Our Wash Department is full to overflowing with the nicest and best

We invite your inspection. Everyone enjoys looking at nice fresh goods. It is our pleasure to show them.

H. H. MOCKLER

TOWN TOPICS

Mr. Fred A. Lewis, piano tuner, expects to be in Durham in June.

SEND US YOUR NAME.—The REVIEW to January 1, 1907, only 50 cents.

MOVING SALE.—See Ireland's announcement in his advertisement.

The Epworth League of the Methodist Church, will again run the popular excursion to Niagara Falls this year, sometime about the end of June.

Sacrament of the Lord's Supper will be dispensed in the Presbyterian Church on Sabbath next. Preparatory service on Friday at 2:30 and at 7 p. m.

DESIRABLE HOUSES TO RENT.—At intersection of Durham Road and Garafaxa St., one 6-roomed house, only \$8 per month. Another having 9 rooms, furnace, bathroom, &c., \$9 per month. Apply at the Hardware Store to Wm. Black.

June brides will do well to remember that THE REVIEW has quite a reputation for printing wedding invitations and announcements. We carry the best paper, and have the right kind of type for doing the work.

ALMOST A FIRE.—Some one celebrating with firecrackers on Thursday last, were careless enough to allow one to smoulder on the wooden sidewalk near Dr. Gun's. As we were passing it was getting nicely under way on two planks and the sleeper but a pail of water arrested it.

MANY A SLIP & C.—While Dr. Deacon, Stratford, was here last week, he made several runs in his touring car. On Wednesday last he took a few friends out Traverston way but the hills of Glenelg were never made by these machines and something went wrong with the crankshaft necessitating returning with borrowed horses and rig, while experts had to be secured to "fix" the machine.

THROWN FROM A BICYCLE.—On Sunday evening last as Mr. Dan Campbell and two other young men were wheeling home from Edge Hill way they essayed to come down the big hill approaching the gravel road. All went well until some unlucky stroke smashed the rim of a wheel and he pitched headlong on a pile of stones. His companions came to his assistance and no doubt thought it would be fatal as he was unconscious, with blood flowing from nose and ears. A rig was secured from Mr. Heughan and the lad brought to town where he was examined. Several big cuts on the head were sewed up, and he is injured round the shoulder or back as our arm is powerless. LATER—We are pleased to learn that he is making a steady recovery.

HURT AT A RAISING.—On Friday last while a raising was in progress at Mr. John Gray's business, Mr. John Bell met with an accident, which might easily have been fatal. While adjusting a spur brace into the pulley, it slipped from the grasp of the handlers and fell, striking Mr. Bell between the shoulders and knocking him down. As the brace was a 4 x 4 scantling and of considerable length it can be imagined what a death blow it would have been had it struck him on the head falling 13 feet. Mr. Arch. McArthur had a finger lacerated and part of it may have to be removed. Mr. Geo. Binne was struck by a falling pike pole same day, but was not seriously injured. Mr. Bell is improving but feels very sore across the breast.

THE DANGEROUS AUTOMOBILE.—On Monday while Mr. Wm. Riddale, with Dr. Gun's horse and buggy was driving the nurse, Miss Carmount, to her home in Orchardville, an accident occurred with unpleasant results. The buggy and its occupants were commencing to go up a hill, and meeting them, a large touring car. The surprise was more than the horse could stand, it wheeled, throwing the occupants out, smashed the buggy considerably and bolted. It was caught near Mr. Cornish's and is badly cut up. Meanwhile one of the occupants of the touring car, a London doctor, was looking after the old man who is injured, it may be severely. He gave him kindly attention and took him to Mr. Cornish's fearing he was too bad to take home. Miss Carmount is not so seriously injured, but none of them want another such experience. In an abrupt hilly country this danger will always be present and users of the "Devil Waggon," should make watchful care their first consideration: Where they are seen coming the safest way with frightened horses is to unbitch.

