WITH CARNEGIE'S HELP.—Hanover carried the Free Library By-Law by a vote of 282 to 90. The Post says: "There is very good reason to believe that had that Carnegie feature not played a part in the issue, the library by-law would have been snuffed under. With a great many, indeed, with the majority perhaps, it resolved itself into "Carnegie or Taxes" as the mayor pitifully put it, and the result of Monday's vote is undoubtedly an indication that Carnegie's money will be very acceptable here.

### MARRIED

MOFFAT GREENWOOD.—On Wednesday March 28th, at the manse, Durham, by the Rev. Wm. Farquharson, Charles Henry Moffat to Lilian Grace daughter of Daniel Greenwood Esq., all of Glenelg.

### Address and Presentation.

Last Wednesday evening Mr and Mrs J. A. Aldred were very much taken by surprise, when about fifty of their friends and neighbors without invitation or ceremony walked in and took possession of the house, without so much as one note of warning; however their welcome was a very cordial one. As it was noticed, they carried with them well filled baskets. After an hour or two of social chat and pleasantries, Mr and Mrs Aldred were requested to be seated, when the following address was read by Mrs R. Pettigrew, of Varney.

To Mr and Mrs Aldred. Dear friends,— It was with feelings of regret that we learned of your intended departure from amongst us, so your friends and neighbors have gathered together to spend a social evening with you all. We have ever been mindful of your neighborly kindness to one and all, and also of your untiring efforts in the work of the Master. We would ask you to accept this dinner set of dishes, those knives and forks and carving set, also this Bible, and we pray that it may be in the future, as it has been in the past, a lamp unto your feet and a light unto your path. In your Western home we sincerely trust that you will meet with abundant success, and we ask God's blessing on your future lives.

Signed on behalf of your friends and neighbors. The presentation was made by Mr John Backus and Mr David McCrie. Mr Aldred made a very feeling reply. As the majority of those who had come to say good bye were those with whom he had been associated with from boyhood up and found it was not the easiest thing to give what may be the last hand clasp to those who have been valued friends and neighbors and many of them as workers in the Master's Vineyard, for so many years, again thanking them for their kindness and good will towards Mrs. Aldred, himself, and family and hoped if not permitted to meet here again, all might meet in that eternal home, where we shall never say good bye. After which an abundance of good things was served by the young gentlemen and ladies of the crowd the remainder of the time until past midnight was pleasantly spent in many different ways. There has been many such gatherings of good will in Mr Aldred's home in years gone by, but this one was mingled with sad thoughts, as it is likely to be the last social gathering in the old home. After the singing of "God be with you till we meet again," led by the Rev. J. Stephenson, all went home feeling it is more pleasant to give than to receive.

### Alarm System Required.

To the Editor of the Review: Dear Sir,—

In the interests of our Fire Brigade, I wish to make a few remarks in regard to what we should have here and that is a good fire alarm system. The one we have here now for to call the Brigade into action, is too slow and out of date and there is no use making any comment about it. But it is what we should have, and this matter the question of fire protection should be of the deepest interest to all right thinking people. From the smallest village and town to the great metropolitan centres, fires come to all communities, small and large, and generally occur when and where least expected.

I consider it among the most important, and very first duty of the municipal officers of every town to provide for the protection of the lives, the homes, and property of its citizens against fire. Time tide and fire wait for no man and those who have been rudely awakened from their midnight slumber by the clang of the bell will readily appreciate that. A fierce fire also will not wait upon the fireman's convenience. It therefore becomes necessary to adopt every imaginable plan to get the advantage, an early start is one of the essentials. We have a good fire company of young men here, we have good fire fighting appliances, but there is something we have not got, a proper alarm system, and it appears to me that there is no reason why we should not have an effective one, of quick communication to give notice to the fire Dept. when a fire occurs.

The greatest virtue of a body of fire fighters is rapidly of organized action and oftentimes the greatest effort to beat back the consuming flames are futile because of a late arrival to gain the advantage over a speedy proposition one must be speedy and in the case of fire there must be an effective fire alarm system. If arrangements could be made with one of our factories, and have a fire whistle attached, have an alarm box in each ward, with wires strung from these boxes, to which ever plant was secured where there should be placed an annunciator, which would register the ward from which the call was sent in and having a public code alarm, the man on duty could at once give the proper whistle alarm. This simplifies matters and aids materially in giving the firemen a chance to get started as soon after the alarm as possible. Many an otherwise inconceivable fire has gained headway simply because of a tardy or confused alarm. The quickest possible means for conveying all fire apparatus to fires should always be provided for many otherwise well equipped companies fail to do their best because there is no adequate means of promptly getting started as soon as they should. Hoping that something will soon be done in the matter before long.

I am, yours truly, R. TORRY, Chief Fire Dept.
