DARLING'S FOR HANDSOME AND USEFUL HOLIDAY GIFTS.

December 20th.  
Shortest Day to-morrow.  
Christmas on Tuesday next.  
Have you all your presents bought? "It is more blessed to give than to receive."

Don't miss seeing Santa Clause at the Big 4.  
Fine sleighing has allowed good business to be done during the week. Roads rather icy.

Every one is interested in an item of local news. If you know of any local happening that is not generally known communicate the fact to this office.

People do not place confidence in the many rumors that are constantly flying about the streets. You can help us run down all rumors by giving in all the particulars of all local happenings.

We direct the attention of our readers to the advertisement of the popular Elliot Business College of Toronto a school that is growing greater year by year and is well worthy of patronage. Write to the Principal, Mr. W. J. Elliott for a catalogue of his school. The Winter Term opens Jan. 2nd.

MAY BE A DAY LATE.—Christmas falling on Tuesday this year, one of the worst days of the week for the printer, next week's issue may be a day late for some of our mail, and the same may apply to the week following. Ye Editor and staff wish all readers a Merry Christmas and say "Thank you" for the privilege we have taken.

GET PEN CRAZY.—Our readers must have noted the cut of a Fountain Pen, Pelric Model I, appearing in the Review. We are offering this pen for 50 cents to all paid in advance subscribers at the nominal price of 50 cents. The pen is a useful and serviceable article, gold point, richly chased. Such a pen is a modern necessity, easily filled, common ink can be used, and it can be safely carried. Get one and let your neighbor see it. If you live at a distance send 5 cents postage extra to us and it will be mailed you from the factory.

The Burns' church Sunday School will hold their annual Christmas tree on Friday evening the 21st of December at the church, Rocky Saugeen. Admission 15 cents.

Our school boards are to be commended for favorably considering better wages for teachers and better appliances for school rooms in accordance with the new Law. In nearly every case they have manifested a willingness to appropriate the necessary funds to put the buildings and grounds in good order. What is needed most is some one in every district to lead. The teacher should not leave it to the trustees nor the trustees to the teacher, both, with the assistance of the patrons and pupils, should lend a hand.

THE MODEL SCHOOL examinations could not be concluded last week. Six teachers from outside came in to write for an extension making 31 in all, and as each one has to teach two lessons, besides the other work, it takes a long time. The large attendance at the Model school this year, caused no doubt by the prospect of losing it, leads one to fear that its absence will be greatly missed. Many took advantage of it here who could not afford to go from home, so the man with the short purse will be the loser.

HOL FOR PRICEVILLE.—Thursday night of this week, Scots Greys' Camp of the S. of S. of Priceville, will hold their annual concert, Miss Iona Robertson, a native of Mull, Scotland, Miss Janet Duff, Prima Donna, also of Scotland are the Star performers. Miss Annie Jaffray, a noted pianist and accompanist is also in the group, and with pipe music by an efficient pipe band is material for a first class program. All seats reserved. Plan of hall at Priceville P. O. Apply early.

DURHAM PUPILS GOT MEDALS.—We are informed that Mr Arthur Weir got the medal for general proficiency for Part II Sr Leaving at the examination at O. S. Collegiate Institute, while Miss Amy Edge took a similar medal for Part I. Sr Leaving. These pupils both went through the Upper rooms of Durham School. We congratulate them on their success. At Owen Sound this Wednesday evening a public presentation is being made.

Great bargains in trimmed millinery at Miss Dicks.

A nice assortment of Ladies' collars and belts at Miss Dicks.

HIGH CLASS CONCERT.—Scots Greys' Camp of S. of S., Priceville, have their annual concert planned for Thursday of next week, the 20 inst. Miss Iona Robertson and Miss Duff well-known and talented artists have been engaged and high class humorist. Watch for posters and fuller particulars, Dec. 20.

Call at the Standard Bank and get a calendar for 1907.

S. G. Temperance Association arranged a meeting in the Methodist church here on Sunday evening. Rev Mr Bice, Rector of Trinity was the speaker of the occasion and gave an earnest address on the influence of the home in relation to the temperance question and was impressive on the necessity of personal consecration of the members of Christian churches. There was a large attendance.

Mr Fred A. Lewis, piano tuner, expects to be in Durham in January.

PRINTERS IN HARD LUCK.—Last week Mr Irwin of the Chronicle had a smash of his gasoline engine before his issue was half through. We took in hand in a neighborly way to finish the Chronicle on the Review press and getting along nicely when a slip in feeding made a smash on our press which put an end to the neighborly stunt and compelled the issue to be finished by hand on his own press. Investigation of our own mishap showed that it could be repaired locally. Mr J. S. Drysdale a local artist in iron, took it in hand and assisted by Mr Duncan of the Farmer's Man, and Supply Co. have once more got us going in good shape. Mr Drysdale had experience among many kinds of presses in Scotland and in this country, and though he never handled an "Oscillator Campbell" he succeeded in getting "on to it," and got the intricate adjustments of cog-wheels &c., into their place. Mr Irwin expects his engine back from the makers this week, so that everything is "as you were." Our thanks are due also to Bro Irwin of the Chronicle who has a knack with machinery that would have made him a good engineer. We don't believe in the theory advanced by some, that our press, resenting the printing of a Tory paper, tried to commit suicide.

