God Bless You.

When you've struggled hard and long, And the battle has gone wrong, And the world of cares oppress you; Like cool water from a spring. Like a balm the south winds bring, Are the simple words, "God bless you

When you're going far away, Far from all you love to stray, And the parting pang distress you; Like the sunbeam in the heart, Though the choking tears may start, Are the words, "Good-by, God bless you

When the biter days are past, When your joy is full at last, And the winds of heaven caress you: Then the heart will overflow While the happy heads bend low And the true friends say, "God bless you

Be his faith in James or Paul, One God, many or none at all, Whose kind lips the words address you: Nothing matters; when it needs, Doubts, philosophies and creeds Are forgotten in "God bless you."

Or a largtheir misdeeds.

Christ's Constraining Love.

In the first place the love of Christ another. If you want to wield two bars | playing a pair. of iron togteher, you must heat the iron:

When this power is given to love the culty. unlovable, we can go on and reach such a point that for people we had no interest in vesterday morning we now feel a very deep interest-within 24 hours. These are the times when a man kneels down in prayer with the feeling that there are hundreds of people for whom he can have no personal feeling of affection, but rises from his knees with his gler toppled heels over head into thirty heart overflowing with love for the whole human race. You say that is a miracle; and so it is. That is just what

And after you get this power which enables you to love the unlovable, the love of Christ gives its possessor the power to love his enemy. That power is not possessed by any one in the natural state of man. It is not easy to love one's enemy, and under the old dispensation it was absolutely unknown. When Jesus Christ on the Mount of Olives proclaimed to the multitude that they were to love their enemies, it startled them: "Ye have heard it said. Thou shalt love thy neighbor and hate thine enemy," and he went on to preclaim a "It sounds very like the click of my new doctrine, "but I say unto you, reel!" Love your enemies, bless them that curse you, do good unto them that hate you, and pray for them that despitefully use you and persecute you." You cannot do that until you become a partaker of the love of Christ .- Rev. Mr.

of London. Eli Brought His Appetite.

The Country Club is a thing of the past. They broke up housekeeping Monday night with a big feast. Eighteen were present, and nine dozen eggs was only one item on the bill of fare. No seraps were left, as the Country club eats everything on the bill of fare; then, 'tis said, "they lick the dishes and swal low the spoons," Eli Pretty ate sixteen hard boiled eggs as a starter, then the boys who were to eat at the second table raised a "holler" for self-protection, and Eli was promptly shut off. He wanted a few more .- Carrollton, O., Chronicle.

STRENGTH OF **BLACK BASS**

********** Knowlton, Que., June 14-Excepting for the fortunate few who can afford to pay extravagant prices for salmon rivers, North America has no finer sport to offer the fisherman than fighting the small mouthed black bass. From the fair, light green little chaps

of half a pound, up to the muddled black, battle scarred veteran of eight pounds, these fish are all full of fight just so long as they retain their tenacious hold upon life. A couple of lads here, who were re-

turning from a successful day's sport, let down their string of half a hundred fish for a washing before their boat reached shore. As their last fish had been caught twenty minutes previously, they were justified in thinking there was not a great deal of animation in the bunch. However, a couple of three-quarter pound fish at once concluded to make a further struggle for life and made off with the whole catch towing behind. The floating mass was sighted next

the boat livery men. The two runaways were lively and vigorous and lived for In England, as in many other parts of some days in the boatsmen's fish box, the globe, the crust of the earth is in | until they were wanted by one of the vernous hollows, yawning chasms, and Just by way of experiment a fisherabysmal clefts and fissures; those of man once sat in the bow of a four oared Derbyshire being amongst the most note. skiff holding a steel rod to which a fering from the "Mullygrubs" or "Effie then to give him a word of sympathy

One day the writer spent a busy threeeach other they must have the love of two five pounders, which were only brought to net with the greatest diffi-

