TOWN TOPICS

No REVIEW next week. A special meeting of the Farmers' Association will be held in the Varsity school house on Friday evening Aug. 31st. A full attendance is kindly requested.

D. McLVRIE Secy.
TORONTO EXHIBITION RATES—The following are the rates to Toronto and return from here during Exhibition weeks, from Monday, Aug 27th, good until Tuesday, Sept. 11th: August 31, Sept 3, 4, 6, 8, single fare rate—\$3 15, Aug. 30, Sept. 1, 5, and 7—\$2.35.

GOLD—Nothing too good for New Ontario. The latest is that a marvelous find of gold has been made in the township of Playfair, 85 miles north of New Liskeard and three miles from the government railway. This will stimulate the madcaps, who dream of making a new province up there, to further exertions.

JUNIOR LACROSSE—The Durham Maples, engaged in another friendly exhibition game Tuesday evening with the Hanover bunch, assisted by three of the Wingham C. L. A. team. Notwithstanding this and the absence of 3 or 4 of the regular Maples, the home team won out by 4 goals to 2, and these latter were scored by their opponents in the twilight. Only two quarters were played.

WOMEN'S INSTITUTE—The August meeting was held at the home of Mrs A. Scott, where canning vegetables and fruit were discussed in their various forms receiving some very good hints from each other. Next meeting will be held Sept. 6th, at the home of the president, Mrs D. McCrie. The main subject will be sewing and mending. All ladies are cordially invited to attend.

FOUR GRANDPARENTS—Mr and Mrs Henry Sheppard, Appleby, Halton Co., visited at their daughter's, Mrs R. Torry, of town for a few days over the week end. They, with their son-in-law and daughter, Mr and Mrs R. Torry, and grandchildren, three generations, visited for a day with Mr and Mrs Fred. Torry, of Bentinck, Mr Torry's parents. Thus were brought together at a patriarchal age the parents of both Mr and Mrs T. Not to many is given the pleasure of eating dinner in such company after a lapse of years more seldom still can children say as theirs could do, that they had eaten and talked with four grandparents at one meal. Mr Sheppard while here paid a visit to Mrs Neil McLean, who is his sister.

WALKERTON AND LUCKNOW—The August issue of the Railway World, an official authority on railway matters, contained the following in regard to the Walkerton and Lucknow Ry.:—A contract has been let to Macdonald and Stephens for the construction of the Protton-Walkerton section, 37 miles of this projected railway. The line will start from Toronto, Grey and Bruce Ry., about two miles north of Proton station, and passing through Priceville, Durham and Hanover will terminate at Walkerton, on the Wellington, Grey and Bruce branch of the G. T. R. The contractors—W. R. McDonald, Toronto, son of Randolph McDonald, and Arthur Stephens, C. E., Collingwood—have established their headquarters at Durham, and expect to have the entire work covered this fall and to complete a fair portion of the grading by the end of the year. The contract includes grading, tracklaying ballasting, etc. It is expected that the line will be extended from Walkerton to Lucknow, 17 miles. J. W. Leonard, Assistant General Manager C. P. R. Eastern lines is President.

To new subscribers we are offering the Review to Jan 1, 1907 for 25c. Send your name and amount in quick. Old subscribers are reminded that it will not pay to send their own paper to distant friends at that price.

SILVER SERVICE—The fine silver service procured for presentation by friends of Mrs Thos Caldwell (nee Mary Burnett) through Jeweller Percy Webster can be seen by everyone in his window from Thursday of this week. It is really elegant.

WATCH FOR THEM—Visitors to Toronto should watch for clever counterfeit bills of the Bank of Toronto \$10 denomination. Also American \$1 bills are being raised to 5's and 10's. Chemicals have been used to take off the figures and the other substituted.

NOTICE—The annual meeting of the Shareholders of this Company will be held in their office on Friday evening Sept 7th, at 7.30, for the purpose of electing Officers, receiving financial statements and the transaction of any other business that may be required.

THE DURHAM FURNITURE CO., LTD.
Why is it that one man finds it possible to maintain and in some cases even increase the fertility and cleanliness and appearance of his farm, while his neighbor with the same soil (naturally), the same sunshine and showers and the same natural advantages, permits his land to run down and become seeded with noxious weeds? It must be the man and his methods of management, in the learning and knowing how to do a thing and in doing it just right. Few men do as they know.

