of our stock, we have cut the prices at this early season.

Mr Will Glass came home last week from the West. He left with the purpose of engaging in Missionary work for which he has an aptitude, out on a closer survey of the field he had doubts of making a success of it, and conscientiously refrained from undertaking it.
