One of our good farmers was telling on the streets yesterday a conversation he chanced to hear between a young boy in his teens and a Christian Scientist. It appears the scientist came across a small boy sitting under an apple tree doubled up with pain.

"My little man," he said "what is the matter?" "I ate some green apples," moaned the boy, "and oh, how I ache!" "You don't ache," answered the follower of Mrs. Eddy; "you only think so."

The boy looked up in astonishment at such a statement, and then replied in a positive manner; "That's all right; you may think so, but I've got inside information."

In Memoriam

[By an inadvertence the following item was left out of last week's issue.]

MRS. JOSEPH JACQUES. On Thursday last 21st June, there died at her home in south Glenelg Mrs Joseph Jacques at the age of 64 years.

Very sudden indeed did the call come. She was busy with her usual milking duties, her son passed her for the barn making some remark and shortly after looking in her direction he saw her fallen over the pail and on rushing to the spot found her breathing but unconscious. Aid was quickly summoned but the end had come and she died in a few minutes.

She was a daughter of the late Thomas Harrison of North Egremont and her brothers Edward, Thomas and Jones are still on or near the old home. Mrs Duncan McNab, Glenelg, is a sister.

The funeral on Saturday last to Saugen cemetery was largely attended. To the sorrowing husband and family, so suddenly bereaved we extend sympathy.

DAVIS FIRTH

On Friday last little Davis Firth, son of Mr. and Mrs. Jos. Firth passed away. He was nearly three years old, a bright boy, the joy of his parents, who feel the loss very keenly.

About a month ago he was at the brink of death but rallied surprisingly, rousing a hope that was not to be realized. The funeral took place on Sunday to Zion cemetery, Rev. Mr. Farquharson conducting the services, many neighbors and friends testifying their sympathy with the parents in the loss of their first born.

Additional Locals.

We are not given to boasting but we are proud of the farmer boys of this vicinity. They are, with rare exceptions, a healthy, intelligent and happy class of young men. We feel like taking our hat clear off when we meet them upon our streets, and no class is more welcomed to our office.

Too many boys leave the farm where they would have made substantial and good citizens, and go to the city where only one in a thousand succeed in life's battle. There are farmers who fairly drive their boys away. There is no excuse for this. The farmer boy is entitled to his vacations, to several relaxations, his visits to the city, good books, magazines and his home paper.

To the observing one it is plain to be seen that the old farm is the best place in the world for the average young man and never fails to bring a happier and more useful life than the city. Young men, you who till the soil and earn your bread by the sweat of your brow, we are proud of you; your latching is always out to you and you will always have a friend in this paper. Come and see us and give us the news from your neighborhood.

The petition to the Legislature from Bruce County council to change the school law which compels county councils to assist in maintaining their pupils attending High Schools in adjoining counties, had not any effect, consequently it costs this county about \$600 this year for Bruce pupils attending Owen Sound, Mt. Forest and other high schools in adjoining counties. The sum of \$408 was paid to Owen Sound Collegiate Institute for tuition of Bruce students.

The above is from the Paisley Advocate. We have the same grievance in this county in an aggravated form as far as Durham is concerned. Perhaps if Grey and other counties had joined Bruce in their petition, it might have received more consideration. We notice Bruce County Council are still in the fight to remove this unjust anomaly.

Nineteen Commandments.

Sir James Sawyer, a noted physician of Birmingham, England, has been talking recently to an audience in that town on longevity. Its secret, he thinks, lies in keeping the nineteen commandments following:

Eight hours sleep. Avoid inactivity. Keep your bedroom window open all night. Have a mat at your bedroom door. Do not have your beds set against the wall. No cold tub in the morning; but a bath at the temperature of the body. Exercise before breakfast. Eat little meat, and see that it is well cooked. For adults: Drink no milk. Eat plenty of fat to feed the cells which destroy disease germs. Avoid intoxicants, which destroy those cells. Daily exercise in the open air. Allow no pet animals in your living rooms, they are likely to carry about disease germs. Live in the country if you can. Watch the three D's; drinking water damp and drains. Have change of occupation. Take frequent and short holidays. Limit your ambition. Keep your temper.
