No man ever became really great in his bathers congregate, and the fancy cosprofession who did not subordinate all thought of gain to the one great thought of doing for its own sake the work before him. And the failure to do this has meant the utter spoiling of many a hopeful career. Men have thought that they could have a double standard of morality-one for private life and another for business. They have thought to take their conscience with them to the door of their business office, and then find it waiting there for them when they start for home. But after a while they missed it altogether, and with conscience went character, and everything worth having went with that . What is the greatest evil in business life to-day? Is it not that men are trying to do what Christ said could not be done-serve the the worthy end of business enterprise, which mean the prosperity and well-being of the nation, and at the same time serve the little, selfish, individual ands that seek only to clutch and hoard? And sometimes it seems as if the whole fabrie of business were threatened just because men were refusing to put character first. Commercial stability is founded only in commercial integrity, and the serious business of our day is to put mammon where it belongs, if we would conserve the things in our life that are best worth conserving. The silver and the gold are His, and the cattle on a thousand hills. Whatever the godless man will answer to this statement the professing Christian will not admit its truth, but will also say that he does not even own himself. He is not his own because he is bought with the price of the precious blood of Christ. If God owns the man, He owns the man's pos sessions, and the Christian view is that the Christian man is a steward or cor fidential agent for God on earth. If a man gets this view it will save him from being a money-grasper and a money hoarder, and neither one or the other of these is fit for the kingdom of heaven Christ tried to get the rich young rule to see that he was a steward and not man held to the view of ownership an was lost. Every saved man will put service like a faithful and discerning eagerly because of the grateful love to Jesus Christ that becomes the over whelming passion in the life of the true Christian. Paul always made appeal to the heart. "Every one, as he purposeth in his heart, so let him give," said the wise apostle. He had little faith in the liberality of people who were eternally calculating in their heads as to what they should give. Let the heart have reign and the problem of giving will be settled. The Greatest Place of Its Kied in All the World

The most popular and most wonderful place of its kind, not only upon the Jefsey coast, but in the world, is Atlantic City. There is but one Atlantic City, and as its name implies it is a city, and a thrifty one at that. It has a permanent population of 30,000 and an average transient population of about 35,000, making an aggregate average population throughout the year of about of Atlantic City is that there was practically nothing there excepting a great beach and a salubrious climate to warrant the building up of a permanent municipality. The London News gives this story: Some American visitors were being shown the treasures of the Sir John Sloane Mu seum. The curator said that a certain exhibit was "made in cork." One of the ladies in the party replied: "That is curious, for we are just going to visit some friends there." "I mean, madam, said the curator, "that this model was made out of cork." "That is still more curious, for our friends live a little way out of Cork." He gave it up.

The Czar of the Summer Hotel.

In the management of a hotel, sum mer or otherwise, aside from the manager, who must be the most tactful, and at the same time most reserved, sort of man, making friends easily yet holding them at a certain distance, comes the steward, upon whose shoulders falls much of the responsibility which is appreciated later in the profit-and-loss account of the season. The steward does all the buying. He must watch the market in order to have the freshest fruit and vegetable at the lowest price. He must also be endowed with a sixth sense which tells him how much to order so that there will be sufficient for all, yet no loss from over-supply of perishable material. It is safe to say that an inexperienced manager, assisted by an inexperienced steward, can lose more money in one season than experienced and first-class managers can make in fice. To the vast army of bon-vivants served by soft-footed waiters who deftly place upon the table dishes so skilfully prepared that they look as if grown by nature for the purpose, the kitchen with its hundreds of workers is a realm unknown and even unthought of. But to prepare the various delicacies which go to make a perfect dinner, a halfdozen or so women do nothing from early morning until late at night but peel potatoes, others peel onions, and there

Trying to Outdo Chicago,

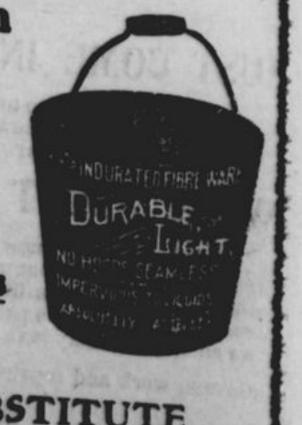

It is remarkable how rapidly the new city is rising from the ruins of the old Last week one vast expanse of ghastly and tangled ruins met the eye on all sides in the burned district. But behold the transformation one short week has effected. The dismal expanse is already dotted with low wooden and corrugated iron tenements for trade, all bright, new and smiling. They are even now imparting to the desolate scenes a cheerful air. At the rate at which they are geting up the burned area will be pretty well buried in its own graveyard within sixty or ninety days, and we shall see no more of it. We shall bid it farewell forever without regret. Chicago has already been held up as an example that the potatoes you bring me should be of how quickly a lively and enterprising so much bigger at the top of the sack than American city can arise from its ashes.