At the Cement Works

Wednesday of last week a smash-up occurred on the track south of the works which battered up the tender of the engine and caused the engine itself to be laid up for repairs. What with the running in of coal and clay and the running out of cement, the switch yard is a busy place. A G. T. R. official from Palmerston was on hand doing some of the switching himself and left a loaded car at the intersection of a switch from the main line for a few minutes. Meanwhile the cement engine was undertaking to pull two heavy cars of clay up the steep grade through the hill. It proved unable to do this and rolled back on the track to get a fresh start, and rolled helplessly of course into the obstructing car which should not have been left there. The impact smashed the tender and threw the engine off the track, the fireman jumped but Engineer Whitechurch stuck to his post, though the engine toppled sideways and was almost over the bank.

Pres. McWilliams was on hand and he was just the man for the occasion: Palmerston was wired the auxiliary secured to clear the line, the G. T. R. people had to lend an engine to draw material to feed the big rotaries until the "Bogardus" was repaired, and not for long was there slow feeding required.

The tender was loaded on a freight car, and with the engine, dead, was hauled to the repair shops at Stratford and returned Saturday night. The expense over \$1000 it is said, will be borne by the Grand Trunk, but the delay of scarcely a day resulted in several enquiries from anxious purchasers as to the cause. The National Cement is in keen demand at highest price going.

Stock is now quoted at 50c while holders are asking 60c. Mr. Laidlaw has a letter from a man offering 90c for 300 shares. This can hardly be secured, so rosy is the prospect of this season's make under the new management.

We cannot help asking where would the stock have been to-day had the REVIEW not have raised the cry against moving? It was down to 10c and if the moving had been carried out by this time it would have been down to zero or near it. We continually urged stockholders not to sacrifice, and those who heeded our advice will not be sorry, for it will yet go to par or we much mistake.

A careful estimate of stock on hand drafts, &c., shows that the National is now in thoroughly good standing, not only is the debt rolled up during the idle months wiped out, the balance of last year's debt is also, and there will at the end of this month, stand to the credit of the company value for from \$19000 to \$15000. This is the result of less than two months' run, and congratulations seem to be due to the Directors, to President McWilliams, to Manager McGraw, or to all combined, for the very satisfactory showing.

A meeting of the Directors was held on Friday last at which all were present except Mr. MacKay and Mr. McLaren the latter being off to Europe seeking health. Needless to say the situation was satisfactory.

Mr. McKechnie points out very lucidly where this year's gain is coming from: (1) the coal that was used drying the clay is all saved; (2) the quantity of coal used in the rotaries is greatly reduced since the mail is now fed with 80 per cent or less of moisture instead of 80; (3) eliminating the clay-drying process has saved the wages of 7 or 8 men; (4) the office staff has been reduced without impairing its efficiency; (5) a cheaper process has been used in loading clay; (6) cement is selling now at about 25c more per barrel than it did last year and (7) several hundred barrels more per day are being made.

A Sudden Call.

DAN CAMPBELL PASSES AWAY.

Sunday last the startling news got around town that Mr. Dan Campbell was dead while many had not heard of his illness. Only the Friday previous he had been around town but took to bed that day from what was reported to be typhoid and anyway was complicated with pneumonia. Saturday his temperature went up to 105 and the virulent attack ended fatally at 2 p. m. on Sunday.

Deceased was one of the strongest and most robust young men in town having apparently a strong hold on life and his untimely end at the early age of 38 is a warning and a lesson to all, and a great and staggering blow to his widow and 5 children.

Deceased has been a resident of Durham for nearly 10 years and was well known as stage driver and livery man, and latterly as agent for the Frost & Wood firm. He was working up a large business here, especially in Bentinck where he was well and favorably known and was taking a prominent place in our citizenship. His genial nature will make him greatly missed around town, while his loss as husband and father in the producing years of life is very great.

His forethought for his loved ones will be valued in its place. He was a member of the Canadian Foresters and of the Oddfellows and insured we understand, for \$1000 in each.