A WORTHY SCHEME—The pulpit of the Presbyterian church was occupied last Sunday night by Rev W. H. MacInnes representing the committee of the General Assembly that has in hand the work of increasing the Endowment of Queens University. In 1894 the students of Queens numbered 432. Each year since has shown an increase until last year the number of students was 1042. This increase in the number of students made necessary an increase in the equipment of the university. The city of Kingston presented the university with the new Arts building. This provided for the accommodation necessary in that respect. The church now has in hand the task of increasing the Endowment of the university by the sum of \$500,000 to provide for the necessary increase in the staff of teachers. During the week Mr MacInnes has been canvassing the families of this congregation for this work and has met with a very encouraging response. Last Sunday morning he presented this cause to the people of Amos church and in the afternoon to Knox church Normanby. He expects to canvass the families in these congregations the last of this week. Next Sunday he visits Holstein, Fairbairn and Mount Forest and so on week by week until all the congregations of the Presbytery are visited.

School Re-Opening.

Durham School, Public and Continuation Work, will open on Tuesday next and it is very desirable that all should enrol the first day if possible. The rooms are being put in order this week, the surroundings are lovely and there is a prospect of a large attendance.

THE MOCKLER SCHOOL.

Will open on Wednesday. It is not known at this writing, how many will avail themselves of what is supposed to be the last term of these schools. In future candidates will have to attend one of the seven Normal Schools, the nearest to us being Stratford.

Young Torontos Won

To-day's lacrosse match at Elora put Durham out of the running for championship honors, the Young Torontos getting the long end of the score, 11 goals to 6.

The result was a disappointment to Durham and many other supporters, but the team is to be congratulated on their high standing as they represent the last small town to be defeated in the Intermediate semi-finals. Excepting Copper Cliff, all other towns left in the semi-finals are city size. The Torontos have a strong line-up and will probably contest the Int. finals.

Close Game in Markdale.

Durham one behind, but wins Round by 14 goals.

In a game that was interesting to watch, exciting throughout, though not remarkably fast, Markdale took the Durhams into camp on their own half-field—beg pardon, King Edward Park—by the narrow margin of one goal, 3 to 2. Although not ahead in goals, the Durhams certainly excelled on the field, except during the first quarter. It was a game, which had the Durhams found necessary, they could have won aside from the Aberdeens evident determination to land this match at all costs. Having a lead of 15 goals in Durham, our boys were quite content to hold, without taking chances of boring in on the nets, at the imminent risk of being cut down. They preferred rather to lose the game, and keep in good condition for the more serious struggles soon to come in their efforts to land in the intermediate finals.

On the whole, it was not a swift game: fast lacrosse came only in streaks, one being particularly noticeable near the end of the third quarter on the part of the visiting home. Steady, consistent team play was noticeable feature of the Durham bunch. Only one change was made in the line-up. Hammond being unable to be present, little Harry Lavelle covered outside home. He put up a spirited and plucky game, but was too slow to do any effective work against the heavy Aberdeen defence.

The Aberdeens presented two changes in the line-up, but would refer just about a dozen to win in Durham or on neutral grounds; P. Kelly and Bamsley were benched, and the vacancies filled by Mercer in goal and Campbell at cover point. Judging by the Durham match, the bunch took on a new lease of life—yes, two or three—in fact, it was absolutely necessary to, to land on top.

Wright, of Toronto Junction, again refereed, and had less rough play to attend to than was expected. Three men only were penalized.

Five minutes after billed time, the game began, Markdale securing the rubber. The play was quite even until 6 minutes Cowan notched Durham's first amid enthusiastic applause. Then the visitors faded away and in 2 minutes more Dundas bulged the nets for Markdale. For a few minutes the home team had almost complete possession of the ball, but strong defence and goalwork prevented more scoring. The Durhams picked up and were on even terms when the quarter ended 1-1. The second was close, Durham having a slight advantage, taking nothing chiefly by long-range shots. No scoring. Markdale opened the third with another goal and a few minutes later J. Kelly was struck in the face by a swiftly shot ball. The game was stopped while he recovered. A draw-off opposite the goal resulted W. Lavelle securing the ball, and Cowan, on an accurate pass, evaded up the score. The Durham home continued with the greater portion of the ball the remainder of the quarter, but the third, like the previous periods, ended a tie 2-2.

The Aberdeens notched the leading goal after five minutes of the 4th. McCarty rushing in on the goal. Matheson was ruled off, whereupon the home bunch made valiant efforts for another to make the game certain, as Durham was bombarding their nets quite frequently. Neither succeeded and the Aberdeen rosters' secondary hope was gratified. Not a game lost in Markdale this season.

The largest contingent of supporters that ever went to Markdale accompanied the Durhams on this trip. The home town it appeared, lost heart over their idols' overthrow here, as the crowd did not come up to expectations for a semi-final lacrosse match.

Durham now enters round 2, int. semi-finals, and will meet the Young Torontos of Toronto, this Wednesday in a sudden death game at Elora.

Orillia, having beaten Beaveron, plays Copper Cliff a sudden death game this week, and the victor, presumably Orillia, meets the Young Torontos, of Toronto, in a sudden death game at Toronto Island Labor Day. The winning team in this match plays either Toronto Junction or St. Thomas for intermediate championship honors.

