Cool days and frosty nights make it easier to endure hard work on man and beast during the early part of seeding. This is the kind of weather we have at present.

Some have commenced seeding while others only commenced ploughing. The land is getting in good condition to work now and a goodly number of acres will be sown this week should every element prove favorable.

Some of the sick people are getting better, others appear to be in a poor state of health, but we hope when beautiful May comes it will bring health and strength to everybody.

Our town is kind of quiet on account of the busy season, but women with baskets on their arms can be seen going hither and thither to and from our town shopping.

The Easter holidays are past, and my oh! how short the week seemed to those who had to be punctual at their engagements on Monday morning last.

Teachers had a good holiday at home. Amongst those that enjoyed themselves here and nearby, were Miss Nichol, of Lamash, Miss McDonald, of Calderwood, Principal Carmichael our town enjoyed himself at his home near Collingwood.

Miss Laing, of Top Cliff, was home at St. Mary's.

The Anniversary will be held in the Presbyterian church about the middle of June. More further on.

We saw by the papers the announcement of the marriage of E. J. A. Conkey of Indianapolis, in June next. We sincerely hope that nothing shall intervene to cause disappointment and that the good Dr may be privileged to realize in full the enjoyment of wedded life at the time and place where the expected prize is to be obtained.

and although the announcement at present may seem premature we hope to be supplied with the details of the event when the anticipated time is past, when the worthy Dr who was born and raised in our town shall no more be placed in the singular number, agas mar sin sios.

David McNichol, Esq., Ex. M. P. P. paid his friends the Nichol family a visit lately and attended church on Sunday.

Obituary.

At her home on S. Line, Glenelg, there passed away on 7th April, Mrs Colin Kennedy, in her 62nd year.

For a year or two back she has been a great sufferer from asthma, and though tenderly cared for with best medical skill, she has passed away.

Mrs Kennedy was born in London, Canada, and 44 years ago was married to her husband, who survives her. They have spent their whole married life in Glenelg.

where to them was born a family of five sons and one daughter, Bella. The sons are John, Donald, Thomas, Allan, Colin, and they are all nearby and were all at the funeral. She was buried in the Ebenezer cemetery, Rev Mr Rosch, Priceville, conducting the ceremonies at house and grave.

Deceased as a neighbor and friend was greatly respected, and as wife and mother was loving and beloved. Her removal is keenly felt by her children who feel with the poet who sings in sorrow and in faith:

"Mother gone I oh, how we miss her. None but bleeding hearts can tell, But we'll meet her up in glory. Jesus has done all things well."

An Appalling Calamity.

Earthquake and Fire Destroy San Francisco.

The civilized dwellers on our old earth were startled last Wednesday when the news got around that this big rolling ball of ours had had another attack of contraction, the resulting upheaval being particularly destructive as it came directly under the great city of 400,000 inhabitants and at an hour, 5 a. m., when most were asleep.

The sight of falling plaster, cracking walls and swaying motion caused a rush out of doors, where danger was greater from toppling chimneys, etc. Some hundreds were killed and thousands injured in the brief three minutes of the earthquake but even then the horror was only beginning.

Inevitably, fires broke out and worked their will, for hydrants and water systems were also wrecked or unworkable, and the firemen were helpless. Dynamite was used to blow up buildings in its path to stop it, but the supply ran out and the city kept on in the centre of the city, till it is estimated, all the business portion is gone and only about one quarter of the city remains.

The suffering, the anguish, the horror of it all, can only be estimated by those participating. Relief measures were promptly instituted, funds were more plentiful than food for a few days but the latter is rushing in and famine is narrowly averted. The homeless is estimated at 300,000. Millions have given of their wealth, the States Government has given a million. Canada promptly gave \$100,000, and sympathy is coming from everywhere.

"Man to man the world over, Are brothers yet for a' that."

Our inside pages have a fuller account of this greatest disaster of modern times.

San Francisco will be rebuilt stronger and better than ever. The great steel structures stood the strain well, and new buildings will take this form largely.

Thirty six babies were born in one day among the huddled refugees in the Presidio Park. They and their mothers were well cared for by the means at hand, but many will die.

The catastrophe has increased largely the number of weddings. Women, ruined by the fire, appealed to their lovers to hasten marriage, for their protection.

A heartrending scene was that of futile effort being made to rescue a man pinned down in burning wreckage. When the fire reached his feet and hope was gone he begged to be shot and this was done.

A CRIMINAL CONSPIRACY.—The Milwaukee Gazette is responsible for the following: "There is said to be a little boy in Walkerton who is acquiring a bank account in a novel manner. His sister's bean gives the boy ten cents to put down in a little book every thing nice she says about him. The boy already has \$4.50 in the bank and is working the graft to the limit. He has taken his father into his confidence and gets the old man to make remarks derogatory to the girl's lover, to which she replies in defence.

LOOKS LIKE BUSINESS.—The C. P. R. have made another move which gives us fresh cause for believing that the company means business so far as the construction of their line to Walkerton is concerned, and that it will not be long before the work of construction shall have been commenced. What we refer to is the filing of the plan and profile of the road in the registry office.

This was done one day last week, and would not likely have been done did they not fully intend to go on with the work. Col. Scott met the solicitor of the company in Guelph one day last week and was assured that just as soon as the line to Sudbury had been completed, work on this line would be begun.—Walkerton Telescope
