**The Review**  
Durham, Ont.

CHAS RAMAGE,  
Printer and Publisher.

## DOWN TOPICS

**During the coming Christmas season we would request merchants and all advertisers who wish their ads changed to have them not later than Monday night.**

**Don't miss seeing Santa Claus at the Big**

The Burns church Sunday School will hold their annual Christmas tree on Friday evening the 21 of December at the church, Rocky Saugen. Admission 15 cents.

## NOT DEAD.

Gang of surveyors are in Owen Sound taking soundings for the swing bridge to be used when built for the Huron and Ontario Electric Railway. Who said it was dead?

Miss Mary Little a Mt Forest High School pupil, daughter of Rev J. Little, Holstein, has been granted a second class certificate on appeal.—Rep.

**BLOW ZERO.**—Thursday and Friday last were record days for December the thermometers reading 8 and 10 degrees below zero. It has been milder since and light snowfalls keep the sleighing good.

**GOT A DIPLOMA.**—Mr Ed Kress, Furniture man and undertaker got a Diploma recently from the Embalmers' Association which testifies to his fitness, after a course in training, to undertake all embalming entrusted to him. This practice is coming into general use in the interests of the living it appears, and legislation on the subject is looked for. We congratulate Mr Kress.

Mr Percy, agent of the Tract and Book society and acting as a collector for them, is in town this week. He occupied the pulpit of the Presbyterian church in the morning of Sunday last and the Baptist in the evening and gave an account of the aims and objects of the society. By personal incidents he showed how beneficial colporteur work was, even in settled districts, but especially among sailors, lumbermen, miners and construction camps. Contributions to the work thankfully received.

**DEPOSIT NECESSARY.**—An option for the purchase of property is not binding unless something is paid for it, even though the offer states that it is to be "open and irrevocable" for a given period; and a company may be served with a notice by delivering it to the secretary. These two points are stated in a judgment of Mr Justice MacMahon, issued last week in a case tried at Peterboro', in which the Trent Valley Sugar Provision & Cold Storage Co sued Hermon Wilson for the transfer of property worth \$3,000 in North Monaghan. Wilson had given a six months option, but with drew it within the time, and is upheld on the ground that no consideration was given him for the option.

## MODEL SCHOOL.

This week the final examination in practical teaching is going on in the Model School before Inspector Campbell the academic subjects following. Of the full list of 25 in attendance quite a number are not qualified to teaching owing to age limitation or other causes, but were granted the favor of attending what is likely to be the last session of the Model School. Those who have secured schools for 1907 are as follows: Mr Bailey goes to No 5, Glenelg; Miss McComb, Rocky Saugen; Miss Troy, No 6, Normanby; Miss Wallace, Desboro; Mr S. Ferguson, Prin. of Kesberly Public School; Mr Arthur Weir, Edge Hill; Miss Jessie Farquharson, J. Dept. of Flesherston public school.

**LARGEST IN CANADA.**—Commissioner Neil McCannell was fortunate enough to see, while visiting friends in Collingwood, the launch of the "Midland Prince" on 5 Dec., the greatest steel steamship ever built in Canada. He gives the following particulars of its dimensions. "It was built at the shipyards of the Collingwood ship-building Co. and at the launching every thing went like clockwork. The great cables were cut with one stroke of broad axes and she took to the water like a duck. She was christened by Miss Hays daughter of Gen Manager Hays of the G. T. R. The monster is of the highest classification 100 A. 1 register, 500 ft long with two Scotch boilers, the largest ever built in Canada 154 ft in diameter by 12 ft long between heads; 2200 H.P., cost \$395,000, all built in Collingwood and altogether is a ship that Canada may be proud of." Long may she float and safely.

A nice assortment of Ladies' collars and belts at MacFarlane's.

A merciful man is merciful to his beasts. We like to see our farmers when they drive into Durham on a cold stormy day, put their team in the stable and cover them with blankets. They are many however who on cold days will rush for a stove themselves and leave their horses in a cold shed. There is something wrong about the man who will thus abuse his team. He may be a nice man, may be a Sunday School teacher, may not swear, smoke, nor have any bad habits but we would not want to be his horse.

**See our new stock of Ladies' fancy collars from 25c to 50c at Grant's.**

**A MUIR MEMORIAL.**—A movement is on foot to honor the memory of the late Alex Muir by a memorial of some kind, and, as is fitting, the hundreds and thousands of young people who have sung his "Maple Leaf for ever" are being given a chance to contribute thereto. Mr Muir was a true patriot, fought in the ranks of the volunteers in 1886 to defend his country, was effective on the platform in speaking for his beloved country and though his song became national he never made money out of it. This movement has also in view making provision for his wife and invalid daughter to whom recognition might well be given since the husband and father like too many worthy men got little of it in his life time. The trustee board at last meeting authorized Prin. Allan to take up an offering in the school and teachers have a fine opportunity of inculcating patriotism by pointing to his life and work. He was a teacher in Toronto for over fifty years.