Mr. Campbell was born near Hanover, at Campbell's Corners, named from his family, and was an only son. He has a sister in Rochester and another in Port Huron, both married and both will be at the funeral on Wednesday. Mrs. Campbell is a sister of Mr. John Schutz and she and all the mourners have the sincere sympathy of the town in their sudden bereavement.

Death of Andrew Vessie.

On Wednesday morning May 23rd, at 2:45, Andrew Vessie, second son of John and Mary Vessie, Rocky Saugeen, passed away after an illness of two years. Heart disease caused by rheumatism was the cause of his death. Andrew was a most patient sufferer, courageous and cheerful under the most trying circumstances. He was born in Glenelg, May 2nd, 1891. The funeral which took place from his father's residence, Garafaxa Road, on Friday, May 25, to the Saugeen Cemetery, was largely attended by relatives and friends. Rev. Mr. Farquharson, of Durham, conducted services at home and grave in the absence of Rev. Mr. McDonald.—Com.

Mr. and Mrs. Vessie and family wish to thank all friends for the many kindnesses shown their departed one, for the beautiful flowers sent, also for the sympathy and kindness extended to the family in their hour of sorrow.

The Great S of S Demonstration

Monday, July 2nd.

The Sons of Scotland committee have completed arrangements for their great rink concert on the night of the Annual Demonstration of July 2nd. A few features of the day are not completed yet, but the committee are warranted in saying it will be the best ever held here and will furnish such a day of sport, pleasure and amusement as is seldom obtainable in country towns. Ben Nevis Camp has earned a reputation of always doing what it promised. They secure, to the best of their ability, the best artists, put up a varied program, and trust to the discernment of the public.

The concert talent is as follows:
HAROLD JARVIS, Detroit. The well-known tenor of national fame in Canada and the States.
MISS HELEN KIRBY FERGUSON, Toronto. The famous young Canadian Contralto who as singer of Scotch and other songs has few equals. "In the front rank of our best concert singers."
J. H. CAMERON, Toronto. The well-known high class comedian. "The most versatile of entertainers." "He is not only a rare humorist and a good vocalist, but a fine elocutionist."—Globe.

PALARO BROS, Toronto. The famous pantomimists, who will appear on the grounds during the day in their pantomimic absurdity "Fun at the Mill," and gymnastic acts, and in the evening will give a thrilling fire-act and other features.

PIPING and DANCING at intervals by the prize winners of the day. Watch for further announcements of Durham's Great Day.

In Sporting Circles.

The Owen Sound-Dundalk lacrosse match in Owen Sound Victoria Day ended in a tie 3-3. It was a poor exhibition.

The Durham Lacrosse boys have been recently outfitted with natty new sweaters. The colors are blue with white shoulders and cuffs, while on the captain's, the colors are reversed.

Con. Marrin, late bar-tender at the Knapp House, left Durham for good, Tuesday, which means the loss of his services on the lacrosse team this summer.

By all appearance, Hanover will be without a league lacrosse team this summer, as their late effort to secure admission in the North Bruce Lacrosse Association has not been successful.

This Football District, No. 4 is now lessened down to two teams Holstein and Durham, Ayton, after winning their two home games with each, having dropped out. The Durhams played their first game with Holstein, there Monday evening, when in a closely contested and hard fought match, our boys again came out one goal behind, 1-0, the goal being scored in the second half. W. C. Vollett of town was an efficient referee. The Durhams are expecting to win the return match with Holstein here on Friday, June 1st which would tie them for district honors, and render a play-off necessary. Turn out and see the game.

More Bouquets.

The Durham Review has been increased from a 6 to 7 column paper. The Review is among the best exchanges that come to this office Editor Ramage is a big hearted chap and conducts a model weekly paper.—Chesley Enterprise.

The Durham Review has been enlarged from a 6-column to a 7-column quarto. The Standard is glad to note such an evidence of prosperity.

Practices of the South Grey Rifle Association are being arranged for Thursday and Saturday evenings.
