-The Warton Echo speaking of the election of John Tolmie says Liberals were counting on a majority of 150 but never imagined such a landslide as 434. Warton, wheret here is usually a Conservative majority of 80 was cut down to 28. The Echo says:

Another very important reason is the extreme popularity of John Tolmie. With him the Liberals lost nowhere, and they gained every where. Big hearted, kind hearted, open hearted he made friends among all classes, and it is safe to say that no one will regret the confidence placed in him. He will carefully attend to the affairs of the riding, and everything is safe in his hands. But more than any of the reasons assigned, or all of them combined, is the confidence that the electors of North Bruce still have in the government of Sir Wilfrid Laurier. If it was on trial here it was splendidly vindicated, and while the Liberals here have no sympathy with improper methods of winning elections, they are fully satisfied that the other side has a few sinners. The one-sided way in which the Liberals have been hounded in the London investigations did not help the opposition in North Bruce.

While the Liberals are naturally jubilant, they do not forget that the result is largely due to an independent vote, which has to be reckoned with more in the future than it has in the past.

The campaign was short, sharp and decisive and it was conducted throughout in a creditable manner. It is now over and everyone is good natured about the result. North Bruce has been redeemed, but it has come, and John Tolmie is its present honored member.

-Hon. Mr Fielding was elected again last week by over 1000 majority, a convincing demonstration, that both he and the Laurier Government have lost no ground in Nova Scotia. It was a clean election and is a great rebuff to the clique said to be working against him. North Bruce was a greater win than first reported, Tolmie having 471 majority.

The net national debt of the Dominion has varied but slightly within the past eight or ten years. There has been some reduction in the foreign holdings through the payment of matured loans, but domestic instruments of credit have increased. The net debt per capita, however, is at present less than \$45, whereas during the '90's it was a trifle over \$50. The reduction is due altogether to the increase in population. The interest on this debt for several years past has been relatively smaller than twenty years ago. The best loan Canada ever made was in 1897, when \$10,000,000 bearing 2 1/2 per cent, was floated at a price costing the Government 2.86 per cent. The latest statement, that of August, shows the gross debt of the Dominion of Canada to be \$389,068,900, a net debt of \$266,918,459, the total assets amounting to \$128,121,441. The amount payable in England is \$204,738,350, and temporary loans payable in England of \$1,381,666. The domestic debt is partly made up of savings bank deposits of \$61,206,356; Dominion notes, \$51,531,638; bank circulation redemption fund, \$3,659,256, and miscellaneous banking accounts, \$36,210,251. Five years ago, July the gross debt was \$350,691,597; net debt, \$261,163,500; the assets being \$89,528,097. There was payable in England \$227,958,856, or \$21,750,000 more than in August last. The domestic debt, however, was much less then than now. - Saturday

Edge Hill S. S. Social.

The annual Sunday School social was held in the Grange Hall, Saturday evening Nov. 3. The year has been a very successful one although the attendance was slightly lower than last year. The usual excellent tea was served by the young people after which a splendid program was given consisting of vocal and instrumental music and recitations. Mr R. T. Edwards acted as chairman and enlivened the program by his many humorous remarks. At the close of the program an address and presentation of a beautiful pair of gold cuff links and a suit case was given to Mr W. J. who though taken by surprise made a suitable reply. We give the address below.

Mr W. J. Ritchie Dear Friend: - For the past four years you have been the faithful superintendent of our Sunday School and also at times the teacher of our Bible Class. During this time you have sacrificed yourself unreservedly for us and the cause always standing for the right and devoting your whole energies to the advancement of our Sunday School.

To all attendants of the school the success of your efforts is apparent. The large attendance, the interest taken and we trust the influence of your teaching and character on our lives all tell of your faithfulness. The Sunday School is one of the chief uplifting influences in a neighborhood and under your leadership, ours has been no exception. In view of these facts, we cannot let this occasion pass without asking you to accept this gift as a slight appreciation of the esteem and respect with which you are held by your many friends here.

In closing we all hope you may ever serve the Master who will reward you for the work done in this small corner of his vineyard.

Signed on behalf of the Sunday School, - Hebert L. Greenwood, W. G. Fitch, Neil Greenwood, Jas Edge, Willie Williams, Amy Edge, Arthur Greenwood.

BEFORE THE RAILWAY COMMISSION. - As indicated in our last issue, Messrs. R. J. Ball John Taylor and Val Kitchen waited upon the Railway Commission at Ottawa to press the town's interests in relation to the crossing of the C. P. R. over the Grand Trunk's tracks. The Commission met in their own hall, which is a building quite distinct from the parliament buildings, at 11 o'clock on Tuesday morning of the 1st of October. The matter was the subject of deputation at Ottawa. But this case was the 8th on the list and didn't come up until evening and then was left over until next day. On Wednesday morning McMurphy, solicitor for the C. P. R. opened the case, which was defended by Cowan, solicitor for the Grand Trunk. The engineers of both companies were there and argued the question from maps. The matter resolved itself into a question of engineering, and after hearing the case the commissioners decided to send up an engineer of each company, together with their own engineer, to look over the ground and see how the matter could be adjusted between them. Upon invitation Mr Ball on behalf of the town, made a few remarks. He said that the town wanted the C. P. R. in and that the point in question was the only point where they could cross to locate depot, etc., with advantages to the town. - Post.

Demand Good Rubber Goods.

There's a tendency on the part of some rubber goods manufacturers to see how little pure gum rubber they can use in their goods and still have them called rubber. The demand for cheaper good has brought on this condition but as such goods do not wear, people are beginning to call for something better, and we are prepared to supply it.

Such goods as we are selling are decidedly cheaper in the long run because they wear years to the interior goods' months. When you want family rubber goods come here first and see what the real thing is like, and also what real values are.

Selected Chamois

By selecting chamois we mean those which have been examined and found to be smooth, soft, even in color and without the thin spots that ordinary chamois are apt to have which cause the skins to go 13 pieces sooner than they ought. It costs us time and extra money to pick out such goods, but nevertheless we prefer them for they are really better values and more satisfactory to our customers.

We have selected skins in all sizes and at prices ranging from 10c to \$1.25.