The Canadian National Exhibition, Toronto, has purchased Canon Woodville's famous picture, "The Dawn of Majuba Day," in which the second Canadian contingent is shown in front at the surrender of Cronje at Paardeberg. Critics pronounced it the most striking war picture ever painted.

"BUSY BERLIN"

—This is the title of an attractive pamphlet issued by the Berlin Board of trade. The connection between cause and effect is easily seen as one notes the work of the active committees of that body and the numerous industries of the place.

Report all items of interest to this office. They will be appreciated and each item will help to make the paper that much more interesting. We can not get all the news but by your help we can get the lion's share and that is what we wish to do. We want all the news that's news.

It is said that the best way to preserve apples in winter is to wrap them in newspapers so as to exclude the air. The exception is made, however, that the newspaper must be one on which the subscription has been paid, else the dampness resulting from what is "dew" may result in spoiling the fruit.

LABOR DAY—This Annual holiday is on Monday next and will be marked in all the big cities and towns, by demonstrations more or less peaceful. In Canada generally more, in Europe perhaps less. It is to be marked in Durham by a picnic of the cement men to Wilder's Lake and a fine time may be expected.

Among the cattle that will be on exhibition at the Canadian National Exhibition, Toronto, Aug. 27 to Sept. 10, will be cattle raised by his majesty the King, Lord Rosebery, Lord Rothschild and others of the English nobility. There will also be herds on view from Illinois and Indiana and a bull for which Sir Geo. Drummond paid \$14,000.

ORDER NOW—Sample copies of the Weekly Globe and Canada Farmer, with the fine illustrated Magazine section can be obtained by request at this office. No city weekly is comparable to this in its many excellent features. With the Review only \$1.00 a year, 50 cents for both to Jan 1, 1907, or if you do get the Review 25 cents for Globe alone.

STOP THE SALE—A discovery was made that an American firm in Toronto were selling picture post cards of the Armouries with American flags flying from the towers. Of course no foreign flag ever waved on this public building, and the firm excuse themselves for the impudent imposture by saying they were made in Germany. Imagine a Canadian in Washington selling cards with the Union Jack flying over the Capital! He would be stopped in short order. The Mayor of Toronto is going to stop the sale of them. American tourists have sent them home in thousands.

C. P. R. Wants Our School.

At a conference of the trustees of Durham Public School Board with Mr Morrow, the C. P. R. Agent, on Tuesday night, they were requested to put a valuation on their property as it was finally decided that the line was going through there. They have the assurance that they will have the uninterrupted use of the present building up to the next summer holidays, an arrangement that gives reasonable time to prepare for another.

The trustees at once appointed two practical men, Mr Geo. Kress and Mr Hugh McDonald to make a valuation of the property to submit to the authorities, and this will have been done before publishing day. The decision, though not unexpected will cause a great deal of worry and an expense far beyond what will be received for the present site and buildings.

Where do you want the new school? Please don't all speak at once.

C. P. R. Notes.

Thursday last several car-loads of supplies came to the station here to be used in construction work and without delay teams and men were secured and work begun on the Scarf farm (old Parker place) just east of the river, about 25 teams being already engaged. At present they are working towards the town limits.

\$4 a day for man and team is a wage that will draw farmers from their fall work for a while. Harvest over and fall wheat sowing there should be help enough of this kind offering.

Mr Edward Hartford is in charge of the gang of men working here and others are to be appointed. As will be seen, page 4, work is progressing in the Priceville district where they had the honor of turning the first sod in the line, an empty honor if the reports be true that they are to have no station there.

We made a visit to the workers on Tuesday as a large number of the citizens have done. The line runs straight from the river a few hundred feet south of the Durham Road bridge at Saugeen Park in a south easterly direction till it reaches George St. The grading is practically done from the river to the town limits, and six teams and their complement of men had started on a big cut across the river. Going west the line crosses the gravel road a little west of the cemetery and apparently is going through Mr. T. Hinton's barn.

The work is done almost exclusively by wheeled and ordinary scrapers, only a few men using shovels levelling. They are having a snap in material so far; sand and easily worked gravel.

A gang of men have been sent to Allan Park to clear wooded parts of the right of way in that neighborhood. New faces are constantly arriving, amongst them a bunch of foreign navvies.

10 more big scrapers—like all the other tools, new—are waiting to be hitched to in the sawmill yard at the Furniture factory.

STRAYED HELPER.

Strayed from the premises of the undersigned, Lot 54, Con 2 S. 10, R., on Friday Aug 17, a dark, red heifer, with mixed white and red face with white spot on rump. Anyone giving information leading to its recovery will be suitably rewarded.

WM. MATHER, Priceville.