Santa Claus is stout, elderly, conservative, self made saint, with a jovial temperament, in type plutocratic. His wealth, if tainted, has never been Theodorized or subjected to the germ analysis of Mr MOODY. Why this immunity? His gifts are, in the main, unnecessary and unequal. He gives to the slender starveling a tin whistle, to the stuffed richling a golden automobile. His Christmas cigars are notoriously violent, his mementoes in the way of slippers, gloves, and dressing coats often do injustice to the human form divine. Yet nothing we can say, in truth or malice, can dim the splendors of his popularity. Suppose he should become sensible, useful, necessary; suppose he should withdraw his flood of little gifts and devote the value to some humane institution, like a Home for Honest Politicians or a College for Domestic Servants. Would the world bless him? No! In a week we should class him among the Robber Barons. The world, though a wise and temperate planet, refuses to be instructed or improved at the present season. Hall therefore, St. Nick! Hoch, bravo, and likewise banzai.—Collier's.

## Christmas 1906.

Again has come round the great holiday season of the year, marked as no other holiday season is marked, by the promptings of the Christian gift-giving spirit. It is, or should be accompanied also by the forgiving spirit in accordance with the great message "Peace on Earth, good will towards men."

It is hard to imagine the kind of world this would be without the influence that springs from the Christ-child and from the Cross. The spirit of brotherhood would be weak, the charm of the home circle would be largely gone, and even national life would lose.

But we need not try to imagine this, the blessed season is here, and to one and all of our numerous readers we extend the good wishes of the season. A Merry Christmas and a Prosperous and Glad New Year.

J. R. Gunn says a bottle of that Exquisite Violet Perfume \$1.25 would make a nice gift. The violet is always a welcome present.

LIKES THE COUNTRY.—A letter recently received from Mrs Amos Chislet states that she arrived all right and her experiences of the country have impressed her favorably. She writes: "I do not find it any colder than Ontario so far. North Battleford is a brisk stirring town for so young a place and growing very fast there has been five new houses built since we came and quite a number building and they are building a very large skating rink. It certainly is a lovely country and the people are very friendly and nice, so easy to get acquainted here."

MORE EQUIPMENT.—An addition has just been made to the equipment of Durham School costing about \$150. It consists of appliances, electrical and otherwise for the more advanced teaching of Physics and Chemistry to the Continuation Classes. A library for the use of pupils is also to be installed shortly. The Report of Inspector Cowley, based on his recent visit, has been received and is very flattering in the main and says "the work is being taken up in an earnest and systematic way." The School, by its new and extensive equipment is quite equal to many High Schools. The staff is enthusiastic and efficient, and the Board, as recent outlays prove is bound to be progressive. Insp. Cowley says the attendance is satisfactory and much larger than in most other schools. Only two schools in the province, besides Durham employ the full time of three teachers in Continuation Work.

THE GUILD.—Monday evening the Pres. Guild had a red-letter night. Dr Brown of Holstein, President of Saugeen Presbyterian Society was announced and a much larger attendance than usual was present. Rev Mr Little accompanied him and said a few appropriate words as introductory. The Doctor's topic was "power" in the service of Christ and very impressively and unaffectedly he pressed his points. In his deep earnestness he reaches for the heart and conscience of his hearers very strongly, and it is impossible to escape the mental attitude of introspection he induces. Dr Brown is no mean member of his profession, he is popular as soloist, public spirited in every good cause and hearing him as an evangelist one is forced to say "what manner of man have we here." He is making a round of all the societies in the Presbytery and must leave a useful inspiration behind him.

## Principal Allan Caned

Friday last the Model school pupils had an interview with their Principal of the last four months, the occasion being made to give expression to their respect and regard for him. A warm address was presented, a summary of which we append:

It opened with expressions of regret at the impending separation, had been glad to meet and were sorry to part. Some of them had met him as strangers three and a half months ago, others had been under his tuition for years, but separation for all must now take place. His services to them had been golden, no favoritism had marred his intercourse with them, and to all he had been a friend. The memory of his earnestness, which had never abated, would remain with them as an inspiration to strive for a higher goal and they would remember his classes as one of the privileges of his lives. As many had profited by his labors, they hoped many more would do so. They hoped his influence would continue and expand and that he might long be spared to perform his duties with the same vigor and efficiency. As a slight token of these sentiments they asked his acceptance of a gold headed walking cane assuring him that such affection went with it. Mr Allan made an appropriate reply and Inspector Campbell, who was present gave a brief address. The address was signed on behalf of the 25 modelites by Wm Bailey, Mae Dickson, Lizzie Alderson, Arthur Weir.

**DARLINGS, The People's Druggists**

**Municipal Politics.**

Mr Wm Calder at the request of many ratepayers has decided to offer himself for the position of Mayor for 1907. His own ambitions would have led him to the reeveship, if anywhere, but he hears the call of the town, we presume to the former office. We do not know whether Mayor Hunter bears the call for a fourth term or not. Either of these men should fill the chief station with credit to the town and to themselves. Mr Hunter has steered the town, pretty carefully for three years and Mr. Calder's civic ability in the past has let many marks to show its value.

For the reeveship the names of Wm Laidlaw and John Brown are mentioned. Both of them have civic experience, and Mr Brown has Co. Council experience also. Either of them can fill the bill.

Ten names are as yet mentioned for the council positions, but aspirants will be heard from in due time.

The town is at the parting of the ways: there is such a thing as "taking occasion by the hand" and helping ourselves onward, the new C. P. K. line with its attending activities in construction, the publicity the town gets as one of the chief, if not the chief station on the new line, is one of these occasions, and calls for the election of a Mayor and council who can rise to the occasion and lead Durham into the promised land of an increased and throbbing business life, such as its position, surroundings and capabilities make it entitled to.

**RAILWAY MISHAP.**—Near Allan Park last week the trestle work of a temporary track on the new railway gave way and several cars slid down the embankment. Mr Arthur Hunt and two others were in jeopardy but fortunately escaped with a shaking up.

Lenahan & McIntosh have got their new shop front closed in and are making rapid progress inside, plastering etc. Early in the new year they will be ready for business.