On another occasion, when a woman enthusiast had with great patience, skill and strength, played a seven pounder almost to a standstill, a second big fellow snatched at the other fly. Instantly the first one revived, and both fish started off quickly. The reel was not quite speedy enough, and the eager an feet of water. She pluckily held on to her rod, however, and being able to float was actually being twoed off when pick-

The two fish were fought after that for a whole hour, and were then manoeuvred into shallow water, near a sandy beach, and literally kicked ashore by the

At the Pemichongon Lake two men pulled their birch bark to shore at lunch time and went for a rest under the shade of a beech tree near by without noticing that one of the leaders was trailing in the water. They were remarking upon the thrill call of what they thought was a tree toad, when one sprang up with the exclamation:

They rushed down to the bank just in time to see the light cance slip off where it had been lightly grounded and sail away quite steadily. Without waiting to strip one of the two jumped in and, getting to the front of the runaway craft Thoburn, Methodist Episcopalian Bishop pushed it toward the shore. The strain of the fish, which had taken the fly left in the water, was, however, great enough to drag the rod out of the boat, and the swimmer had quite enough of it to get back with the canoe before him and one hand grasping the rod, at the other end of which was a six or seven

Which reminds one of an accident at one of the canal dams of the St. Lawrence when a thoughtless father tied a salmon leader and a fly to a stiff striped bass rod anl, attaching a fly, allowed his little six-year-old boy to amuse himself with it. A big bass snatched at the fry and tugged so hard that the little fellow

LAST MOMENTS OF DICKENS.

As Touchingly Described by Daughter. Mrs. Perugini, Dickins' daughter, gives

in the Pall Mall Magazine a touching description of the last evening of her father's life: "He bade me stay with him for a lit-

tle, as he had much to say. He was silent, however, for some minutes after this, resting his head upon his hand, and then he began talking of his own affairs, telling me exactly how he stood in the world, and speaking, among other things, of 'Edwin Drood,' and how he hoped that it might prove a success-if, please God, I live to finish it.' "I must have turned to him, startled

by his grave voice, for he put his hand upon my arm and repeated: 'I say, if, because, you know, my dear child, have not been strong lately." Again he was silent, gazing wistfully through the darkened windows, and then in a low voice spoke of his own life, and many things that he had scarcely ever mentioned to me before. I was not surprised, nor did it seem strange at the time, that he should be speaking thus; but what greatly troubled me was the manner in which he dwelt upon those years that were gone by, and never, beyond the one mention of 'Edwin Drood,' looked to the future. He spoke as though his life were over and there was nothing left. And so we sat on, he talking, and I only interrupting him now and and love. The early summer dawn was creeping into the conservatory before we went upstairs together and I left at

the sensational charges made against and starvation. the canned meat packers: Potted Meat part of the packing industry showed that the methods used make the use of preservatives unnecessary, and indicated that no preservatives or

Canned Meat packer. The meat is first partially cooked in The air is then withdrawn with vacuum pumps and the cans sealed in vacuum. Next they are upt into large cookers, where the cooking process is finished. In the packing of some products it is necessary that the cans be reopened and the steam allowed to escape, the vent hole being immediately resealed while the goods are hot, so as to retain

the vacuum. The entire process is quite similar to that used by the family cook when putting up fruits and vegetables, except that meats are sealed in tin cans instead of being put in glass jars. We found that the solder in making the cans and n sealing them is all placed on the outside of the can and does not come in

contact with the contents. We were informed that much of th cause for complaint in canned meats was because of the mistaken idea that the goods would keep in perfect condition after they had been opened. This would be the fact if they were preserved with chemicals, but as they are only kept in condition because of being sealed in vacnum tins they spoil just as readily as fresh meats do after they have been opened and exposed to the air, but wil keep indefinitely if the can is not punctured. It is also a well-known scientific fact, that decaying meat generates

a gas which will explode any package which is hermetically sealed. Sanitary Inspector Hedrick submitted to Commissioner Whalen his analysis of conditions in the Libby, McNelll & Libby get | plant, He found "with reference to general conditions, that the floors, halls, | brandy sauce for dessert. from our standpoint-was in a satisfactory condition.