## In Memoriam

### Joseph Jacques

On Friday last at his home on the 2nd con., S Glenelg, the above gentleman passed over to the great beyond, at the age of 75 years 9 mos, 23 days. For several years he has been in poor health, and his decease from heart failure was not unexpected. A short time ago the startlingly sudden death of his wife took place and the shock told upon him. His wife was Emma Jane Harrison, whose brothers are well-known in N. Egremont. They were married in the 60s of last century and to them were born eight children, the six survivors being, Mrs Frank Gutmann, Idaho; Joseph at home; Susanna, Toronto; Geo H. in Alberta; Thomas Edward in the States, and William on the old home farm on the town line.

Deceased was a native of Lincolnshire, England, and came to Canada in 1861, taking his full share of pioneer bush work. In politics he was a Conservative and was a consistent member of the Methodist church. The writer and all who knew him will vouch for his unbending integrity. He was more than averagely intelligent, took an interest in public affairs, and was a student of the bible, in which he was well read. To his children and to his neighbors his memory will remain a healthy inspiration. His remains were buried in Saugen cemetery on Monday amid many tokens of respect and regret.

**Mrs. Wm. Firth**

Mrs Wm. Firth has the sympathy of many friends in the deep affliction he is called upon to endure in the loss of his wife on Wednesday morning of this week. For about two years she has been ailing and lately it was seen that death was in the cup. One little girl about two years old remains to the husband's care. She was a daughter of the late Neil McKechnie, of Glenelg, brothers being Dugald, in town, John on the homestead, Chas. a druggist in Sask., Hector in Man., and a sister, Mrs Dan McLanes, Man. The aged mother who has been faithful in attendance for a few weeks to husband and relations we extend sincere sympathy. The funeral will be on Friday afternoon.

**High Class Concert.**—Scott's Greys Camp of the Sons of Scotland have their annual concert planned for Thursday of next week, the 20 inst. Miss Iona Robertson and Miss Duff, well-known and talented artistes have been engaged and high class humorist. Watch for posters and fuller particulars. Dec. 20th.

**WELL DONE, CANADA.**—Two years ago the steamship "Bavarian" went aground on Wye Neck, below Quebec, and she has lain there ever since. Wrecking companies on both sides of the Atlantic attempted to float her and sailed. Experts were brought both from Great Britain and the United States, but none of them could accomplish the task, and finally gave it up in despair. Then a Canadian, Wm Leslie, of Kingston, undertook the job, entering into an agreement with the owners last August; and last week the steamer was successfully floated. What wreckers on both sides of the Atlantic pronounced to be impossible, one of Canada's sons had succeeded in accomplishing. One of the interesting things about it is that Mr Leslie is about sixty-five years old, and according to some recent theories should have been chloroformed about five years ago.—Guardian.

A young lady not many miles from the city of Guelph went into a dry goods store the other day, and blushing asked the head clerk if he "had any of those elastic bands, capable of being elongated and adjusted at pleasure and used by the feminine portion of mankind for putting a load on the lower extremities of their locomotive members to keep in the proper position and the required altitude habitaments of their tibias". The clerk is now on a sheep ranch.

## Business Locals

Snap in millinery at S. F. Morlock's. The latest thing in Ladies' leather hand bags at Grant's.

Morlock's advertisement this week will well repay reading. See page 4.

Rubbish and Overshoes in all kinds at Morlock's.

Christmas Arrivals—Never was there seen in town such a magnificent display of Men's Neckwear, as is this year. H. H. MACKLER.

## Cement Works Closed Down.

The extreme frost last week played havoc at the lake end of the works rendering it difficult if not impossible to keep the pipes open, so on Saturday last the "wet end" became dry.

This is an earlier closing down than last year by 13 or 14 days, but though the season has been shorter the work done has been greater. We estimate that 215,000 barrels were made in 1905 while this year a total of 200,000 barrels is the figure. This is certainly a creditable showing and if the expense side has been kept as low as was expected a very gratifying exhibit can be made at the Annual meeting to be held some time in January.

However there's room yet for improvement. While closed down much unavoidable expense has to be incurred, and no gains to offset it. It has been suggested that men enough can be secured "dry" within a mile of the works to keep a few of the rotaries going all winter, while others are under repair and this would result in keeping down the debt piled up in the silent season, if indeed it did not add, even slightly, to the gains. Our climate is against the wet system in winter and if the above suggestion is within the realms of feasibility it should be considered.

We believe it is the intention of the Directorate to declare another dividend. If this can be afforded, and they should know, it will be evidence of a most successful season, and gratifying to the shareholders. There is abundance of man in sight and arrangements have been made with the C. P. R. to haul the stuff from the recently purchased deposit near Handover.

It will be earnestly hoped the smoke nuisance is over. Among the overhauling to be done is the erecting of new snokstacks with devices of some kind to consume the smoke. We hope the changes and repairs necessary will furnish employment to many of the hands.

## BORN.

SWANSTON.—In Egremont on Nov 30th, to Mr and Mrs J. A. Swanston a daughter.

## DIED.

FIRTH.—In Durham, on Wednesday 12 December, Mrs Wm Firth, aged 25 years. Funeral on Friday.
